NOTICE OF DETERMINATION

Re: MED-Project document entitled, "A Product Stewardship Plan for Unwanted Medicine from Households, Alameda County, California," dated February 15, 2019

Dear Ms. Travis:

The Alameda County Department of Environmental Health (Department) reviewed the February 15, 2019 MED-Project document entitled, "*A Product Stewardship Plan for Unwanted Medicine from Households, Alameda, California*", submitted to the Department in compliance with provisions of the Alameda County Safe Consumer-Generated Sharps Disposal Ordinance.

The subject February 15, 2019 plan is APPROVED with the following Conditions of Approval:

1. A form of the "Full Service" option must be offered to eligible kiosk site hosts that cannot or are unwilling to store filled inner liners prepared for pick-up by having the prepared inner liners leave the host site when MED-Project's contracted service technician does; and,
2. MED-Project presents a kiosk service model in this plan for particular host sites called "Host-Assisted Collection Kiosk Drop-Off Site". Under this model the site host will perform the service functions normally assigned to the MED-Project vendor by removing, sealing, and packaging removed kiosk inner liners and preparing them for shipment. This service model may only be used upon Department approval of a *Petition for Exception* submitted by MED-Project that is also accompanied by a letter from the site host, or representative of the host site, requesting this option; and,
3. Any Covered Drugs collected by the MED-Project stewardship program will be disposed by incineration at a fully permitted medical waste or hazardous waste facility.

The Department discussed each of these conditions with you and other MED-Project staff on March 25, 2019.

The Plan approval date is April 5, 2019.

The reporting period is from January 1 to December 31 of each year. The first Annual Report is due on or before March 1, 2020. Subsequent Annual Reports are due March 1 of each year.

Signed:  Date: 04-05-2019
Ronald Browder, Director
Alameda County, Department of Environmental Health
Health Care Services Agency
