I. Executive Summary

MED-Project LLC (“MED-Project”) operates a Producer Stewardship Plan for Sharps from Households (“Plan”) in the County of Alameda (“Jurisdiction”) under the Alameda County Safe Consumer-Generated Sharps Disposal Ordinance No. 2015-53, Alameda Municipal Code Chapters 6.54.010 – 6.54.180 (“Ordinance”). On September 7, 2022, the Jurisdiction approved MED-Project’s Plan, dated August 31, 2022 (“Approved Plan”). This 2022 Alameda County Sharps Annual Report (“Report”) describes MED-Project’s activities between January 1, 2022, and December 31, 2022 (“Reporting Period”). All capitalized terminology not defined in this summary is derived from the Approved Plan.

A. Notifications in the Reporting Period

MED-Project submitted an updated Plan during the Reporting Period. Notices providing status updates related to the effects of the COVID-19 pandemic are discussed in the COVID-19 Pandemic-Related Notifications section below.

On June 26, 2022, MED-Project submitted an updated plan to the Department. On August 4, 2022, the Department requested additional information. On August 31, 2022, MED-Project submitted a revised plan, which was approved by the Department on September 7, 2022.

B. COVID-19 Pandemic-Related Notifications

On January 10, 2022, MED-Project submitted an eighth COVID-19 pandemic response notification, which indicated that two Sharps Kiosk Drop-Off Sites remained restricted due to the COVID-19 pandemic. By the end of the Reporting Period no sites remained restricted.

For details on COVID-19 pandemic-restricted site access statuses during the Reporting Period, see Appendix M, Table 12: Reporting Period Access Restrictions.

C. Reporting Period Operations Overview

During the Reporting Period, priority was given to establishing Sharps Kiosk Drop-Off Sites throughout the Jurisdiction, and performing outreach to eligible pharmacies, hospitals, and clinics with on-site pharmacies, and Law Enforcement Agencies (“LEAs”) throughout Alameda County. As a result of these efforts, MED-Project’s Program collected and disposed of Sharps from 52 Sharps Kiosk Drop-Off Sites, seven Take-Back Events, Mail-Back Services, and four Household Hazardous Waste Facilities during the Reporting Period. MED-Project installed six new kiosks in the Reporting Period.

Kiosks were installed in pharmacies that meet all local, state, and federal requirements and that executed agreements with MED-Project. In addition, outreach and educational materials, including signage and/or brochures, were distributed to select existing Kiosk Drop-Off Sites.

MED-Project provided disposal instructions to select Kiosk Drop-Off Sites and Mail-Back Services to Residents and continues to communicate with Kiosk Drop-Off Site Hosts to distribute outreach materials upon request, review procedures as needed, and improve overall Program design.

As outlined in the Approved Plan, the ultimate goal of the Program is to provide Residents with convenient, safe, and accessible methods to dispose of Sharps.

The following Sections of the Report address the specific reporting requirements in Ordinance Section 6.54.120. Each section of the Report restates the corresponding Ordinance requirement and provides the required information. Numbers in the Report have been rounded to the nearest tenth place.

MED-Project is also providing an Errata List for the 2021 Annual Report submitted on March 1, 2022; See Appendix N: Errata List for the 2021 Annual Report.

MED-Project provided a variety of public education activities during the Reporting Period, including providing disposal instructions for Sharps kiosks and Mail-Back Services, maintaining a website and toll-free number that provide information on the

proper disposal of Sharps waste, collection, and disposal options available through MED-Project, and providing outreach materials. The MED-Project Website, toll-free number, and promotional materials, such as posters and brochures, were available in English, Spanish, Chinese, Tagalog, and Vietnamese. See Appendix G for examples of MED-Project's promotional materials such as brochures and posters. See Appendix H for promotional material distribution information. MED-Project Website information and statistics are provided in Appendices I and J, respectively.

B. Outreach Activities

MED-Project conducted the following outreach activities during the Reporting Period: provided streaming TV and radio, print and digital advertisement campaigns, distributed signage and/or brochures, posted information on social media sites, and sent email blasts. As a part of outreach activities described above, MED-Project generated more than 31 million total impressions during the Reporting Period.

A list of social media and email outreach activities is provided in Appendix K. The reach and impressions for each campaign are provided in the Media Outreach Summary. See Appendix L.

C. Evaluation Activities

Consistent with Ordinance Section 6.54.100.A4, MED-Project conducted the biennial survey of Residents, pharmacists, veterinarians, and health professionals in the county who interact with patients on use of medicines to measure Program awareness and to evaluate the effectiveness of its education and outreach activities during the Reporting Period. The second biennial survey began on April 1, 2022, and was completed on May 10, 2022. The results of the survey were posted to the MED-Project Website on August 1, 2022. Nineteen percent of County residents surveyed are aware of the safe, convenient, and free disposal program. Additionally, of those County residents surveyed, 16% reported having used Kiosk Drop-Off Sites, Mail-Back Services, or Take-Back Events to dispose of expired and/or unwanted medicines in the past year. Of this group, 89% reported using drop-off locations. Sixty-Four percent of Residents who had the sharps disposal program believed the program was easy to use, and 58% of the same group of County residents believe the program was easy to locate.

MED-Project will continue to evaluate media and public outreach as well as collect feedback by surveys in order to identify and make adjustments and improvements to the Program. Additionally, MED-Project may revise and/or add communications materials based on changes to the Plan, as needed.

VII. Program Goals

Ordinance 6.54.120.A.10: *“A summary of the Product Stewardship Plan’s goals, the degree of success in meeting those goals in the past year, and, if any goals have not been met, what effort will be made to achieve the goals in the next year.”*

Summary of Product Stewardship Plan’s Goals

During the reporting Period, Sharps kiosk implementation and collection continued and resulted in 52 active Sharp Kiosk Drop-Off Sites. MED-Project’s long-term goal is to have 55 Sharps Kiosk Drop-Off Sites and it continues to make progress towards this goal. MED-Project will continue to work to establish additional kiosks and will continue to accept any interested and eligible sites beyond the goal of 55 kiosks. Refer to Sections III and VI of this Report for specific collection information. Figure 1 shows a graphical representation of how MED-Project strove to meet service convenience and collection goals during the Reporting Period.

MED-Project continued collector outreach by sending letters to potential Sharps Kiosk Drop-Off Sites on September 15, 2022. MED-Project made phone calls and sent emails to eligible sites that did not respond to the letter. Eligible non-participating sites were contacted monthly until either a site began participating in the Program or the site indicated it no longer wanted to be considered for participation.

MED-Project maintained a toll-free number for a call center and the MED-Project website to provide information to Residents, as well as provided information through social media postings.

VIII. Expenditures

Ordinance 6.54.120.A.11: *“The total expenditures of the Product Stewardship Plan during the reporting period.”*

The total Program expenditures for the Reporting period were \$321,135.07¹.

¹ Final total Program expenditures are pending 2022 tax accrual confirmation.

DISPOSAL OF HOUSEHOLD SHARPS

1 CHECK THE PACKAGE

If there are specific instructions on the label, package or package insert, please follow those instructions.

Never place sharps in the trash or recycling, and never flush them down the toilet. Disposing of sharps in the trash or recycling may put trash and sewage workers, janitors, housekeepers, household members, and children at risk of being harmed.

2 CONVENIENT LOCATIONS

To find kiosk sites in your area, visit the Convenient Locations section of www.med-project.org.

3 MAIL-BACK

Mail-Back Services are available in your area. To order a Mail-Back package, visit the Mail-Back section of www.med-project.org.

4 TAKE-BACK EVENTS

Local take-back events offer residents a free and convenient way to dispose of sharps. For information on events in your area, visit the Take-Back Events section of www.med-project.org.

DISPOSAL OF HOUSEHOLD SHARPS

Sharps can be dangerous to people and pets if not disposed of safely. Sharps can cause injuries and/or spread infections that cause serious health conditions. These infections may include: Hepatitis B (HBV), Hepatitis C (HCV), and Human Immunodeficiency Virus (HIV).

Safe sharps disposal is important whether you are at home, at work, at school, traveling, or in other public places such as hotels, parks, and restaurants. Pet owners who use needles to give medicine to their pets should follow the same sharps disposal guidelines used for humans.

SHARPS DISPOSAL CONTAINERS

All sharps disposal containers should be made of heavy-duty plastic; able to close with a tight-fitting, puncture resistant lid without sharps being able to come out; upright and stable during use; leak-resistant; and properly labeled as "sharps waste" or with the biohazard symbol and the word "BIOHAZARD" to warn of hazardous materials inside the container.

Place all sharps in a sharps disposal container immediately after they have been used. This will reduce the risk of needle sticks, cuts, and punctures from sharps. Sharps disposal containers should be kept out of reach of children and pets.

DO NOT REUSE SHARPS DISPOSAL CONTAINERS

ELIMINACIÓN DOMICILIARIA DE OBJETOS PUNZANTES

1 REVISAR EL ENVASE

Si hay instrucciones específicas para la eliminación en la etiqueta, el paquete o el prospecto, siga esas instrucciones.

Nunca coloque objetos punzantes en la basura ni el reciclaje y nunca los tire en el inodoro. La eliminación de objetos punzantes en la basura o el reciclaje puede poner en riesgo a los trabajadores de basura y alcantarillado, empleados de limpieza, empleados domésticos, miembros del hogar y niños.

2 CENTROS DE PROXIMIDAD

4 PROGRAMAS DE RECICLAJE

ELIMINACIÓN DOMICILIARIA DE OBJETOS PUNZANTES

Los objetos punzantes pueden ser peligrosos para las personas y los animales domésticos si no se eliminan de forma segura. Los objetos punzantes puede provocar lesiones o diseminar infecciones que causan serias afecciones de salud. Entre estas infecciones se pueden encontrar las siguientes: la Hepatitis B (VHB), la Hepatitis C (VHC) y el Virus de la Inmunodeficiencia Humana (VIH).

La eliminación segura de los objetos punzantes es importante ya sea que se encuentre en su casa, en el trabajo, en la escuela, viajando o en otros espacios públicos como por ejemplo, hoteles, parques y restaurantes. Los dueños de animales domésticos que utilizan agujas para administrarles medicación deben seguir los mismos lineamientos para la eliminación de objetos punzantes que los utilizados para los seres humanos.

CONTENEDORES PARA ELIMINACIÓN DE OBJETOS PUNZANTES

Todos los contenedores para la eliminación de objetos punzantes deben estar fabricados en material plástico de alta resistencia; poder cerrarse con una tapa hermética resistente a las pinchaduras sin que los objetos punzantes puedan salir; mantener un posición vertical estable durante el uso; ser a prueba de derrame; y estar adecuadamente rotulados como "desecho de objetos punzantes" o con el símbolo de peligro biológico y la palabra "PELIGRO BIOLÓGICO" para advertir que contienen materiales peligrosos.

Coloque todos los objetos punzantes en un contenedor para eliminación de los mismos inmediatamente después de que se hayan utilizado. Esto reducirá el riesgo de pinchaduras con agujas, cortes y pinchazos con objetos punzantes. Los contenedores para eliminación de objetos punzantes deben mantenerse fuera del alcance de los niños y de los animales domésticos.

Outreach and Education

Part of MED-Project's mission is to reach out to the local community and educate residents about proper disposal of household unwanted medicine and sharps.

Medicines help treat diseases, manage chronic conditions, and improve health and well-being for millions of Americans. It is important that patients take their medicines as prescribed by their health care provider and as indicated on the label or packaging. It is also important to be sure to store medicines and sharps securely to prevent accidental ingestion or misuse by others, especially children.

There are a number of ways to dispose of expired or unwanted medicines or sharps. To protect your privacy, patients are reminded to remove all personally identifiable information on medication labels or packaging before disposing of unwanted medicines.

For additional information on the program, MED-Project has developed an educational toolkit which includes the materials below.
