I. Executive Summary

Ordinance Sec. 6.53.080 - Executive Summary. The purpose of the Executive Summary is to provide a broad understanding of the Plan as a whole and context for the data and information that will follow. This summary should include a brief description of collection and disposal efforts during the reporting period. The executive summary should also include a description of proposals to improve collection efforts and challenges encountered during the reporting period, and how they will be addressed.

Inmar Rx Solutions, Inc (“Inmar”) was approved to operate a Drug Stewardship Program (“Program”) on April 1, 2022 pursuant to the Alameda Safe Drug Disposal Ordinance located at Title 6 of the Alameda County Health and Safety Code, Sections 6.53.010 through 6.53.120 (“Ordinance”) and the Alameda County Safe Drug Disposal Regulations (“Regulations”). This Annual Report is for the period between January 1, 2023 and December 31, 2023 (“Reporting Period”). All capitalized terminologies not defined in this summary are the same as those used in Inmar’s approved Drug Stewardship Plan (“Plan”) dated April 10, 2020.

The following information contained within this Annual Report mirrors the requirements outlined in Section 6.53.080 of the Ordinance.

A. Collection and Disposal Efforts

During this Reporting Period, Inmar operated 15 Collection Points and 60 Standard Mail-Back Envelope Distribution Sites totaling 75 locations. Inmar collected 52 Inner Liners from the 15 Collection Points equaling 1,580.50 pounds of Unwanted Products. Inmar collected a total of 118 Mailers from the Standard Mail-Back Envelope Distribution Sites totaling 47.40 pounds of Unwanted Products. Additionally, Inmar participated in eight collection events which resulted in the collection of 3,339.5 pounds of Unwanted Products. For the 2023 Reporting Period, 4,967.40 pounds of Unwanted Products were collected via all collection methods.

B. Plan Changes

There were no plan changes during the Reporting Period.

C. Program Outlook

Inmar expects an increase in the number of Collection Points and amount of Unwanted Products collected in 2024. To achieve this, Inmar plans to host one-day collection events in conjunction with Alameda County Department of Environmental Health and Alameda County Department of Environmental Health Household Hazardous Waste Division for the second year in a row. Inmar is continuously seeking additional Collection Points for either Drop-Off Kiosks or Standard Mail-Back Envelope Distribution Sites.

II. Participating Producers

Ordinance Sec. 6.53.080(a)(1) - A list of Producers participating in the Product Stewardship Program

A list of participating Producers can be found in Appendix A.

III. Collection Efforts and Weight

Ordinance Sec. 6.53.010(a)(2) - The amount, by weight, of Unwanted Products collected from Residential Generators collected at each drop-off site and in the entire County of Alameda and, if applicable, the total amount by weight collected by a Mail-Back Program

Regulation Sec. 15(C)(iv) - The report narrative shall include a brief description of the collection efforts over the past year.

Throughout the Reporting Period, Inmar collected Unwanted Products by means of Collection Points (Drop-Off Kiosks) and Standard Mail-Back Envelope Distribution Sites as well by Mail-Back Services that could be requested via the Program’s website or toll-free phone number which includes Standard Mail-Back Envelopes, Inhaler Mail-Back Envelopes and Auto-Injector Mail-Back Packages. The below table represents the total weight collected in pounds by each of these mentioned Collection Methods.

Total Unwanted Products Collected in the Reporting Period from all Collection Methods

Type	#	Total Weight (pounds)
Drop-off Site Liners	52	1,580.50
Standard Mail-Back Envelope	118	47.40
Inhaler Mail-Back Envelope	0	0
Auto-injector Mail-Back Packages	0	0
Collection Events	8	3,339.50
Total Weight Collected (2023)		4,967.40

IV. Collection System

Ordinance Sec. 6.53.080(A)(3) - A description of the collection system, including the location of each collection site and, if applicable, locations where envelopes for a Mail- Back Program are provided.

Regulation Sec. 15(D)(ii) - For each Collection Point: (a) location, host site name, and address; (b) collected Unwanted Products by weight over the past year; and (c) number of times Unwanted Products was picked up for transportation per location.

Regulation Sec. 15(D)(iii) - For any mail-back program: (a) the number of mail-back containers distributed; (b) the number of mail-back containers returned; and (c) collected Unwanted Products by weight

A. Collection Points

Technical specifications concerning Inmar’s Collection System can be located in the approved Plan dated March 4, 2022. Table 1 in Appendix B lists the weight for each Collection Point and the corresponding number of liners collected. Table 2 in Appendix B lists each of Inmar’s Collection Points in Alameda County. The number of Inner Liners in the Column titled “Liners Collected” is indicative of the number of times the Unwanted Products were picked up from each location. Appendix B Table 4 lists all of the one day Collection Events with the corresponding location, number of Inner Liner collected, and amount of Unwanted Product collected.

B. Standard Mail-Back Envelope Distribution Sites

Table 3 in Appendix B lists each participating Standard Mail-Back Envelope Distribution Site. In the Reporting Period, Inmar distributed 70 Standard Mail-Back Envelopes to Standard Mail-Back Envelope Distribution Sites in addition to existing Mails That were distributed in previous Reporting Periods.

Inmar distributed the following from the Program website:

- 7 requests resulting in the distribution of 13 Standard Mail-Back Envelopes;
- 20 requests resulting in the distribution of 34 Auto-Injector Mail-Back Packages;
- 1 request resulting in the distribution of 1 Inhaler Mail-Back Envelope.

Inmar collected a total of 47.4 pounds of weight from the 118 Standard Mail-Back Envelopes in the Reporting Period. There were no Auto-Injector Mail-Back Packages or Inhaler Mail-Back Envelopes returned during the Reporting Period.

V. Transporters and Disposal Facilities

Ordinance Sec. 6.53.080(A)(4) - The name and location of disposal facilities at which Unwanted Products were disposed of and the weight of Unwanted Products collected from Residential Generators disposed of at each facility

Regulation Sec. 15(d)(iv) - For each Disposal Facility: (a) the facility name, address and telephone number; and (b) the total weight of collected products at each facility

See Appendix C for the name and location of Disposal Facilities at which Unwanted Products were disposed of in accordance with the approved Plan.

Due to the widespread incinerator backlog issues at hazardous waste disposal facilities, Inmar's Service Provider has been unable to ship Unwanted Products out for destruction and is storing packaged Containers in accordance with applicable state and federal regulations. Inmar's Service Provider was specifically granted an exception from DEA to the 30 calendar days after receipt drug destruction requirements set forth in Title 21 C.F.R. §1317.15(d), which Inmar provided and is still in effect. A copy of this email can be found in Appendix G DEA Exception Email. The DEA did not define an end date to the exception but the Service Provider stays in regular contact with DEA and keeps them updated on disposal activity as they work toward goals and the management of backlog issues.

During the Reporting Period, the Service Provider was also granted an exception from DEA to 21 CFR 1317.70(a). Specifically, the Service Provider asked for an exception to the requirement for an on-site method of destruction by an authorized collector who has a mail-back program because the Service Provider became unable to operate at their Agawam, Massachusetts facility. DEA granted the exception for a period of 24 months from August 22, 2022 and allowed for the destruction of returned Mailers to occur at any of five provided locations, two of which are, according to DEA records, registered reverse distributors (Clean Harbors at Aragonite, Utah; and Clean Harbors at El Dorado, Arkansas). A copy of this exception letter was provided last year as a separate communication and is still current. A copy of this letter can be found as a separate attachment titled DEA Response Letter. In the event that incinerator backlog issues continue past the current expiration date, Inmar will provide an updated extension letter to the County before the current Exception Letter expires. Inmar is aware of these issues and has discussed this with our Service Provider. Inmar will be provided a renewed DEA exception

letter upon receipt and will forward to the County once received.

VI. Safety or Security Concerns

Ordinance Sec. 6.53.080.(a)(5): Whether policies and procedures for collecting, transporting, and disposing of Unwanted Products, as established in the Plan, were followed during the reporting period and a description of any noncompliance

Ordinance 6.53.080.(a)(6): Whether any safety or security problems occurred during collection, transportation, or disposal of Unwanted Products during the reporting period and, if so, what changes have or will be made to policies, procedures, or tracking mechanisms to alleviate the problem and to improve safety and security.

Policies and Procedures for collecting, transporting and disposing of Unwanted Products, as established in the Plan, were followed in the Reporting Period. There are no Safety or Security Concerns for the reporting period.

VII. Educational Efforts and Public Outreach

Ordinance Sec. 6.53.080(a)(7) - A description of public education and outreach activities implemented during the reporting period, including the methodology used to evaluate the outreach and Program activities;

A. Educational Materials

In accordance with Ordinance 6.53.070, Inmar provided easily-consumable educational materials for distribution to Residential Generators, pharmacists, retailers of Covered Drugs, veterinarians, veterinarian hospitals and health care practitioners upon request and at no charge. Education materials included standardized disposal instructions for Collection Points and Mail-Back Services, an educational brochure that includes safe disposal options, the dangers of improper drug use and disposal, and other program information. Additionally, Inmar hosted a program website and toll-free phone number. All materials are easily understandable with varying levels of English proficiencies and leverage explanatory graphics to aid in understanding. Materials are available in English, Spanish, Vietnamese, Chinese, and Tagalog (Filipino).

The materials promote safe storage, inform of the risks of disposing of Unwanted Products in inappropriate waste streams (eg solid waste collection, sewer, or septic systems) and the risks of Covered Drugs as it pertains to drug abuse and accidental poisoning. The materials provide options on how to participate in the safe disposal of Unwanted Products and other Program advocacy.

Please see Appendix D for example materials.

B. Outreach Activities

Inmar conducted the following outreach activities during the Reporting Period:

1. Radio

Inmar utilized Alameda County radio station KOIT 95.6 FM (“KOIT”) for the second year in a row to provide information on safe drug disposal throughout the listening area. KOIT is consistently one of the top stations in Alameda County and the Bay Area radio market. Messaging also ran simulcast across streaming platforms. The radio ads commenced the week of October 23, 2023,

and ran through February 11th, 2024 for a total of 12 weeks (excluding Holidays). Inmar excluded the weeks of Thanksgiving and Christmas due to changes in listener's priorities and work schedules. There were a total of 43 advertisements each week, and the ads were 15 seconds in length for a total of 516 advertisements. Alameda County Radio utilized optimization tactics throughout the campaign to deliver the advertisement during heavier listening times to garner more impressions. Advertisements focused on providing education on safe drug disposal and directed listeners to find more information on the Inmar website, www.safemedicinedrop.com. Ads emphasized that safe drug disposal options are free to all residents of Alameda County.

Inmar has insight into the scope of the outreach program by identifying total impressions. During the duration of the 12 week radio campaign, Inmar was able to reach approximately 12,206,400 listeners. The total number of impressions is calculated by determining the number of listeners for each advertisement that was deployed. A copy of the advertisement in Figure 4 in Appendix F.

2. Newspaper

For the second year in a row, Inmar utilized the East Bay Times to deploy advertisements on safe drug disposal. The messaging encouraged users to remove Unwanted Products from the home to protect the environment and prevent drug abuse. The ad also promoted Inmar's website www.safemedicinedrop.com to find local Collection Points. The ad was one eighth ($\frac{1}{8}$) of a page and ran weekly on Sundays for 12 weeks. The first ad was deployed on October 29, 2023 and the last ad was deployed on February 4, 2024. For the same reasons as the radio advertisement, the newspaper did not feature the ad the weeks of Thanksgiving and Christmas. During the 12 week newspaper campaign, Inmar was able to reach approximately 979,248 readers. Total views are reported directly from the media outlet. The radio advertisement can be provided upon request by the Department.

3. Digital Media - Programmatic

Programmatic Media provides targeted display ads on browser sites on internet capable devices (smart phones, computers, tablets, etc.). Inmar ran ads across a prequalified list of over 200,000 domains including a variety of retail websites, Google, and Facebook. The programmatic targeted ads ran for six weeks leading up to the DEA's National Prescription Take Back Days starting April 1, 2023 and October 10, 2023. Impression metrics are reported directly from the individual websites that the ads are placed on and are reported on a per campaign basis. See Appendix F Table 1 lines titled "Programmatic Spring Campaign" and "Programmatic Fall Campaign" for programmatic results. Examples of the Programmatic ads are in Figure 3.

4. Digital Media - Influencer Marketing and Social Media

Influencer marketing is a content creation tactic used to drive awareness and education to a targeted audience through blogs and social media outlets. Influencers create authentic content around their everyday lives and interests while weaving the story of prescription drug take-back into their content. Influencer content is converted into paid ad units across social platforms and then targeted to Residents across Alameda County.

Paid advertisements for influencer content were run on a variety of platforms including Google, Instagram and Facebook and drove towards a specified impression goal. Inmar ran several social media influencer campaigns concurrently with other traditional and digital media campaigns. Inmar posted two social media posts per month per platform (Instagram, Twitter, and Facebook). Influencer campaigns were deployed quarterly for a total of four influencer campaigns in 2023.

The four influencer campaigns in Alameda County garnered a total of 3,540,145 impressions throughout the Reporting Period. Images used in the influencer campaigns are included in Appendix F, Figure 1. The dates and results of each campaign are listed in Appendix F, Table 1 line items “Q1 Influencer Campaign”, “Q2 Influencer Campaign”, “Q3 Influencer Campaign”, and “Q4 Influencer Campaign”.

VIII. Stewardship Plan Goals

Ordinance 6.53.080(a)(8): How the Product Stewardship Program complied with all other elements in the product stewardship Plan approved by the Department, including its degree of success in meeting any performance goals set by the Department as part of its approval of the Program.

Regulation Sec. 15(c)(ii) - Reporting on Goals. The Report Narrative should include a summary of the Plan goals and the degree of success in meeting those goals in the past year. The discussion should include a summary of the efforts to meet the goals, any difficulty in meeting the goals, and if any goals have not been met, what effort will be made to achieve such goals in the next year.

Alameda County Safe Drug Disposal Regulations Section 15(c)(iii): Future Goals. The Report Narrative should include proposed goals to be accomplished in the upcoming year. If the proposed goals differ from the original Plan goals, the Annual Report should include a discussion of the reasons for the suggested change(s).

A. Program Collection Goals

Inmar met short-term collection goals outlined in the approved Plan by securing and placing Kiosks spread geographically throughout the County. This was completed within the first 90 days of implementation.

Inmar’s long-term goal was to achieve 100 Kiosks jointly with other Program Operators within the first 12 months of Program implementation. As of December 2023, Inmar has secured a total of 75 Collection Points, 15 Kiosks and 60 Standard Mail-Back Envelope Distribution Sites. In conjunction with the other Program Operator, there are well over 100 Collection Points throughout the County.

Inmar continues to work toward increasing collection and meeting long-term goals by partnering with Alameda County Household Hazardous Waste Division in 2024 to host collection events.

B. Program Promotion Goals

Inmar met short-term promotion goals by launching the program website (www.safemedicinedrop.com) and toll-free phone number (1-888-371-0717) within the first 90

days of program operation. Educational materials were also developed and distributed to Covered Entities and Authorized Collectors within the first 90 days. Additionally, Authorized Collectors were provided Kiosk training materials and marketing materials that included a sample press release, educational materials, promotional materials, and signage.

Inmar continues to meet Program promotion goals by having ongoing social media posts, influencer posts, and radio and newspaper advertising. Social media posts consisted of two posts per month per platform (Instagram, Twitter, and Facebook). The Posts were scheduled as follows:

- The first social influencer campaign was deployed from March 3, 2023 through March 24, 2023 the second influencer campaign ran from April 25, 2023 through May 16, 2023
- The third influencer campaign was from August 7, 2023 through August 28, 2023
- the fourth influencer campaign was from October 11, 2023 through November 8, 2023

Inmar commenced the print ad marketing in October 2023, coinciding with the DEA's Annual Take-Back Day. There were 12 one-eighth of a page newspaper advertisements, one per week on Sundays, for 12 weeks. Inmar's first newspaper advertisement was on Sunday, October 29th, 2023 and the last advertisement was on February 4, 2024. Inmar elected to place advertisements in the Sunday newspaper due to Sunday being the highest circulation of the week. As reported from East BayTimes, there were a total of 979,248 impressions. This is based on the number of newspapers circulated in Alameda County.

The radio advertisement was 15 seconds in length and began on October 23, 2023 and ran through February 11, 2024. There were 43 radio advertisements per week, for a total of 516 total advertisements over the 12 week campaign. As reported from KOIT-FM, there were approximately 1,017,200 impressions per week, which resulted in 12,206,400 total impressions throughout the duration of the 12 week campaign. On average, listeners heard the message 6.7 times during the campaign. Both advertisements ran for a total of 12 weeks (intentionally skipping the weeks of Thanksgiving and Christmas).

Both radio and newspaper advertisements were deployed on-time. Inmar successfully met the Program promotion goals set for the Reporting Period. All program promotion activities continue each Program year. See Appendix F Table 1 for total outreach campaign results.

PROGRAM COLLECTION GOALS	
GOAL	STATUS
90 DAYS	
Initiate Plan operation	Completed
Increase Authorized Collection Points in the County	Completed

INMAR intelligence LIFE@CHECK

MAIL-BACK ENVELOPE SET-UP INSTRUCTIONS

EACH KIT INCLUDES:

- 1 - Inmar Envelope Stand
- 20 - Pre Addressed Mail-Back Envelopes
- 1 - Reorder Process Instructions
- 1 - Mail-Back Display Sign

QUICK STEPS TO START

The Mail-Back Kit comes pre-assembled. Set up is easy as 1-2-3:

1. Open Box
2. Remove packaging and Mail-Back Kit
3. Place the Kit on your counter

REORDERING PROCEDURE KEEP THE REORDER PROCESS INSTRUCTIONS FOR FUTURE REFERENCE.

- When you only have five or less envelopes left in your mailback kit, it is time to reorder more envelopes.
- Follow the instructions on the Reorder Process Instructions to place your order
- To re-order, you can:
 - Visit mailback.app
 - Scan the QR code on the Reorder Instructions with a mobile device
 - Send an email to mail-back@123compliant.com

INMAR intelligence LIFE@CHECK

MAIL-BACK ENVELOPE REORDER INSTRUCTIONS

- 1. START**
Scan QR Code or go to mailback.app
- 2. REORDER**
Select the refill kit on the reorder page
- 3. CHECK OUT**
Follow the check out steps on the site

TIME TO REORDER REORDER PROCESS

- Scan the QR Code or go to mailback.app
- Input the email used to sign up for the service
- Use this temporary password: 2021CDTB-CA
- Go to the Reorder Page
- Select the Refill Kit
- Check out and verify shipping address
- Submit the order and a confirmation email will be sent

HOW

mailback.app OR Send an email to mail-back@123compliant.com

QUESTIONS?

Reach out at take-back@inmar.com or call (336) 770-1940

EVENTOS DE DEVOLUCIÓN

Para obtener más información sobre el programa, visite www.safemedicatedrop.com o llame al teléfono 1-888-371-0717

Este material se ha proporcionado con el fin de cumplir con la legislación y no refleja necesariamente las opiniones de Inmar Intelligence ni de los fabricantes que participan en el Plan de Manejo de Productos de Inmar Intelligence (Fuente: Administración de Medicamentos y Alimentos de los Estados Unidos). ICT1291 CDTB SC CC 07/22/2021

PROTEJA A SUS FAMILIAS, A SUS COMUNIDADES Y AL MEDIO AMBIENTE

DESECHE DE FORMA SEGURA LOS MEDICAMENTOS NO UTILIZADOS

¿POR QUÉ ES IMPORTANTE EL DESECHO SEGURO DE LOS MEDICAMENTOS PARA LA SALUD PÚBLICA?

- Los medicamentos recetados no utilizados o vencidos pueden provocar intoxicaciones accidentales, sobredosis y abuso.
- Los medicamentos recetados no utilizados que se tiran a la basura pueden recuperarse y ser objeto de abuso o venta ilegal.
- Los medicamentos no utilizados que se tiran por el desagüe contaminan el suministro de agua.

¿QUÉ PUEDE DESECHAR EN UN QUIOSCO O EN UN SOBRE DE DEVOLUCIÓN POR CORREO?

SE ACEPTAN:
Medicamentos en cualquier forma de dosificación, excepto los que se enumeran a continuación, en su envase original o sellados.*

*Si transfiere los medicamentos a una bolsa sellada, asegúrese de reciclar todos los envases sobrantes.

NO SE ACEPTAN:
Remedios a base de hierbas, vitaminas, suplementos, cosméticos, otros productos de cuidado personal, dispositivos médicos, baterías, termómetros que contengan mercurio, objetos punzantes y drogas ilícitas.

Para obtener más información sobre el programa, visite www.safemedicatedrop.com o llame al teléfono 1-888-371-0717

How to properly store and dispose of medications

April 26, 2023

*This shop has been compensated by Inmar Intelligence and its advertiser. All opinions are mine alone. As a mom of two young children and a pet owner, I am well aware of the dangers posed by unsafe drug storage and disposal. Accidental poisoning from medications is a leading cause...

Figure 1 - Images from Influencer Campaigns

The advertisement features a dark blue background with a close-up, slightly blurred image of various pills and capsules. The text is white and yellow, providing clear instructions and a website link. The INMAR intelligence logo is positioned in the top right corner of the ad area.

[REDACTED]

Subject: [EXTERNAL] Liner Destruction 30 day Requirement - Extension Request

Hi [REDACTED]

We are writing to request an extension on the 30 day destruction requirement for some of our take-back kiosk liners. Certain counties around the United States have regulations that require liners to be destroyed at a hazardous waste incinerator even though this is not a requirement federally. There aren't very many hazardous waste incinerators so our only choice in the west is Clean Harbors in Utah. Because of this, we have to amass a certain number of inner liners to meet their minimum requirements. We are trying to iron out a regular process to get these destroyed properly and in a timely manner while still meeting certain county requirements.

Thank you for your consideration and please let me know if you have any other questions.
