I. Executive Summary

MED-Project LLC (“MED-Project”) operates a Producer Stewardship Plan for Sharps from Households dated August 31, 2022 (“Approved Plan”) in the County of Alameda (“Jurisdiction”) under the Alameda County Safe Consumer-Generated Sharps Disposal Ordinance No. 2015-53, Alameda Municipal Code Chapters 6.54.010 – 6.54.180 (“Ordinance”). This 2023 Alameda County Sharps Annual Report (“Report”) describes MED-Project’s activities between January 1, 2023, and December 31, 2023 (“Reporting Period”). All capitalized terminology not defined in this summary is derived from the Approved Plan.

MED-Project has served the residents of the County since 2018, including by collecting over 190,000 pounds of Sharps. MED-Project’s comprehensive outreach and education program has generated over 40 million impressions to County residents.

A. Notifications in the Reporting Period

MED-Project did not submit any notifications to the Alameda County Department of Environmental Health (the “Department”) during the Reporting Period.

B. Reporting Period Operations Overview

During the Reporting Period, priority was given to establishing Sharps Kiosk Drop-Off Sites throughout the Jurisdiction, and performing outreach to eligible pharmacies, hospitals, and clinics with on-site pharmacies, and Law Enforcement Agencies (“LEAs”) throughout Alameda County. As a result of these efforts, MED-Project’s Program collected and disposed of Sharps from 66 Sharps Kiosk Drop-Off Sites, Mail-Back Services, and four Household Hazardous Waste Facilities during the Reporting Period. MED-Project installed 15 new kiosks during the Reporting Period.

Kiosks were installed in pharmacies that meet all local, state, and federal requirements and that executed agreements with MED-Project. In addition, outreach and educational materials, including signage and/or brochures, were distributed to new Kiosk Drop-Off Sites and select existing Kiosk Drop-Off Sites.

MED-Project provided disposal instructions to select Kiosk Drop-Off Sites and Mail-Back Services to Residents and continues to communicate with Kiosk Drop-Off Site Hosts to distribute outreach materials upon request, review procedures as needed, and improve overall Program design.

As outlined in the Approved Plan, the ultimate goal of the Program is to provide Residents with convenient, safe, and accessible methods to dispose of Sharps.

The following Sections of the Report address the specific reporting requirements in Ordinance Section 6.54.120. Each section of the Report restates the corresponding

Ordinance requirement and provides the required information. Numbers in the Report have been rounded to the nearest tenth place.

DISPOSAL METHODS: CHECK THE PACKAGE, CONVENIENT LOCATIONS, MAIL BACK, TAKE-BACK EVENTS

Medicines help treat diseases, manage chronic conditions, and improve health and well-being for millions of Americans. It is important that patients take their medicine as prescribed by their health care provider and as indicated on the label or packaging. It is also important to be sure to store sharps securely to prevent accidental ingestion, sticks or misuse by others, especially children. There are a number of ways to dispose of unwanted sharps.

Please dispose of any items on the NOT ACCEPTED list at your local Hazardous Waste Facility. Call 1 (800) 606-6606 or visit Household-HazWaste.org for details.

DISPOSAL OF HOUSEHOLD SHARPS

1 CHECK THE PACKAGE

If there are specific instructions on the label, package or package insert, please follow those instructions.

Never place sharps in the trash or recycling, and never flush them down the toilet. Disposing of sharps in the trash or recycling may put trash and sewage workers, janitors, housekeepers, household members, and children at risk of being harmed.

2 CONVENIENT LOCATIONS

To find kiosk sites in your area, visit the Convenient Locations section of www.med-project.org.

3 MAIL-BACK

Mail-Back Services are available in your area. To order a Mail-Back package, visit the Mail-Back section of www.med-project.org.

4 TAKE-BACK EVENTS

Local take-back events offer residents a free and convenient way to dispose of sharps. For information on events in your area, visit the Take-Back Events section of www.med-project.org.

DISPOSAL OF HOUSEHOLD SHARPS

Sharps can be dangerous to people and pets if not disposed of safely. Sharps can cause injuries and/or spread infections that cause serious health conditions. These infections may include:

Hepatitis B (HBV), Hepatitis C (HCV), and Human Immunodeficiency Virus (HIV).

Safe sharps disposal is important whether you are at home, at work, at school, traveling, or in other public places such as hotels, parks, and restaurants. Pet owners who use needles to give medicine to their pets should follow the same sharps disposal guidelines used for humans.

SHARPS DISPOSAL CONTAINERS

All sharps disposal containers should be made of heavy-duty plastic; able to close with a tight-fitting, puncture resistant lid without sharps being able to come out; upright and stable during use; leak-resistant; and properly labeled as "sharps waste" or with the biohazard symbol and the word "BIOHAZARD" to warn of hazardous materials inside the container.

Place all sharps in a sharps disposal container immediately after they have been used. This will reduce the risk of needle sticks, cuts, and punctures from sharps. Sharps disposal containers should be kept out of reach of children and pets.

DO NOT REUSE SHARPS DISPOSAL CONTAINERS

ELIMINACIÓN DOMICILIARIA DE OBJETOS PUNZANTES

Los objetos punzantes pueden ser peligrosos para las personas y los animales domésticos si no se eliminan de forma segura. Los objetos punzantes pueden provocar lesiones o diseminar infecciones que causan serias afecciones de salud. Entre estas infecciones se pueden encontrar las siguientes: la Hepatitis B (VHB), la Hepatitis C (VHC) y el Virus de la Inmunodeficiencia Humana (VIH).

La eliminación segura de los objetos punzantes es importante ya sea que se encuentre en su casa, en el trabajo, en la escuela, viajando o en otros espacios públicos como por ejemplo, hoteles, parques y restaurantes. Los dueños de animales domésticos que utilizan agujas para administrarles medicación deben seguir los mismos lineamientos para la eliminación de objetos punzantes que los utilizados para los seres humanos.

CONTENEDORES PARA ELIMINACIÓN DE OBJETOS PUNZANTES

Todos los contenedores para la eliminación de objetos punzantes deben estar fabricados en material plástico de alta resistencia; poder cerrarse con una tapa hermética resistente a las pinchaduras sin que los objetos punzantes puedan salir; mantener un posición vertical estable durante el uso; ser a prueba de derrame; y estar adecuadamente rotulados como "desecho de objetos punzantes" o con el símbolo de peligro biológico y la palabra "PELIGRO BIOLÓGICO" para advertir que contienen materiales peligrosos.

Coloque todos los objetos punzantes en un contenedor para eliminación de los mismos inmediatamente después de que se hayan utilizado. Esto reducirá el riesgo de pinchaduras con agujas, cortes y pinchazos con objetos punzantes. Los contenedores para eliminación de objetos punzantes deben mantenerse fuera del alcance de los niños y de los animales domésticos.

Medicine & Sharps Usage

If there are any specific instructions on the label, package, or package insert, please follow those instructions.

Adhering to your medication routine means taking your medicine as directed or as prescribed – the right dose, at the right time, in the right way and frequency.

Sharps is a medical term for devices with sharp points or edges that can puncture or cut skin. They may be used at home, at work, and while traveling to manage the medical conditions of people or their pets, including allergies, arthritis, cancer, diabetes, hepatitis, HIV/AIDS, infertility, migraines, multiple sclerosis, osteoporosis, blood clotting disorders, and psoriasis.

Never dispose of medication or sharps down the sink or toilet, and do not place sharps in the trash or recycling. Doing so may put waste management and sewage workers, custodians, housekeepers, household members, and children at risk of being harmed.

If you have questions about any medication or your health, please contact your healthcare provider.

To protect your family, pets, and community, follow these instructions for secure storage and safe disposal.

Use as Directed

Use medication as directed. If there are any specific instructions on the label, package, or package insert, please follow those. If you have any questions, ask your healthcare providers.

Brochure – Sharps Program

Outreach and Education

Part of MED-Project's mission is to reach out to the local community and educate residents about the proper disposal of unwanted household sharps.

Are You Done With Those?

Safe and Free Sharps Disposal. We Make it Easy for You!

What should you do with your unwanted sharps?

Sharps is a medical term for devices with sharp points or edges that can puncture or cut skin such as lances, needles, syringes auto-injectors, and other devices used for injections. They may be used at home, at work, and while traveling to manage the medical conditions of people or their pets, including allergies, arthritis, cancer, diabetes, hepatitis, HIV/AIDS, infertility, migraines, multiple sclerosis, osteoporosis, blood clotting disorders, and psoriasis.

MED-Project programs and services make it safe, free, and convenient for you to dispose of sharps.

Use as Directed

If there are any specific instructions on the label, package, or package insert, please follow those. If you have questions about your medication or health, please contact your healthcare provider.

Store Securely

Place all sharps in a sharps disposal container immediately after they have been used. This will reduce the risk of needle sticks, cuts, and punctures from sharps. Sharps disposal containers should be kept out of reach of children and pets.

Dispose Safely

DO NOT place loose sharps in the trash and never place sharps in recycling. Drop off or mail-back your unwanted sharps in a sharps container for safe disposal.

Never dispose of sharps down the sink or toilet. Doing so may put waste management and sewage workers, custodians, housekeepers, household members, and children at risk of being harmed.

Disposal of Household Sharps

MED-Project provides safe, free, and convenient disposal options for unwanted sharps in your community. Simply use one of our easy-to-locate drop boxes or submit an order for a pre-paid mail-back package for proper disposal.

All sharps disposal containers should be made of heavy-duty plastic; able to close with a tight-fitting, puncture-resistant lid without sharps being able to come out; upright and stable during use; leak-resistant; and properly labeled as "sharps waste" or with the biohazard symbol and the word "BIOHAZARD" to warn of hazardous materials inside the container.

Do Not Reuse Sharps Disposal Containers.

Drop Box

Conveniently located drop boxes are available in your area where you can deposit filled Sharps disposal containers. To find a drop box near you, visit the Find a Location section of med-project.org.

Mail-Back

Mail-back packages are available in your area. All sharps mail-back packages include a sharps disposal container and are pre-addressed with postage pre-paid. To order a mail-back package, visit the Mail-Back section of med-project.org.

To find out more about the disposal options in your area, visit med-project.org.

To protect your privacy, patients are reminded to remove all personally identifiable information on medication labels or packaging before disposing of unwanted medication.

What can I dispose of?

Please separate and remove any items and medication that are not accepted before disposing.

Accepted: Sharps (such as hypodermic needles, pen needles, pre-loaded sharps, auto-injectors, intravenous needles, lancets, and other devices used to penetrate the skin for drawing blood, or for the delivery of medicines) contained in U.S. Food and Drug Administration cleared sharps containers.

NOT Accepted: Controlled substances (such as opioids), unwanted medicines not contained in sharps, or loose sharps that are not contained in U.S. Food and Drug Administration-cleared sharps containers.
