Appendix F - Outreach and Promotion Activities	31

I. Executive Summary

Ordinance Sec. 6.53.080 - Executive Summary. The purpose of the Executive Summary is to provide a broad understanding of the Plan as a whole and context for the data and information that will follow. This summary should include a brief description of collection and disposal efforts during the reporting period. The executive summary should also include a description of proposals to improve collection efforts and challenges encountered during the reporting period, and how they will be addressed.

Inmar Rx Solutions, Inc ("Inmar") was approved to operate a Drug Stewardship Program ("Program") on April 1, 2022 pursuant to the Alameda Safe Drug Disposal Ordinance located at Title 6 of the Alameda County Health and Safety Code, Sections 6.53.010 through 6.53.120 ("Ordinance") and the Alameda County Safe Drug Disposal Regulations ("Regulations"). This Annual Report is for the Reporting Period between April 1, 2022 and December 31, 2022. All capitalized terminologies not defined in this summary are the same as those used in Inmar's approved Drug Stewardship Plan ("Plan") dated April 10, 2020.

The following information contained within this Annual Report mirrors the requirements outlined in Ordinance Section 6.53.080 of the Ordinance.

A. Collection and Disposal Efforts

Inmar's primary focus for the first year of operation as stated in the goals section of the Plan was to achieve 100 Kiosks distributed jointly with other Program Operators throughout the County. Inmar intended to do this by expanding the geographical spread of Collection Points and Standard Mail-Back Envelope Distribution Sites. Inmar faced challenges with securing additional Collection Points due to the unforeseen closures of 12 Lucky Store Pharmacy Kiosks. Inmar attempted to supplement Collection Points by securing additional Standard Mail-Back Envelope Distribution Sites. During this Reporting Period, Inmar operated 14 Kiosks (after the Savemart Kiosk closures) at 14 Collection Points and 58 Standard Mail-Back Envelope Distribution Sites for a total of 72 locations. Inmar collected Inner Liners from 24 Kiosks for a total of 49 Inner Liners collected in 2022. Forty-nine collected Inner Liners equated to a total of 1393.5 pounds of Unwanted Products collected.

B.Plan Changes

Inmar notified Alameda during the Reporting Period of the closure of 12 Collection Points due to the unexpected closure of Lucky Pharmacies in the state of California. Inmar's Plan was approved with 26 Collection Points. For the remainder of the Reporting Period, Inmar operated 14 Kiosks.

C.Program Outlook

Inmar expects an increase in the number of Collection Points and amount of Unwanted Products collected in 2023. To achieve this, Inmar plans to host one-day Collection Events in conjunction with Alameda County Department of Environmental Health Household Hazardous Waste Division.

1

II. Participating Producers

Ordinance Sec. 6.53.080(a)(1) - A list of Producers participating in the Product Stewardship Program

A list of participating Producers can be found in Appendix A.

III. Collection Efforts and Weight

Ordinance Sec. 6.53.010(a)(2) - The amount, by weight, of Unwanted Products collected from Residential Generators collected at each drop-off site and in the entire County of Alameda and, if applicable, the total amount by weight collected by a Mail-Back Program

Regulation Sec. 15(C)(iv) - The report narrative shall include a brief description of the collection efforts over the past year.

Throughout the Reporting Period, Inmar collected Unwanted Products by means of Collection Points (Kiosks) and Standard Mail-Back Envelope Distribution Sites (Mail-Back Services) as well by Mail-Back Services that could be requested via the Program's website or toll-free phone number which included Standard Mail-Back Envelopes, Inhaler Mail-Back Envelopes and Auto-Injector Mail-Back Packages. The below table represents the total weight collected in pounds by each of these mentioned Collection Methods.

Total Unwanted Products Collected in the Reporting Period from all Collection Methods

Туре	#	Total Weight (pounds)
Drop-off Site Liners	49	1,393.50
Standard Envelope	244	107.21
Inhaler Envelope	0	0
Auto-injector Packages	0	0
Collection Events	0	0
Total Weight Collected (2022)	-	1,500.71

IV. Collection System

Ordinance Sec. 6.53.080(A)(3) - A description of the collection system, including the location of each collection site and, if applicable, locations where envelopes for a Mail- Back Program are provided.

Regulation Sec. 15(D)(ii) - For each Collection Point: (a) location, host site name, and address; (b) collected Unwanted Products by weight over the past year; and (c) number of times Unwanted Products was picked up for transportation per location.

Regulation Sec. 15(D)(iii) - For any mail-back program: (a) the number of mail-back containers distributed; (b) the number of mail-back containers returned; and (c) collected Unwanted Products by weight

A. Collection Points

Table 2 in Appendix B lists each of Inmar's Collection Points in Alameda County. Table 1 in Appendix B lists the weight for each Collection Point and the corresponding number of liners collected. The number of liners in Column titled "Liners Collected" is indicative of the number of times the product was picked up from each location.

B. Standard Mail-Back Envelope Distribution Sites

Table 3 in Appendix B lists each participating Standard Mail-Back Envelope Distribution Site. In the Reporting Period, Inmar distributed 1 Standard Mail-Back Envelope from a request received via the Program website and distributed 120 Standard Mail-Back Envelopes to Mail-Back Distribution Sites during the reporting period. Inmar collected a total of 107.21 pounds of weight from 244 Standard Mail-Back Envelopes from Mail-Back Distribution Sites in the Reporting Period.

V. Transporters and Disposal Facilities

Ordinance Sec. 6.53.080(A)(4) - The name and location of disposal facilities at which Unwanted Products were disposed of and the weight of Unwanted Products collected from Residential Generators disposed of at each facility

Regulation Sec. 15(d)(iv) - For each Disposal Facility: (a) the facility name, address and telephone number; and (b) the total weight of collected products at each facility

See Appendix C for a list of Disposal Facilities that Inmar uses to dispose of Unwanted Products in accordance with its approved Plan.

Due to the widespread incinerator backlog issues at hazardous waste disposal facilities, Inmar's Service Provider has been unable to ship Unwanted Products out for destruction and is storing packaged Containers in accordance with applicable state and federal regulations. Inmar's Service Provider was specifically granted an exception from DEA to the 30 calendar days after receipt drug destruction requirements set forth in Title 21 C.F.R. §1317.15(d). Inmar has provided proof of the DEA's extension to the County along with this report. The DEA did not define an end date to the exception but the Service Provider stays in regular contact with DEA and keeps them updated on disposal activity as they work toward goals and the management of backlog issues.

During the Reporting Period, the Service Provider was also granted an exception from DEA to 21 CFR 1317.70(a). Specifically, the Service Provider asked for an exception to the requirement for an on-site method of destruction by an authorized collector who has a mail-back program because the Service Provider became unable to operate at their Agawam, Massachusetts facility. DEA granted the exception for a period of 24 months from August 22, 2022 and allowed for the destruction of returned mail-back packages to occur at any of five provided locations, two of which are, according to DEA records, registered reverse distributors (CleanHarbors at Aragonite, Utah; and Clean Harbors at El Dorado, Arkansas). A copy of this exception letter has been provided to the County along with this report.

VI. Safety or Security Concerns

Ordinance Sec. 6.53.080.(a)(5): Whether policies and procedures for collecting, transporting, and disposing of Unwanted Products, as established in the Plan, were followed during the reporting period and a description of any noncompliance

Ordinance 6.53.080.(a)(6): Whether any safety or security problems occurred during collection, transportation, or disposal of Unwanted Products during the reporting period and, if so, what changes have or will be made to policies, procedures, or tracking mechanisms to alleviate the problem and to improve safety and security.

Policies and Procedures for collecting, transporting and disposing of Unwanted Products, as established in the Plan, were followed in the Reporting Period. There are no Safety or Security Concerns for the reporting period.

VII. Educational Efforts and Public Outreach

Ordinance Sec. 6.53.080(a)(7) - A description of public education and outreach activities implemented during the reporting period, including the methodology used to evaluate the outreach and Program activities;

A. Educational Materials

In accordance with Ordinance 6.53.070, Inmar provided easily-consumable educational materials for distribution to covered entities including Residential Generators, pharmacists, retailers of Covered Drugs, veterinarians, veterinarian hospitals and health care practitioners upon request and at no charge. Education materials included standardized disposal instructions for Collection Points and Mail-Back Services, an educational brochure that includes safe disposal options, the dangers of improper drug use and disposal, and other program information. Additionally, Inmar hosted a program website and toll-free phone number. All materials are easily understandable with varying levels of English proficiencies and leverage explanatory graphics to aid in understanding. Materials are available in English, Spanish, Vietnamese, Chinese, and Tagalog (Filipino).

The materials promote safe storage, inform of the risks of disposing of Unwanted Covered Drugs in inappropriate waste streams (e.g., solid waste collection, sewer, or septic systems) and the risks of Unwanted Covered Drugs as it pertains to drug abuse and accidental poisoning. The materials provide options on how to participate in the safe disposal of Unwanted Covered Drugs and other Program advocacy.

Please see Appendix D for example materials.

B. Outreach Activities

Inmar administered the following outreach activities during the Reporting Period:

1. Radio

Inmar utilized Alameda County radio station KOIT 95.6 FM ("KOIT") to provide information on safe drug disposal throughout the listening area. KOIT is consistently one of the top stations in Alameda County and the Bay Area radio market. Messaging also ran simulcast across streaming platforms. The radio ads commenced the week of October 24, 2022, and ran through January 30th, 2023 for a total of 12 weeks (excluding Holidays). Inmar excluded the weeks of Thanksgiving and Christmas due to changes in listener's priorities and work schedules. There were a total of 44 advertisements each week, and the ads were 15 seconds in length. The goals set for this campaign were 956,300 impressions per week, for a total of 11,475,600 impressions during the 12 week campaign. Alameda County Radio utilized optimization tactics throughout the campaign to deliver the advertisement during heavier listening times to garner more impressions. Advertisements focused on providing education on safe drug disposal and directed listeners to find more information on the Inmar website, www.safemedicinedrop.com. Ads emphasized that safe drug disposal options are free to all residents of Alameda County.

Inmar has insight into the scope of the program by identifying total impressions. During the duration of the 12 week radio campaign, Inmar was able to reach approximately 13,249,000 listeners. The total actual impressions for radio advertisements was 260% higher than expected results. The total number of impressions is calculated by determining the number of listeners for each advertisement that was deployed.

2. Newspaper

Inmar utilized the East Bay Times to deploy advertisements on safe drug disposal. The messaging encouraged users to remove Unwanted Products from the home to protect the environment and prevent drug abuse. The ad also promoted Inmar's website www.safemedicinedrop.com to find local Collection Points. The ad was one eighth (1/6) of a page and ran weekly on Sundays for 12 weeks. The first ad was deployed on October 30, 2022 and the last ad was deployed on January 29, 2023. For the same reasons as the radio advertisement, the newspaper did not feature the ad on December 25, 2022. The newspaper projected approximately 106,750 weekly views for a total of 1,281,000 views throughout the 12 week campaign. During the 12 week newspaper campaign, Inmar was able to reach approximately 4,614,000 readers. The total actual views for the newspaper was 16% higher than expected results. Total views are reported directly from the media outlet. A copy of the advertisement in Figure 4 in Appendix F. The radio advertisement can be provided upon request by the Department.

3. Digital Media - Programmatic

Programmatic Media provides targeted display ads on browser sites on internet capable devices (smart phones, computers, tablets, etc.). Inmar ran ads across a prequalified list of over 200,000 domains including a variety of retail websites, Google, and Facebook. The programmatic targeted ads ran for six weeks leading up to the DEA's National Prescription Take Back Days from October 1, 2022 to November 15, 2022. Impression metrics are reported directly from the individual websites that the ads are placed on and are reported on a per campaign basis. See Appendix F Table 1 for programmatic results. Table 1 lists all Ad units served to viewers with the corresponding metrics by size of the image. There are different ad sizes listed due to websites having different ad space available across our 200,000 pre-qualified domain list. Examples of the Programmatic ads are in Figure 5. The line items in Table 1 represent the different sizes of images available and used throughout the programmatic campaign. In order to have the ability to have advertisements on the 200,000 website domains, multiple image sizes are required to fit unique website size constraints.

4. Digital Media - Influencer Marketing and Social Media

Influencer marketing is a content creation tactic used to drive awareness and education to a targeted audience through blogs and social media outlets. Influencers create authentic content around their everyday lives and interests while weaving the story of prescription drug take-back into their content. Influencer content is converted into paid ad units across social platforms and then targeted to community members across Alameda County.

Paid advertisements for influencer content were run on a variety of platforms including Google, Instagram and Facebook and drove towards a specified impression goal. Inmar ran several social media influencer campaigns concurrently with other traditional and digital media campaigns. Inmar posted two social media posts per month per platform (Instagram, Twitter, and Facebook). Influencer campaigns were deployed every quarter that Inmar was approved to operate for a total of two influencer campaigns in 2022. There was not an influencer campaign deployed in quarter two, due to the fact that recruitment for influencer campaigns initiated prior to plan approval.

Influencer campaigns in Alameda County were projected to have approximately 1,200,000 impressions. Each quarter that the campaign was run either met or exceeded the number of expected impressions. Images used in the influencer campaigns are included in Appendix F, Figure 1. The dates and results of each campaign are listed in Appendix F, Figure 2 and Figure 3.

VIII. Stewardship Plan Goals

Ordinance 6.53.080(a)(8): How the Product Stewardship Program complied with all other elements in the product stewardship Plan approved by the Department, including its degree of success in meeting any performance goals set by the Department as part of its approval of the Program.

Regulation Sec. 15(c)(ii) - Reporting on Goals. The Report Narrative should include a summary of the Plan goals and the degree of success in meeting those goals in the past year. The discussion should include a summary of the efforts to meet the goals, any difficulty in meeting the goals, and if any goals have not been met, what effort will be made to achieve such goals in the next year.

Alameda County Safe Drug Disposal Regulations Section 15(c)(iii): Future Goals. The Report Narrative should include proposed goals to be accomplished in the upcoming year. If the proposed goals differ from the original Plan goals, the Annual Report should include a discussion of the reasons for the suggested change(s).

A. Program Collection Goals

Inmar met short-term collection goals outlined in the approved Plan by securing and placing kiosks spread geographically throughout the County. This was completed within the first 90 days of implementation.

Inmar's long-term goal was to achieve 100 kiosks jointly with other Program Operators within the first 12 months of Program implementation. As of December 2022, in conjunction with other Program Operators, there are now 115 total Collection Points in Alameda County. In addition to the 115 Collection Points, Inmar secured 58 Standard Mail-Back Envelope Distribution Sites that were identified as underserved areas.

Inmar continues to work toward increasing collection and meeting long-term goals by partnering with Alameda County Household Hazardous Waste Division in 2023 to host take-back events.

B.Program Promotion Goals

Inmar met short-term promotion goals by launching the program website (www.safemedicinedrop.com) and toll-free phone number (1-888-371-0717) within the first 90

days of program operation. Educational materials were also developed and distributed to Covered Entities and Authorized Collectors within the first 90 days. Additionally, Authorized Collectors were provided Kiosk training materials and marketing materials that included a sample press release, educational materials, promotional materials, and signage.

Inmar met 6 month and 12 month promotion goals by initiating website functionality updates, social influencer and social media posts in July, 2022, well within the 12 month goal. Social media posts consisted of two posts per month per platform (Instagram, Twitter, and Facebook). The first social influencer campaign was deployed from September 8, 2022 through September 20, 2022 and the second influencer campaign ran from October 10, 2022 through October 21, 2022. Influencer campaigns set goals of 1,200,000 impressions per campaign. Each quarter that the campaign was run either met or exceeded the number of expected impressions. Inmar commenced the print ad marketing and radio advertisement process within the first 90 days of Program approval and was initiated at the six month benchmark, which coincided with the DEA's Annual Take-Back Day. There were 12 one-eighth of a page newspaper advertisements, one per week on Sundays, for 12 weeks. Inmar's first newspaper advertisement was on Sunday, October 30th, 2022 and the last advertisement was on January 29, 2023. The radio advertisement was 15 seconds in length. There were 44 advertisements per week, for a total of 528 total advertisements over the 12 week campaign. On average, listeners heard the message 6.7 times during the campaign. The first radio advertisement was initiated on October 24, 2022 and ran through February 6, 2023. Both advertisements ran for a total of 12 weeks (intentionally skipping the weeks of Thanksgiving and Christmas). Both radio and newspaper advertisements were deployed on-time and surpassed the expected number of impressions. The radio advertisements were expected to garner 11,475,600 impressions. Actual impressions post-campaign were 13,249,200, which is about 16% higher than expected. The newspaper advertisements predicted about 1,281,000 total views throughout the 12 week campaign. Actual results were 4,614,000 views throughout the 12 week campaign, which is 260% higher than anticipated results. Inmar successfully met the program promotion goals set for the Reporting Period but has the capacity to increase the amount of advertising per Department request. See Appendix F Table 2 for total outreach campaign results.

PROGRAM COLLECTION GOALS				
GOAL STATUS				
90 DAYS				
Initiate Plan operation	Completed			
Increase Authorized Collection Points in the County	Completed			
12 MONTHS				
Inmar's goal is to achieve 100 Kiosks distributed jointly, in combination with other Plan Owners, across the County to provide equitable and reasonably convenient access to Residents.	Continue to work to find available locations that meet the DEA requirements for hosting a Kiosk. Have supplemented with Standard Mail-Back Envelope Distribution Sites. Between both Plan Operators and Mail-Back Service, there are >100 locations.			

Establish Mail-Back Programs and/or Take-Back Events in areas that are underserved by Collection Points.	Completed			
Provide and communicate systems for pharmacies to request Mail-Back Envelopes.	Completed			
PROGRAM PROM	IOTION GOALS			
GOAL STATUS				
90 DAYS				
Website launch	Completed			
Covered entity educational materials	Completed			
Authorized Collector marketing support materials	Completed			
Direct mail communication & print ad marketing commences	Completed			
6 MONTHS				
Website functionality updates: o Return Envelope requests o Educational materials uploaded o Authorized Collector Kiosk maintenance resources and requests o Collection Point and Mail-Back Envelope Distribution Site list updated (ongoing)	Completed			
Initiate social influencer and targeted media outreach (1 influencer campaign and 2 promoted LifeInCheckTM posts per month)	Completed			
Television & radio campaigns initiated	Completed			
12 MONTHS				
Website functionality updates: o Translation into specified languages o Collection Point and Mail-Back Envelope Distribution Site list updated (ongoing)	Completed			
Continue social influencer and targeted media outreach (1 influencer campaign and 2 promoted LifeInCheckTM posts per month)	Completed			
Continue television & Radio campaigns	This continues.			
18 MONTHS				
Website functionality updates: o Collection Point and Standard Mail-Back Envelope Distribution Site list updated (ongoing)	In Process as new locations are acquired.			
Continue social influencer and targeted media outreach (1 influencer campaign and 2 promoted LifeInCheckTM posts per month)	This continues.			
Direct mail and print ad marketing continues	This continues.			
Continue television & radio campaigns	This continues.			

APPENDICES

Appendix A - Participating Producers	10
Appendix B - Collection System	13
Appendix C - Disposal Facilities	16
Appendix D - Kiosk Signage, Mailer Instructions and Educational/Outreach Materials	17
Appendix E - Inmar's Website	26
Appendix F - Outreach and Promotion Activities	31

Appendix A - Participating Producers

The following list of Producers participated in Inmar's Stewardship Plan during the Reporting Period.

Producer	Address
AAA Pharmaceutical, Inc.	681 Main Street Lumberton, NJ 08048
Adare Pharmaceuticals	1200 Lenox Drive, Suite 100, Lawrenceville, NJ 08648
Advagen Pharma Ltd	666 Plainsboro Rd, Suite 605, Plainsboro, NJ 08536
Alcon Vision, LLC	6201 South Freeway, TA625, Fort Worth, TX 76134
Alexso, Inc.	2317 Cotner Ave, Los Angeles, CA 90064
Alkermes, Inc.	852 Winter Street, Waltham, Massachusetts 02451
ANDA, Inc	2915 Weston Road, Weston, FL 33331
Anda Pharmaceuticals, Inc	8644 Polk Lane Olive Branch, Mississippi 38654
Apnar Pharma, LP	4820 Lanier Road, Chino, CA 91710
Archis Pharma, LLC	15 Corporate Place South, Suite 108 , Piscataway, NJ 08854
Ascend Laboratories	339 Jefferson Road, Suite 101, Parsippany, NJ 07054 USA
ASO LLC	300 Sarasota Center Blvd, Sarasota, FL 34240
Avet Pharmaceuticals Inc.	1 Tower Center Boulevard, Suite 1700, East Brunswick, NJ 08816
Bell Pharmaceuticals, Inc	200 W. Beaver St. Belle Plaine, MN 56011
Biocodex, Inc.	1850 Gateway Drive, Suite 175 San Mateo, CA 94404
Blairex Laboratories, Inc	1600 Brian Dr, Columbus, IN 47201
Camber Pharmaceuticals, Inc.	1031 Centennial Ave., Piscataway, NJ 08854
Canton Laboratories, LLC	1015 Nine North Dr, Suite 200, Alpharetta, GA 30004
Carlsbad Technology, Inc	5922 Farnsworth Court, Carlsbad, CA 92008
Celltrion USA, Inc.	One Evertrust Plaza, suite 1207, Jersey City, NJ 07302
Dr. Reddy's Laboratories Inc.	107 College Road East, Princeton, NJ 08540
Florida Pharmaceutical Products, LLC	6111 Broken Sound Parkway NW, Suite 160 Boca Raton, FL 33487
Formulation Technology, Inc.	571 Armstrong Way, Oakdale, CA 95361

Fosun Pharma USA, Inc	104 Carnegie Center Drive, Suite 204, Princeton, NJ 08540
Genomma Lab USA, Inc	3737 Buffalo Speedway, Houston, TX 77098
Gensco Laboratories, LLC	8550 NW 33rd St, Suite 200, Doral, FL 33122
Granules Pharmaceuticals, Inc.	3701 Concorde Parkway, Chantilly, VA 20151
Hetero Labs Limited	1031 Centennial Ave., Piscataway, NJ 08854
Hikma Pharmaceuticals USA Inc.	200 Connell Drive, 4th Floor, Berkeley Heights, NJ 07922
i3 Pharmaceuticals, LLC	200 Park Avenue, Warminster, PA 18974
Intercept Pharmaceuticals, Inc.	305 Madison Avenue, Morristown, NJ 07960
KC Pharmaceuticals, Inc.	3215 Producer Way, Pomona, CA 91768
Lannett Company Inc.	1101 C Avenue West, Seymour, IN 47274
Laser Pharmaceuticals, LLC	1015 Nine North Drive, Suite 400, Alpharetta, GA 30305
Leading Pharma, LLC	3 Oak Rd, Fairfield, NJ 07004
Macleods Pharma Usa, Inc	103 College Road East, 2nd Floor, Princeton, NJ 08540
Marnel Pharmaceuticals, LLC	635 East Bay St, Bldg G, Charleston, SC 29403
McKeon Products, Inc.	25460 Guenther, Warren, MI 48091
Medicure Pharma, Inc	116 Village Blvd., Suite 200, Princeton, New Jersey
Medsource Pharmaceuticals	22521 Avenida Empresa, Ste 109, Rancho Santa Margarita, CA 92688
Micro Labs USA, Inc	220 Davidson Ave, Suite 402, Somerset, NJ 08873
Mirum Pharmaceuticals	950 Tower Lane, Suite 1050, Foster City, CA 94404
Monarch PCM, LLC	7333 Jack Newell Blvd, Suite 100, Fort Worth, TX 76118
Navajo Manufacturing Company Inc.	601 W 50th Ave, Denver, CO 80216
Neogen	620 Lesher Place, Lansing, MI 48912
Neurelis, Inc	3430 Carmel Mountain Road, Suite 300, San Diego, CA 92121
