I. Contact Information

The primary contact person for MED-Project is:

Dr. Victoria Travis, PharmD, MS, MBA
National Program Director
MED-Project LLC

4096 Piedmont Ave Unit 174
Oakland, CA 94611

Phone: (833) 633-7765

Fax: (866) 633-1812

alamedacounty@med-project.org

II. Introduction

MED-Project LLC ("MED-Project"), on behalf of the participating companies identified in Appendix A, submits this Product Stewardship Plan ("Plan") for Unwanted Medicine to the Alameda County Department of Environmental Health ("Department") in compliance with the Alameda County Safe Drug Disposal Ordinance, Title 6 of the Alameda County Health and Safety Code Sections 6.53.010 through 6.53.120, as amended February 2, 2016 ("Ordinance") and the Alameda County Safe Drug Disposal Regulations, as amended October 16, 2013 ("Regulations"). The Ordinance requires pharmaceutical Producers¹ to develop a Product Stewardship Program to finance and manage the collection, transportation, and disposal of Unwanted Medicine from Alameda County households.

¹ All capitalized terms used but not otherwise defined herein shall have their respective meanings set forth in the Ordinance and Regulations.

III. Plan Definitions

Board of Pharmacy is the California State Board of Pharmacy.

Call Center is the MED-Project call center for Residents, which can be reached by callers at the toll-free number of 1-844-MED-PROJECT or 1-844-633-7765.

Carrier is the common carrier used to transport Unwanted Medicine from Kiosk Drop-Off Sites and/or Take-Back Events.

County means Alameda County, California.

DEA is the U.S. Drug Enforcement Administration.

DEA Rule is the DEA Final Rule, "Disposal of Controlled Substances," 79 Fed. Reg. 53,520 *et seq.*, adopted on September 9, 2014.

DOT is the U.S. Department of Transportation.

FDA is the U.S. Food and Drug Administration.

Help Desk is the MED-Project call center and email-in database for Kiosk Drop-Off Sites that can be reached by callers at a toll-free number and/or by email at alamedacounty@med-project.org.

Inhaler Mail-Back Services is the provision of pre-paid, pre-addressed packages for the collection and disposal of inhalers ("**Inhaler Mail-Back Packages**") by Vendor.

Kiosk Drop-Off Site is a location that is accessible to the public, hosting a MED-Project kiosk for the collection of Unwanted Medicine, including On-Demand Collection Service Kiosk Drop-Off Sites and Scheduled Collection Service Kiosk Drop-Off Sites.

Kiosk Drop-Off Site Host is the designated contact person or persons at the Kiosk Drop-Off Site, including On-Demand Collection Service Kiosk Drop-Off Site Hosts and Scheduled Collection Service Kiosk Drop-Off Site Hosts.

Law Enforcement Agency or **LEA** is a federal, state, tribal, or local law enforcement office or agency.

Mail-Back Services is the provision of pre-paid, pre-addressed containers, envelopes, or packages ("**Mail-Back Packages**") to Residents for the collection and disposal of Unwanted Medicine by Vendor.

MED-Project Website is the Internet website located at www.med-project.org or www.medproject.org.

Plan or **Product Stewardship Plan** is the product stewardship plan presented in this submittal by MED-Project.

Program or **Product Stewardship Program** is the product stewardship program set forth in this Product Stewardship Plan.

On-Demand Collection Service is a service model where Unwanted Medicine Kiosk Drop-Off Site staff manage removal and packaging of full Unwanted Medicine inner liners prior to transfer to a common carrier for transport to a reverse distributor.

Residents means human beings residing in the County. "Residents" does not include nonresidential generators of pharmaceutical waste, such as businesses, hospitals, clinics, doctor's offices, veterinary clinics, pharmacies, or airport security and law enforcement drug seizures.

Scheduled Collection Service is a service model where MED-Project provides for a vendor service technician to help prepare Unwanted Medicine inner liners at Unwanted Medicine Kiosk Drop-Off Sites for transfer to a common carrier for transport to a reverse distributor.

Unwanted Medicine Service Technicians are personnel trained to service Program kiosks and/or Take-Back Events.

Standard Mail-Back Services is the provision of pre-paid, pre-addressed envelopes for the collection and disposal of Unwanted Medicine ("**Standard Mail-Back Packages**") by Vendor.

Specified Languages are English, Spanish, Chinese, Vietnamese, and Tagalog (Filipino).

Take-Back Event is a one-day event at a location accessible to the public, conducted by MED-Project, with oversight by law enforcement, for the collection of Unwanted Medicine from Residents.

Unwanted Medicine is defined in Section IV of this Plan.

Vendor is any vendor retained by MED-Project to carry out its obligations under the Program.

IV. Unwanted Medicine

For the purposes of the Plan, "Unwanted Medicine" includes all materials identified as "Covered Drugs" under Ordinance § 6.53.030(3) that qualify as "Unwanted Products" under Ordinance § 6.53.030(21). According to the Ordinance, Covered Drugs means "a Drug sold, offered for sale, or dispensed in Alameda County in any form including prescription and nonprescription drugs, drugs in medical devices and combination products, brand name and generic drugs, and drugs for veterinary use." Unwanted Medicine does not include the following:

- i. Expired and/or undispensed samples direct from physicians' offices;
- ii. Unused or expired drugs from hospitals and institutions;
- iii. Bulk animal pharmaceuticals from farms (business use);
- iv. Vitamins or supplements;
- v. Herbal-based remedies and homeopathic drugs, products, or remedies;
- vi. Compressed cylinders and mercury-containing thermometers;
- vii. Cosmetics, shampoos, sunscreens, toothpaste, lip balm, antiperspirants, or other personal care products that are regulated as both cosmetics and nonprescription drugs under the federal Food, Drug, and Cosmetic Act (Title 21 U.S.C. Chapter 9);
- viii. Hard surface and toilet disinfectant cleaners;
- ix. Drugs administered in a healthcare setting;
- x. Drugs for which Producers provide a pharmaceutical product stewardship or take-back program as part of an FDA managed risk evaluation and mitigation strategy (Title 21 U.S.C. Sec. 355-1);
- xi. Drugs that are biological products, as defined by 21 C.F.R. 600.3(h) as it existed on February 2, 2016, if the Producer already provides a pharmaceutical product stewardship or take-back program;
- xii. Medical devices or their component parts or accessories;
- xiii. Used, empty containers, vials, and pouches;
- xiv. Sharps (*e.g.*, needles, auto-injectors); and
- xv. Schedule I or other illicit drugs.

See Section XII.A for collection limitations imposed by the DEA Rule.

V. Collection of Unwanted Medicine

The Plan provides services to collect Unwanted Medicine, including controlled substances. The Program accepts Unwanted Medicine regardless of who produced it unless excused from this requirement by the Department. The collection methods and any applicable legal requirements are described below.

A. Unwanted Medicine Collection Program

1. Outreach

MED-Project continues to periodically perform outreach to potential collection sites through calls, emails, and/or site visits with the goal of establishing Kiosk Drop-Off Sites distributed throughout the County.

LEAs and Pharmacies that currently host kiosks in the County may transition into the Program upon entering into an agreement with MED-Project.

2. Implementation

MED-Project continues to implement the Program through executed agreements with Kiosk Drop-Off Site Hosts. Take-Back Events will also be conducted in coordination with scheduled Alameda County Department of Environmental Health Household Hazardous Waste ("HHW")² events throughout the County.

Collection of Unwanted Medicine begins at Kiosk Drop-Off Sites once agreements have been executed with each location, kiosks have been installed, sites have been trained, and, in the case of pharmacies, all requirements of the DEA and Board of Pharmacy have been met.

3. Convenience

Mail-Back Services are available upon request by disabled and home-bound Residents, or persons providing services to such Residents, via the Call Center and MED-Project Website, thereby offering more opportunities to dispose of Unwanted Medicine.

4. Services

MED-Project routinely assesses performance, gauges feedback, and revises its approach to services and convenience as appropriate. As implementation proceeds, MED-Project shall continue to approach organizations that may be available as future Kiosk Drop-Off Sites on a periodic basis, such as those listed in Appendix B.

The Program is implemented in a flexible manner, offering coverage to Residents through a combination of Kiosk Drop-Off Sites, Mail-Back Services, and/or Take-Back Events. Over the course of implementation, additional Kiosk Drop-Off Sites have been established to the extent that (1) additional eligible LEAs and/or DEA-registered collector pharmacies agree to participate, and (2) contracts can be executed with such entities. For every engagement with LEAs and pharmacies, including the establishment of Kiosk Drop-Off Sites and/or the conducting of Take-Back Events, contracts outlining the responsibilities of all involved parties are drafted, reviewed by appropriate entities, and signed by all parties before MED-Project installs kiosks and/or schedules Take-Back Events.

For more information regarding Take-Back Event scheduling, coverage, and frequency, *see* Section V.C.

² <http://stopwaste.org/recycling/residents/household-hazardous-waste/one-day-event>

Mail-Back Services are available to disabled and home-bound Residents, or to persons providing services to such Residents, via the Call Center and MED-Project Website. *See* Section V.F for more information about the availability of Mail-Back Services.

B. Kiosk Drop-Off Sites

Kiosk Drop-Off Sites will continue to be strategically placed across the County in order to best serve Residents. All Kiosk Drop-Off Site Hosts shall provide Residents with access to Program kiosks during regular business hours.

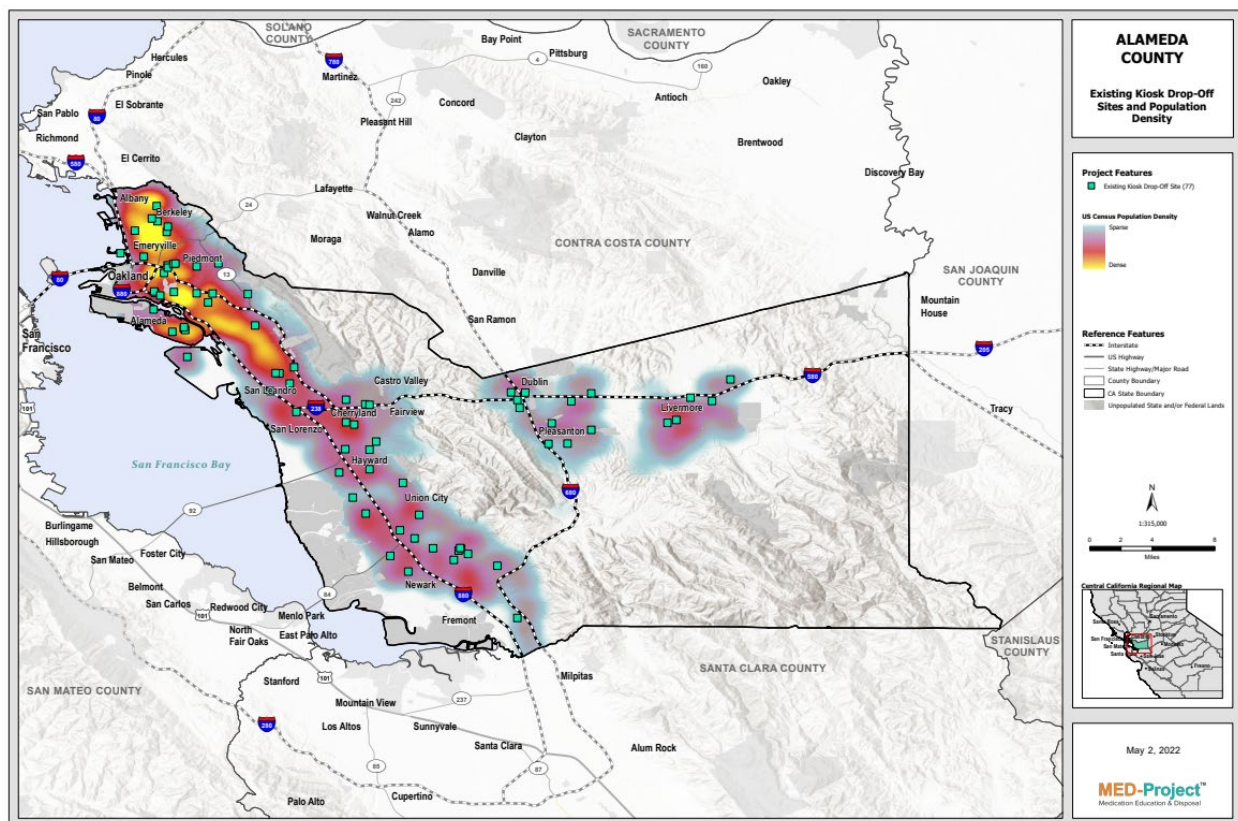

1. Kiosk Drop-Off Site Locations

Kiosk Drop-Off Sites that are currently interested in and participating in the Program are identified in [Appendix C](#).

MED-Project continues outreach to potential Kiosk Drop-Off Site Hosts that are not interested in or participating in the Program, such as sites listed in [Appendix D](#).

As required under Ordinance § 6.53.070(E), the Plan includes as a Kiosk Drop-Off Site any eligible site willing to serve voluntarily as a Kiosk Drop-Off Site for Unwanted Medicine and able to meet all applicable laws, regulations, and other legal requirements. Locations currently serving as a drop-off site may participate in the MED-Project Program by signing agreements with MED-Project and modifying their DEA registrations if required. MED-Project will work with the Kiosk Drop-Off Site Host to transition to the Program and Vendor.

A map of existing Kiosk Drop-Off Sites is below.

2. Drop-Off Site Kiosk Placement and Maintenance Program

Kiosk installation shall be the responsibility of MED-Project at LEAs and pharmacy Kiosk Drop-Off Sites when the Kiosk Drop-Off Site Host has identified a compliant placement location. All kiosks in the Program must be securely placed and maintained inside a collector's registered location or LEA's physical location in accordance with DEA Rule §§ 1317.75(d)(1) and 1317.35(a). At pharmacies, kiosks are placed in the immediate proximity of a designated area where controlled substances are stored and at which an employee is present (*i.e.*, can be seen from the counter), pursuant to DEA Rule § 1317.75(d)(2). Kiosk placement will also comply with any applicable Board of Pharmacy requirements. Costs associated with installation and maintenance are paid by MED-Project per the contracts with the Kiosk Drop-Off Site Hosts.

The maintenance program addresses items such as:

- Periodic inspection of kiosks to monitor general wear and tear;
- Unwanted Medicine Service Technician access to the kiosks at Scheduled Collection Service Kiosk Drop-Off Sites during the regularly scheduled Collection Service;
- Reporting by the Kiosk Drop-Off Site Host of damage to a kiosk or requested maintenance service.

All Kiosk Drop-Off Site Hosts are able to notify MED-Project of the need for kiosk service or maintenance via the Help Desk.

3. Kiosk Specifications

A blue kiosk is offered to eligible host locations. Pursuant to DEA Rule § 1317.75, MED-Project kiosks at pharmacies must:

- Be securely fastened to a permanent structure;
- Be securely locked, substantially constructed containers with a permanent outer container and removable inner liner;
- Include a small opening in the outer container that allows contents to be added to the inner liner, but does not allow removal of the inner liner's contents;
- Prominently display a sign indicating that only Schedule II-V controlled and non-controlled substances are acceptable to be placed in the kiosk; and
- Have the small opening in the outer container locked or made inaccessible to the public when a Kiosk Drop-Off Site employee is not present.

The design of the pharmacy kiosk and signage ([Appendix E](#)) satisfies these requirements through the use of heavy gauge steel; multiple locking mechanisms, including a locking mechanism on the drop-slot; a tamper-resistant slot; and commercial hinges. The design increases the likelihood of consumer participation by providing easy access to wheelchair users. The locking mechanism on the drop-slot prevents kiosk overflow once the container has reached its maximum level and is locked by the Kiosk Drop-Off Site employee. MED-Project pharmacy kiosks come with appropriate regulatory signage and instructions, including an instruction to remove personal information from any Unwanted Medicine and packaging before depositing them and language required under the DEA Rule³ and by the Board of Pharmacy. Kiosk signage provides information about what is and is not accepted in the kiosk.

Additionally, under DEA Rule § 1317.60(a), MED-Project kiosk inner liners will:

³ Specifically, as required under DEA Rule § 1317.75(e)(4), all kiosks will prominently display a sign stating that: "Only Schedule II-V controlled and non-controlled substances that are lawfully possessed by the ultimate user are acceptable to be placed in the kiosk. Schedule I controlled substances, illicit or dangerous substances, and any controlled substances not lawfully possessed by the ultimate user may not be placed in the kiosk."

- Be waterproof, tamper-evident, and tear-resistant;
- Be removable and sealable immediately upon removal without emptying or touching kiosk contents;
- When sealed, make the contents of the inner liner not viewable from the outside;
- Clearly indicate the size of the inner liner; and
- Bear a permanent, unique identifier for tracking purposes.

MED-Project kiosks and inner liners will also comply with the Board of Pharmacy requirements.

While the DEA Rule does not require LEA kiosks to meet these same requirements, MED-Project will offer these kiosks and inner liners to LEAs. *See Disposal of Controlled Substances*, 79 Fed. Reg. 53,520, 53,531 (Sept. 9, 2014).

4. Kiosk Collection

Under DEA Rule § 1317.05(c)(2)(iv), pharmacy Kiosk Drop-Off Site Hosts must dispose of sealed inner liners and their contents either on-site, through common or contract carrier delivery to, or pick-up by **a reverse distributor or distributor, or with DEA assistance**.

DEA Rule § 1317.75(c) prohibits the counting, sorting, inventorying, or individual handling of any substances deposited into a pharmacy kiosk. Additionally, DEA Rule § 1317.60 limits inner liner access to employees of the collector and requires two employees to immediately seal the inner liner upon its removal from the pharmacy kiosk's permanent outer container. *See* DEA Rule § 1317.60(b), (c). DEA Rule § 1317.75(g) provides that pharmacy kiosk inner liner installation or removal shall be performed "by or under the supervision of at least two employees of the authorized collector." The pharmacy kiosk sealed inner liner must not be opened, x-rayed, analyzed, or otherwise penetrated. *See* DEA Rule § 1317.60(c).

At LEA Kiosk Drop-Off Sites, Vendor and/or LEA will maintain any records of removal, storage, or destruction of the collected Unwanted Medicine in a manner consistent with the LEAs' recordkeeping requirements for illicit controlled substances evidence pursuant to DEA Rule § 1317.35. LEAs will record the unique identifier and size of the sealed inner liner transferred to Vendor. *See* DEA Rule § 1317.35. Additionally, any Unwanted Medicine will be stored in a manner to prevent the diversion of controlled substances and consistent with the LEA's standard procedures for storing illicit controlled substances. Collected Unwanted Medicine will be transferred to the disposal facility in a manner to prevent the diversion of Unwanted Medicine and consistent with the LEA's standard procedures for transferring illicit controlled substances. *See* DEA Rule § 1317.35.

MED-Project's Kiosk Drop-Off Site collection system complies with these DEA requirements for pharmacy and LEA Kiosk Drop-Off Sites. Vendor, pharmacies, and LEAs participating in the Program will keep all records required under the DEA Rule, including those required under DEA Rule §§ 1304 and 1317.35. Pharmacies participating in the Program will also keep all records required under Board of Pharmacy requirements. Pharmacy Kiosk Drop-Off Sites and Vendor will be instructed never to count, sort, inventory, or individually handle kiosk contents. MED-Project's Kiosk Drop-Off Site collection system will also comply with all applicable Board of Pharmacy requirements.

5. Collection Methods

A Kiosk Drop-Off Site Host may choose to participate in the program via either the Scheduled Collection Service method or On-Demand Collection Services method, the latter of which is dependent upon the Department's approval of a Petition for Exception. For both methods, MED-Project provides for the collection, transport, and disposal of Unwanted Medicine at no cost to the Kiosk Drop-Off Site.

If a Kiosk Drop-Off Site Host elects to participate via the On-Demand Collection Services method and receives Departmental approval of a Petition for Exception, the Kiosk Drop-Off Site employees shall

prepare the inner liner for shipment. On-Demand Collection Services enables a Kiosk Drop-Off Site Host to directly control the timing for servicing the kiosk and are able to seal the liner for packaging and transport at a time of their choosing. The Kiosk Drop-Off Site employees can schedule a common carrier to pick up the packaged inner liner or can offer the packaged inner liner during a regular common carrier pick up. This method enables the Kiosk Drop-Off Site to avoid disruptions to operations that may result from Vendor-scheduled visits or storage limitations.

If a Kiosk Drop-Off Site Host elects to participate via the Scheduled Collection Service method, an Unwanted Medicine Service Technician will regularly come to the Kiosk Drop-Off Site to help prepare the inner liner for shipment and disposal.

Kiosk Drop-Off Sites that are taking part in the Scheduled Collection Service pick-up method will have regular year-round scheduled time for pick up by a common carrier based on the specific location's business hours and weight of collected medications.

6. Kiosk Service

When servicing a kiosk at a Kiosk Drop-Off Site, two On-Demand Collection Services Kiosk Drop-Off Site employees or an Unwanted Medicine Service Technician under the supervision of two Scheduled Collection Service Kiosk Drop-Off Site employees following instructions provided by Vendor will:

- Check the kiosk for any damage.
- Remove the inner liner and box from the kiosk and seal them at once following procedures meeting all DEA requirements.
- Replace the removed inner liner and box with a replenishment inner liner and box provided by Vendor.
- Match the unique identifier of the inner liner to the tracking number on the shipping label,
- Package the inner liner for transport.
- Prepare the materials for shipment and perform applicable pre-transportation functions to following the DOT HMR.
- Schedule a pick-up from the Carrier to be completed within a few business days or offer the packaging holding the sealed inner liner for pick-up by routine Carrier service at the Kiosk Drop-Off Site.

If the package with the sealed inner liner is prepared before pick-up, the Kiosk Drop-Off Site Host store the inner liner in compliance with all applicable laws, regulations, and other legal requirements until Carrier pick-up.

7. Frequency of Pick-Up

Initially, all Scheduled Collection Kiosk Drop-Off Sites will be scheduled for a monthly pick-up from the kiosk. The Vendor will communicate with MED-Project in the event that the frequency of pick-up needs to be changed based on the volumes collected over time. As needed, MED-Project will communicate with the Scheduled Collection Kiosk Drop-Off Site Host in the event the frequency of pick-up needs to be changed. Vendor will monitor the volumes per service to ensure that all sites are receiving the appropriate service frequency. Vendor will manage pick-up services as frequently as necessary to prevent overflow of the kiosk without providing unnecessary interruption to the participating Scheduled Collection Kiosk Drop-Off Site. On-Demand Collection Kiosk Drop-Off Sites will be instructed to service the kiosk and request a pick-up by Carrier, as needed. Vendor will monitor the weight of Unwanted Medicine generated at each participating Kiosk Drop-Off Site.

8. Procedures if a Kiosk is Full Prior to Scheduled Pick-Up

The Scheduled Collection Service Kiosk Drop Off Site Host shall be instructed to lock the drop slot of the kiosk and notify MED-Project of the need for service prior to the scheduled date.

Vendor shall provide a network of trained Unwanted Medicine Service Technicians. Vendor will communicate service requests to field managers responsible for Unwanted Medicine Service Technicians. Vendor will direct service to the trained Service Technician who is in closest proximity to the Scheduled Collection Service Kiosk Drop Off Site requesting the service. This process provides for a timely response to Scheduled Collection Service Kiosk Drop Of Sites requiring service prior to the scheduled date.

Service timelines will be assessed based on the specific characteristics of the Scheduled Collection Kiosk Drop-Off Site's need. If necessary, Vendor will be able to respond within hours of the request. If the request does not require an urgent response, Vendor will respond within two business days of the request. In the interim, pharmacy Scheduled Collection Kiosk Drop-Off Site Hosts shall be instructed to secure the kiosk and its contents in accordance with DEA requirements.

On-Demand Collection Kiosk Drop-Off Sites will be instructed to service the kiosk and request a pick-up by Carrier, as needed.

C. Rapid Response Support

An unplanned event may necessitate a service at a Kiosk Drop-Off Site. A major event, such as a flood, earthquake, or fire, may jeopardize the security characteristics of the kiosk as well as the structural integrity of the Kiosk Drop-Off Site. Such events may require the involvement of law enforcement, fire, or other emergency service personnel. Kiosk Drop-Off Site employees will be directed to call 911 in situations posing an immediate threat to the environment or health. Once the area is safe for access, if needed, Vendor will dispatch Rapid Responders to secure the kiosk and remove its contents.

Vendor maintains a network of Rapid Responders that can be contacted in the case of an incident or other event requiring a Rapid Response. Vendor is able to respond within two to three hours in most cases when notified of a need for a Rapid Response. Rapid Responders will bring all necessary equipment to manage the specific needs of the Kiosk Drop-Off Site requiring a Rapid Response.

Along with major event preparedness, Vendor provides timely responses to events that may cause an inconvenience to the Kiosk Drop-Of Site. In situations requiring Rapid Response that do not require the involvement of emergency service personnel, the Kiosk Drop-Off Site Host will place a service request through the Help Desk. If the request does not require a Rapid Response, Vendor will typically respond within two to three business days of the event.

An event may occur, such as a site requiring an emergency response or an LEA that is unwilling or unable to securely store inner liners prepared for shipment, that necessitates a direct transport of a sealed inner liner from a Kiosk Drop-Off Site to a disposal facility listed in Section X. In such cases, a Service Technician will seal the kiosk inner liner for packaging and transport according to the process outlined in Section V.B.4.a. The packaged inner liner will then be transported to one of the disposal facilities listed in Section X.

D. Take-Back Events

MED-Project will conduct Take-Back Events in coordination with HHW events throughout the County. MED-Project may also conduct Take-Back Events upon request by LEAs. LEA employees shall oversee all

Take-Back Events. MED-Project will confirm and/or finalize the locations and dates to conduct Take-Back Events once contracts with overseeing LEAs have been executed.

Due to the changing schedule of Take-Back Events, the list of dates and locations will be maintained on the MED-Project Website as events are scheduled and confirmed. Annually, MED-Project will review the gaps in coverage and convenience that may exist, as well as progress being made against set collection goals to determine the need for Take-Back Events.

1. Method

The conducting of Take-Back Events by MED-Project is contingent upon participation and oversight by LEAs. MED-Project will work with participating LEAs to ensure Take-Back Events are compliant and successful. Events will be promoted and communicated to the public through local communication channels as outlined in [Appendix F](#).

MED-Project Take-Back Events will meet all applicable laws, regulations, and other legal requirements. MED-Project will contract with LEAs to oversee Take-Back Events. MED-Project will work with LEAs to accommodate any reasonable requirements.

2. Procedures

MED-Project will partner with LEAs to ensure that at least one law enforcement officer oversees collection at all Take-Back Events pursuant to DEA Rule § 1317.65(a), (b). The law enforcement officers will maintain control and custody of all Unwanted Medicine collected at Take-Back Events from collection until secure transfer, storage, or destruction of the Unwanted Medicine, as required by DEA Rule § 1317.65(b). Only ultimate users and persons authorized to dispose of an ultimate user decedent's property in lawful possession of controlled substances in Schedules II-V may transfer these substances to the LEA during the event. No other person will handle controlled substances at Take-Back Events under DEA Rule § 1317.65(e); however, Vendor may assist LEAs in the collection of Unwanted Medicine at Take-Back Events. *See Disposal of Controlled Substances*, 79 Fed. Reg. 53,520, 53,539 (Sept. 9, 2014).

Take-Back Events will typically be staffed by at least two Vendor employees. Vendor will work in coordination with MED-Project, the County, and LEAs to monitor and ensure collection of all material at Take-Back Events is compliant with all applicable laws, regulations, and other legal requirements and meets the published expectations of the planned event. Vendor will work in conjunction with law enforcement to ensure all material is placed in a compliant collection receptacle and securely shipped to meet all applicable laws, regulations, and other legal requirements. Any material that is not Unwanted Medicine or does not meet legal requirements will be rejected.

Vendor and the LEA will maintain all records of collection, storage, or destruction of the collected Unwanted Medicine in a manner consistent with the LEA's recordkeeping requirements for illicit controlled substances evidence pursuant to DEA Rule § 1317.35. Any collected Unwanted Medicine will be stored to prevent the diversion of controlled substances and consistent with the LEA's standard procedures for storing illicit controlled substances. Any storage of Unwanted Medicine by Vendor will also comply with the applicable security requirements of DEA Rule §§ 1301 and 1317, including the requirement that Unwanted Medicine is securely stored in a manner consistent with the security requirements for Schedule II controlled substances.

Following the completion of each event, containers will be weighed, securely packaged, labeled, transported from the event site to the LEA site, and shipped in compliance with all applicable laws, regulations, and other legal requirements. Law enforcement officers will maintain control and custody of all Unwanted Medicine collected at Take-Back Events while it is transported to the point of secure transfer, storage or destruction. Containers and inner liners will be tracked via unique identifiers to a

facility identified in Section X, where they shall be incinerated. Vendor will ship the containers (and inner liners) in accordance with the requirements outlined in Section XII.B.

E. Disposal of Unwanted Medicine from Kiosk Drop-Off Sites and Take-Back Events

Kiosk Drop-Off Site Host Employees, (or the LEA for Take-Back Events), Vendor, and Carrier shall manage the Unwanted Medicine from Kiosk Drop-Off Sites and Take-Back Events in compliance with all applicable laws, regulations, and other legal requirements. Carrier shall deliver Unwanted Medicine collected from Kiosk Drop-Off Sites and/or Take-Back Events to the respective facilities identified in Section X.

Unwanted Medicine is destroyed in accordance with all applicable laws, regulations, and other legal requirements at the disposal facilities identified in Section X.

F. Mail-Back Services for Unwanted Medicine

MED-Project will provide two types of Mail-Back Services:

- Standard Mail-Back Services for disabled and home-bound Residents or persons providing services to such Residents as described in Section V.F.1;
- Inhaler Mail-Back Services for the collection of inhalers for disabled and home-bound Residents or persons providing services to such Residents as described in Section V.F.2.

Mail-Back Packages will be pre-paid and pre-addressed, and Mail-Back Services shall comply with all applicable laws, regulations, and other legal requirements.

1. Standard Mail-Back Services for Unwanted Medicine

For Unwanted Medicine, MED-Project offers Standard Mail-Back Services at no cost to disabled and home-bound Residents, or to persons providing services to such Residents, via the Call Center and MED-Project Website. Standard Mail-Back Packages will also be available to Residents in underserved areas of the County until MED-Project has met its long-term kiosk installation goals. The pre-paid shipping label directs the Standard Mail-Back Package to the facility identified in Section X. Standard Mail-Back Packages for Unwanted Medicine shall comply with all applicable laws, regulations, and other legal requirements.

Pursuant to DEA Rule § 1317.70(c), the Standard Mail-Back Packages are:

- Nondescript and without any markings or information potentially indicating that they contain Unwanted Medicine, including controlled substances;
- Water and spill-proof, tamper-evident, tear-resistant, and sealable;
- Pre-addressed with and delivered to Vendor's registered address;
- Pre-paid;
- Provided with a unique identifier enabling tracking; and
- Provided with instructions indicating the process for mailing back the packages, accepted substances, a notice about mailing restrictions, and a notice that only packages provided by Vendor will be accepted for destruction.

Ultimate users and persons lawfully entitled to dispose of an ultimate user decedent's property will not be required to provide any personally identifiable information when using Standard Mail-Back Services to dispose of Unwanted Medicine. *See* DEA Rule § 1317.70(d). As required under DEA Rule § 1317.70(e), Vendor will only accept Standard Mail-Back Packages it made available (or packages lawfully forwarded under DEA requirements). Within three business days of receipt, Vendor will notify the DEA if it receives Standard Mail-Back Packages likely containing controlled substances that Vendor did not make available or did not agree to receive pursuant to DEA requirements. In accordance with DEA Rule § 1317.70(f),

when Standard Mail-Back Packages are received, only employees of Vendor will handle the Standard Mail-Back Packages. Standard Mail-Back Packages will not be opened, x-rayed, analyzed, or otherwise penetrated upon receipt by Vendor. *See* DEA Rule § 1317.70(f). Vendor will keep all records required under the DEA Rule, including those identified in DEA Rule § 1304.22(f).

See [Appendix G](#) for Standard Mail-Back Package image and package specifications.

2. Inhaler Mail-Back Services for Inhalers

For inhalers, MED-Project offers Inhaler Mail-Back Services at no cost to disabled and home-bound Residents, or persons providing services to such Residents, via the Call Center and MED-Project Website. The pre-paid shipping label directs the Inhaler Mail-Back Packages to an approved facility identified in Section X. An instruction sheet is included with the Inhaler Mail-Back Package that describes how to properly dispose of inhalers, explains what materials may be placed in the Inhaler Mail-Back Package, and how to return the Inhaler Mail-Back Package.

See [Appendix G](#) for an Inhaler Mail-Back Package image and package specifications.

3. Mail-Back Package Availability

Disabled and home-bound Residents or persons providing services to such Residents may request Standard Mail-Back Packages and/or Inhaler Mail-Back Packages by calling the Call Center or through a link on the MED-Project Website. Upon request, such Residents are provided Mail-Back Packages. Standard Mail-Back Packages will also be available to Residents in underserved areas of the County until MED-Project has met its long-term kiosk installation goals.

Each Mail-Back Package contains an insert with instructions for use and information about other options for disposing of Unwanted Medicine in the Specified Languages. *See* [Appendix G](#) for Mail-Back Package images.

4. Mail-Back Package Collection and Disposal

Requests to receive Mail-Back Packages are taken through the Call Center and the MED-Project Website. Residents are directed to follow the instructions provided in the Mail-Back Package and to place their Unwanted Medicine in the pre-addressed, pre-paid package. The Mail-Back Package shall be sent to an approved disposal facility in compliance with all applicable laws, regulations and other legal requirements. Each Mail-Back Package has a unique identifier for tracking.

For Standard Mail-Back Packages, upon arriving at the disposal facility, the Mail-Back Packages are scanned for receipt verification and incinerated at the disposal facilities listed in Section X. Any storage of filled Standard Mail-Back Packages by Vendor complies with the applicable security requirements of DEA Rule § 1317, including the requirement that Unwanted Medicine is securely stored in a manner consistent with the security requirements for Schedule II controlled substances. All Unwanted Medicine in Standard Mail-Back Packages are destroyed promptly.

VI. Goals

The short- and long-term goals of the Plan are described generally as follows. Additional detail on implementation is provided in Section V.A.2.

Goal Area	Short-Term Goals (12 to 18 months Post Approval)	Long-Term Goals (19 to 36 months Post Approval)
Collection	MED-Project's goal is to achieve 100 Kiosk Drop-Off Sites, distributed jointly, in combination with other approved product stewardship programs, across the County to provide equitable and reasonably convenient access to Residents.	Accept any additional potential Kiosk Drop-Off Sites that are eligible and request participation in the Program. Reduce collection via Take-Back Events and/or Mail-Back Services by establishing additional Kiosk Drop-Off Sites throughout the County.
Education & Public Outreach	Continue media Program consistent with Regulations § 8.A.viii via the following: <ul style="list-style-type: none"> • Website • Call Center • Media campaigns (for example, digital television, radio, and social media) 	Continue media Program consistent with Regulations § 8.A.viii via the following: <ul style="list-style-type: none"> • Website • Call Center • Media campaigns (for example digital television, radio, and social media)

MED-Project continues to implement Kiosk Drop-Off Sites in eligible locations that best serve the demographics and distribution of Residents. *See* Section V.B for more information about Kiosk Drop-Off Site collection.

MED-Project Mail-Back Packages will be made available to disabled and home-bound Residents, persons providing services to such Residents, and Residents in underserved areas of the County by request through the Call Center and MED-Project Website

VII. Patient Privacy

Instructions at each Kiosk Drop-Off Site informs Residents who deposit Unwanted Medicine that they should completely cross out, remove, or otherwise make unreadable any and all personally identifiable information on the containers and packaging before depositing them in the kiosk. In cases where people follow the instructions, there will be no personally identifiable information.

In addition to kiosk signage, MED-Project promotional and educational materials encourage Residents to protect their information by ensuring that identifiable information is not present before depositing containers into kiosks or Mail-Back Packages.

Materials to help Residents cross out any personally identifiable information will also be available at Take-Back Events. This will ensure any patient information on drug packaging will be unreadable.

Vendor has additional protections available for keeping Residents' personally identifiable information safe and secure. Unwanted Medicine Service Technicians are trained in managing items containing sensitive patient information. Privacy training is part of an Unwanted Medicine Service Technician's prerequisite for field services. As an added protection, inner liners for the kiosks are opaque rather than clear, in compliance with DEA Rule.

VIII. Call Center

MED-Project has established a toll-free telephone number for Residents to obtain information about Kiosk Drop-Off Sites, Mail-Back Services, educational materials, and other aspects of the Program. Callers with medical emergencies are directed to call 911. Patients with medication-related questions are directed to contact their health care provider(s).

The Call Center provides information about:

- Items that can be disposed of;
- Disposal options;
- Unwanted Medications Kiosk Drop-Off Sites and disposal options in the caller's specified zip code;
- The MED-Project website; and
- How to obtain Mail-Back Packages.

To increase access to the Program for Residents, MED-Project has included dialing options for TTY and 711 services.

A sample Call Center outline is included in Appendix I.

IX. Training

Vendor certifies training of Unwanted Medicine Service Technicians on the following:

- DOT HMR training to meet the requirements of 49 CFR Part 172.704(a).
- DEA controlled substances handling protocols.
- Emergency Spill Response and Contingency Plan
- Health Insurance Portability and Accountability Act (HIPAA) requirements.
- OSHA Blood Borne Pathogens Standards.
- Safety Training
- Security awareness Training
- Communication Devices
- PPE Utilization
- Alarm Systems
- General Awareness/Familiarization
- In-Depth Security Training (if applicable)
- Function Specific Training

At a Kiosk Drop-Off Site, operational procedures, including annual training, are the responsibility of the Kiosk Drop-Off Site Host. MED-Project provides a Help Desk to answer questions and monitor comments for participating Kiosk Drop-Off Sites.

X. Vendor, Transporter, and Disposal Facility Information

All Vendors, transporters, and disposal facilities utilized by the Program will operate in accordance with all applicable laws, regulations, and other legal requirements.⁴

A. Vendors

XI. Unwanted Medicine Educational and Outreach Programming

A. Overview

MED-Project will perform public education and outreach to educate Residents about the collection and disposal of Unwanted Medicine from households.

B. Audiences

To effectively educate the public about the Program, MED-Project will continue to implement a comprehensive communications campaign featuring both broad communications tactics as well as targeted outreach to audiences directly involved in the distribution and use of medicines to Residents. These audiences may include:

- General public.
- Pharmacies, including education for dispensers of Unwanted Medicine.
- Retailers of Unwanted Medicine.
- Health care providers and their patients.
- Veterinary providers and animal owners.
- Public health facilities; and/or
- LEAs.

The Program will include efforts to reach the varied cultural, linguistic, geographic, and age demographics, including through outreach to ethnic, community, and alternate-language media; outreach to community organizations serving a broad range of audiences; availability of alternate language phone lines (Section XI.D.1); and availability of educational information through a broad range of media platforms.

Survey results will be utilized in order to inform improvements to the design of the outreach program and educational materials where necessary (see Section XI.F).

C. Messages

MED-Project anticipates that messaging will:

- Educate Residents about the appropriate use, storage, and disposal of Unwanted Medicine.
- Educate Residents about available Mail-Back Services; and
- Provide Residents with information about available locations and events in their area that offer disposal of Unwanted Medicine.

Key points of emphasis might include:

- The importance of taking medicines as prescribed by your health care provider.
- The importance of adhering to and completing your provider-prescribed therapy.
- The importance of properly and securely storing medicines.
- The importance of promptly and properly disposing of Unwanted Medicine.
- How to find and use Kiosk Drop-Off Sites.
- How to properly dispose of Unwanted Medicine; and
- Privacy issues (removing personally identifiable information from labeled prescription containers).

D. Tools/Communications Channels

The MED-Project Program will include a number of components designed to reach consumers and provide consistent access to timely and relevant information. Distribution of materials will likely include audiences

such as LEAs, retail pharmacies, health care providers and systems, health associations, local government agencies, and other community organizations.

MED-Project will design and execute a measurable public education and outreach strategy aimed at driving awareness of take-back of Unwanted Medicine and in line with Ordinance §§ 6.53.050 (A) (8) and 6.53.070. MED-Project will evaluate and Plan media tactics based on the needs of the campaign and media usage within the target audience, and these may include a combination of digital media campaigns, print ads, out-of-home ads, digital video, and traditional broadcast media based on budget. The quantity and frequency will be confirmed as activities are completed.

MED-Project expects that the tools and communication channels will include:

1. Phone

The Program will provide a toll-free telephone number for Residents to obtain information about Kiosk Drop-Off Sites, Take-Back Events, Mail-Back Services, educational materials, and other aspects of the Program for the take-back of Unwanted Medicine from households. The toll-free number will provide:

- Call Center in the Specified Languages. The telephone line will also provide an option for callers to be transferred to a staffed Call Center. Live operators will be available in English and Spanish. If a caller requires assistance in Chinese, Vietnamese or Tagalog, an operator will be available to provide additional assistance. Operators providing services in over 200 languages are available 24 hours a day, seven days a week.
- Basic information about the Program, such as where to obtain more information (*e.g.*, the MED-Project Website) and an option to talk with an agent to find or utilize Kiosk Drop-Off Sites, Mail-Back Services, and/or Take-Back Events, if applicable, in the caller's zip code or local area.
- A recorded call script directing callers with medical emergencies to call 911 and directing callers with medication-related questions to contact their health care provider(s).

Please *see* [Appendix I](#) for the Call Center IVR flow.

2. MED-Project Website

MED-Project will update the mobile-friendly MED-Project Website with translations in the Specified Languages. MED-Project expects information available to users will include pages to help Residents find locations of Kiosk Drop-Off Sites, Mail-Back Services, as well as educational materials, frequently asked questions and responses, and Take-Back Event dates and locations.

- The Plan currently includes a mockup of the types of information a MED-Project Website and its supporting pages might contain. [Appendix J](#) provides proof of concept samples for a possible MED-Project Website with subpages.
- The MED-Project Website may also include access to a public relations toolkit in a printable format (*see* Section XI.D.3) and contact information for Residents. A toolkit could include items such as a flyer/brochure (*See* [Appendix K](#) for an example) and a frequently asked questions (FAQ) document. Translations of the brochure and FAQ will be available in the Specified Languages.
- Community and government organizations and other public interest groups seeking materials to promote the Program will be encouraged to access these resources.

3. Materials

Educational materials about the Program and how to properly dispose of Unwanted Medicine will be available through the MED-Project Website, through potential third-party partners, community organizations, and at Kiosk Drop-Off Sites.

The Plan includes the information and educational brochure ([Appendix K](#)). Educational materials will use plain language and explanatory images to promote consumer education and collection options to Residents with limited English proficiency.

4. Social Media

MED-Project has established social media accounts to communicate outreach information. Outreach is based on the establishment of Kiosk Drop-Off Sites, Mail-Back Services, and the scheduling of Take-Back Events. Posts will be utilized as needed to reflect the most up-to-date information.

5. Broadcast Outreach

Outreach through local print, online, radio, and television outlets, including through outlets specifically targeting the diverse demographic communities within the County, will continue upon Plan approval. Please *see* [Appendix F](#) for a media list of key outlets. Broadcast outreach will be scheduled to reflect the learnings and needs of the campaign based on the biennial survey outcomes and budget.

E. Collaboration with County Officials and Community Organizations

MED-Project expects that the Program will work in collaboration with the County as appropriate to build on existing community outreach resources, such as local organizations, media lists, available public media outlets, etc. Activities like the following will continue upon Plan approval:

- *Briefing Materials Provided to Support Coordination with County Officials:*
 - The Program will provide access to updated educational and outreach materials, including the brochure (*see* [Appendix K](#)), to relevant departments and officials.
- *Outreach through Community Organizations:*
 - The Program will engage relevant stakeholders and community organizations by providing selected community organizations identified in [Appendix B](#) with the updated brochure included in [Appendix K](#).

F. Effectiveness

MED-Project will conduct a biennial survey of Residents and pharmacists, veterinarians, and health professionals in the County who interact with patients to measure awareness of the take-back of Unwanted Medicine from households and to evaluate the effectiveness of its education and outreach activities. The survey will be conducted in conjunction with the biennial survey conducted under MED-Project's stewardship program for the collection of sharps from households. The first survey was conducted after the first full year of operation of MED-Project's program for sharps.

G. Disclaimer

The written and verbal educational materials and public outreach tools that are required by the Ordinance and disseminated under this Product Stewardship Plan will include a disclaimer similar to the following: "This material has been provided for the purpose of compliance with legislation and does not necessarily reflect the views of MED-Project or the Producers participating in the MED-Project Product Stewardship Plan."

XII. Compliance with Applicable Laws, Regulations, and other Legal Requirements

As described in more detail below, the Plan is designed such that all entities participating in the Program shall comply with all applicable laws, regulations, and other legal requirements.

H. DEA Controlled Substances Act and Implementing Regulations

On October 12, 2010, the United States Congress enacted the Secure and Responsible Drug Disposal Act of 2010 ("Disposal Act") as amendments to the Controlled Substances Act ("CSA"). The Disposal Act amended the CSA to allow for the expansion of entities to which users can deliver pharmaceutical controlled substances for disposal, subject to regulations to be promulgated. On September 9, 2014, the DEA adopted a rule entitled "Disposal of Controlled Substances" (referred to herein as the "DEA Rule") to implement the Disposal Act.

Under the DEA Rule, collection of controlled substances is limited to Schedule II, III, IV, or V controlled substances that are lawfully possessed by an ultimate user or person entitled to dispose of an ultimate user decedent's property. *See* DEA Rule §§ 1317.75(b) (Kiosk Drop-Off Sites)⁵; 1317.65(d) (Take-Back Events); 1317.70(b) (Mail-Back Services). Schedule I controlled substances, controlled substances that are not lawfully possessed as described above, and other illicit or dangerous substances will not be collected. Additionally, as these provisions of the DEA Rule limit collection of controlled substances to those lawfully possessed by an ultimate user or certain other persons, pharmacies are prohibited from disposing their own inventory or stock through the MED-Project Program. *See also* DEA Rule § 1317.05.

The DEA Rule provides that LEAs can continue to accept controlled substances for disposal. However, the DEA Rule also provides that pharmacies, reverse distributors, hospitals/clinics with on-site pharmacies, and certain other entities, can register with the DEA as "collectors" and become authorized at their discretion on a voluntary basis to accept controlled substances. The DEA Rule:

- Provides for the collection of controlled substances at Kiosk Drop-Off Sites at LEAs, pharmacies, and hospitals with on-site pharmacies;
- Provides for collection of controlled substances at Take-Back Events;
- Provides for the use of mail-back programs to collect controlled substances;
- Allows for the commingling of controlled and non-controlled substances;
- Establishes detailed collection, recordkeeping, security, and other measures for all approved collection methods; and
- Provides that all collected pharmaceutical products be destroyed so that the products are rendered non-retrievable.

The Plan is designed such that all entities that are part of the Program, including Vendor, are individually responsible to comply with their respective compliance obligations under the DEA Rule. Vendor will ensure that the collection, transportation, and disposal of Unwanted Medicine collected from Kiosk Drop-Off Sites, Mail-Back Services, and Take-Back Events, including controlled substances, complies with all DEA requirements, including those in DEA Rule § 1317.

Controlled substances collected pursuant to the Plan may be commingled with non-controlled substances at Kiosk Drop-Off Sites, Take-Back Events, and through Mail-Back Services per the DEA Rule. *See* DEA

⁵ For Kiosk Drop-Off Site collection, only certain substances "that are lawfully possessed by an ultimate user or other authorized non-registrant person may be collected." DEA Rule § 1317.75(b). This language is similar to, but slightly different than, provisions limiting collection at Take-Back Events and through Mail-Back Services to ultimate users or other persons (lawfully) entitled to dispose of an ultimate user decedent's property. *See* DEA Rule §§ 1317.65(d); 1317.70(b).

Rule §§ 1317.75(b) (Kiosk Drop-Off Sites); 1317.65(d) (Take-Back Events); 1317.70(b) (Mail-Back Services).

1. DEA Registration Modification

Pursuant to DEA Rule § 1301.51(b), pharmacies may modify their registrations to become authorized collectors by submitting a written request to the DEA or online at www.DEAdiversion.usdoj.gov. This request must contain:

- The registrant's name, address, and registration number (as printed on the registration certificate);
- The collection methods the registrant intends to conduct; and
- A signature in accordance with 21 C.F.R. § 1301.13(j).

See DEA Rule § 1301.51(b). MED-Project will consult with participating pharmacies, as requested, regarding how to modify DEA registrations to become authorized collectors.

I. United States Department of Transportation (DOT)

When transporting Unwanted Medicine, Vendor will ensure compliance with the U.S. DOT HMR and other applicable DOT requirements.

J. California Board of Pharmacy

On June 8, 2017, the Board of Pharmacy adopted the Board of Pharmacy Regulations, Article 9.1 of Division 17 of Title 16 of the California Code of Regulations. Largely based on the DEA Rule, the Board of Pharmacy Regulations establish requirements applicable to pharmacies, hospitals/clinics with on-site pharmacies, distributors, and reverse distributors conducting certain drug take-back services. Among other things, the Board of Pharmacy Regulations provide:

- That California-licensed pharmacies and hospitals/clinics with on-site pharmacies must be in good standing with, and notify, the Board of Pharmacy to host a drug kiosk. See 16 CCR §§ 1776, 1776.1(i).
- That pharmacies must "know and adhere" to all applicable "federal, state, and local requirements governing the collection and destruction of dangerous drugs" when operating a drug take-back program. See 16 CCR § 1776.1(b).
- Drug kiosk placement and monitoring requirements. See 16 CCR §§ 1776.3(b)–(d).
- Drug kiosk inner liner, container, and signage requirements. See 16 CCR §§ 1776.3(f), (h), (m).
- Inner liner handling, storage, and destruction requirements for drug kiosks. See, e.g., 16 CCR §§ 1776.3(h)–(j), 1776.5(a)–(c).
- Pharmacy and reverse distributor recordkeeping requirements. See 16 CCR §§ 1776.5(e)–(f), 1776.6.
- Pharmacy drug mail-back program requirements. See 16 CCR § 1776.2.

The Plan is designed such that all entities that are part of the Program, including Vendor, are individually responsible for complying with their respective compliance obligations under the Board of Pharmacy Regulations.

XIII. Annual Report

An annual report will be provided to the Director on or before the date set by the Department and annually thereafter. Ordinance § 6.53.080. This report will be provided in the format required by the Ordinance § 6.53.080 and Regulations § 15. The total amount by weight collected by a Mail-Back Program will be provided using an average weight per Mail-Back Package, as provided by Vendor.

Appendix A

MED-Project Participants

The list of participating Producers in MED-Project's Program in the County is provided to the County on a periodic basis to satisfy Ordinance requirements.

Appendix B

Contact List for Outreach and Education to the Community

The following is a representative list of Associations, Agencies, and Organizations that may be contacted for assistance with outreach and education to the community.

Health Systems:

Alameda County Medical Center
Children's Hospital and Research Center
Fremont Hospital
Kaiser Foundation Hospital
St. Rose Hospital
Sutter Health
Stanford Health
Washington Hospital

Health Associations and Societies:

California State Board of Pharmacy
California Pharmacists Association
The Medical Board of California
California Nurses Association
National Association of Social Workers California Chapter
California Board of Registered Nursing
California Board of Vocational Nursing
California Department of Health Care Services
California Health and Human Services Agency

Organizations, Districts, and Agencies:

Alameda County Public Health Department
Alameda County Department of Environmental Health
Alameda County Public Works Agency
Alameda County Board of Supervisors
Alameda County Fire Department
American Medical Response Alameda County
CalRecycle

Appendix C

Interested Sites and Participating Kiosk Drop-Off Sites as of June 29, 2022

MED-Project will provide the County with a list of participating Kiosk Drop-Off Sites on a periodic basis, as requested by the County. Kiosk Drop-Off Sites marked with an asterisk have received an exception from Alameda County Department of Environment Health to operate as an On-Demand Collection Service Kiosk Drop-Off Site.

SAFELY DISPOSE OF EXPIRED OR UNWANTED MEDICINE

- 1 Cross out or remove personal identifying information from the medicine packaging.

- 2 Leave the product in its original container or place solid medicine in a sealed plastic bag.

If transferring medication to a sealed bag, please be sure to recycle remaining packaging.

- 3 Put medicine in the kiosk.

Only schedule II-V controlled and non-controlled substances that are lawfully possessed by the ultimate user are acceptable to be placed in the kiosk. Schedule I controlled substances, illicit or dangerous substances, and any controlled substances not lawfully possessed by the ultimate user may not be placed in the kiosk.

⚠️ PROP 65 WARNING: Entering this area, or coming into contact with items or materials in this kiosk, can expose you to chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. For more information, go to www.p65Warnings.ca.gov.

For more information about the MED-Project program, please to go to www.med-project.org or call 1-844-MED-PROJECT / 1 (844) 633-7765 (TTY: 711)

Appendix G

Sample Standard Mail-Back Package

**Description:**

Plastic envelope with return label and instructional flyer.

Package Size:

Outer dimensions: 8.25" x 12"

Inner dimensions: 7.375" x 10.375"

MED-Project may choose to change its Vendor for Mail-Back Services at any time. Any proposed changes to Vendor will be submitted in writing to the Department and approved by the Department in writing prior to implementation of any change.

Sample Inhaler Mail-Back Package

Description:

Inhaler Mail-Back Package including container with mail-back packaging, return label, and instructional flyer.

Package Size:

Outer dimensions: 9"x 11.5"x 4.5"

Inhaler Mail-Back Services are an example of complete, turnkey systems to provide for the safe return of inhaler waste through Carrier.

MED-Project may choose to change its Vendor for Mail-Back Services at any time. Any proposed changes to Vendor will be submitted in writing to the Department and approved by the Department in writing prior to implementation of any change.

Check The Package

If there are any specific instructions on the label, package, or package insert, please follow those instructions. Do not flush any medication down the sink or toilet unless the information on the packaging specifically instructs you to do so.

Never place sharps in the trash or recycling, and never flush them down the toilet. Disposing of sharps in the trash or recycling may put trash and sewage workers, janitors, housekeepers, household members, and children at risk of being harmed.

To protect your privacy, patients are reminded to remove all personally identifiable information on medication labels or packaging before disposing of unwanted medicines.

Location Services

See descriptions of our services below.

Medicine Kiosks
Medicine Kiosks are installed at nearby locations such as pharmacies and law enforcement offices for residents to simply drop-off their expired or unwanted medicine for safe and free disposal.

Sharps Kiosks
Sharps Kiosks are installed at nearby locations such as pharmacies and law enforcement offices for residents to simply drop-off their expired or unwanted or unused sharps in an approved sharps container for safe and free disposal.

Medicine Kiosks (not MED-Project)
Medicine Kiosks, not administered by MED-Project, installed in your community for residents to drop-off their expired or unwanted medicine for safe and free disposal.

Note: not all services are available at each location. Visit the Find a Location page to find out what services are available at a specific collection site.

Mail-Back Services

MED-Project provides the following different types of Mail-Back Packages at no charge to residents.

Please complete the below form to request a pre-paid, pre-addressed mail-back package. Instructions for disposal will be provided with all mail-back services. Please submit separate forms for each type of mail-back package.

To protect your privacy, patients are reminded to remove all personally identifiable information on medication labels or packaging before disposing of unwanted medicine.

Mail-Back Services are available to residents who are home-bound or have a disability, and to persons providing services to such residents upon request.

Accepted Medicine

Accepted:
Medication in any dosage form, except for those identified as not accepted below, in their original container or sealed bag are accepted.

Not Accepted:

- Herbal remedies
- Vitamins
- Supplements
- Cosmetics
- Other personal care products
- Medical devices
- Batteries
- Mercury-containing thermometers
- Sharps
- Illicit drugs
- Inhalers

If transferring medications to a sealed bag, please be sure to recycle remaining packaging.
Do not place medicine in the trash or recycling, and never flush them down the toilet.

Please dispose of any items on the NOT ACCEPTED list at your local Hazardous Waste Facility. Call 1 (800) 606-6606 or visit [Household-HazWaste.org](#) for details.

Accepted Sharps

Accepted:
Sharps (such as hypodermic needles, pen needles, pre-loaded sharps, auto-injectors, intravenous needles, lancets and other devices used to penetrate the skin for drawing blood, or for the delivery of medications) contained in U.S. Food and Drug Administration-cleared sharps containers are accepted.

Not Accepted:

- Controlled substances
- unwanted medicines not contained in sharps
- loose sharps that are not contained in U.S. Food and Drug Administration-cleared sharps containers

Accepted Inhalers

Accepted:
Only place undamaged inhalers in their original containers in the Inhaler Mail-Back Package.

Not Accepted:

- Inhaler Mail-Back Packages can only be used for inhalers and cannot accept other types of items.

WHAT SHOULD YOU DO WITH YOUR EXPIRED OR UNWANTED MEDICINE?

MED-Project™
Medication Education & Disposal

**SAFELY
DISPOSE OF
EXPIRED OR UNWANTED
MEDICINE**

*There are a number of ways
to dispose of expired or
unwanted medicine.*

For more information about the
MED-Project program, visit
www.med-project.org or call
1 (844) MED-PROJECT or
1-844-633-7765 (TTY: 711).

What should you do
with your expired or
unwanted medicine?

Medicine helps treat diseases, manages chronic conditions, and improves health and well-being for millions of Americans. It is important that patients take their medicine as prescribed by their health care provider, and as indicated on the label or packaging. It is also important to be sure to store medicine securely to prevent accidental ingestion or misuse by others, especially children.

If you have expired or unwanted medicine, proper disposal is easy. To protect your privacy, patients are reminded to remove all personally identifiable information on medication labels or packaging before disposing of unwanted medicine.

This material has been provided for the purpose of compliance with legislation and does not necessarily reflect the views of MED-Project or the companies participating in the MED-Project Product Stewardship Plan.

Please dispose of any items on the NOT ACCEPTED list at your local Hazardous Waste Facility. Call 1 (800) 606-6606 or visit Household-HazWaste.org for details.

DISPOSAL OF HOUSEHOLD MEDICINE

1 CHECK THE PACKAGE

If there are specific instructions on the label, package or package insert, please follow those instructions.

2 CONVENIENT LOCATIONS

To find kiosk sites in your area, visit the Convenient Locations section of www.med-project.org.

3 MAIL-BACK

Mail-Back Services are available in your area. To order a Mail-Back package, visit the Mail-Back section of www.med-project.org.

What items can I dispose of at a kiosk?

ACCEPTED:

Medication in any dosage form, except for those identified as Not Accepted below, in their original container or sealed bag.

If transferring medication to a sealed bag, please be sure to recycle all remaining packaging.

NOT ACCEPTED:

Herbal remedies, vitamins, supplements, cosmetics, other personal care products, medical devices, batteries, mercury-containing thermometers, sharps, and illicit drugs.

DISPOSAL OF HOUSEHOLD MEDICINE

4 TAKE-BACK EVENTS

Local take-back events offer residents a free and convenient way to dispose of expired or unwanted medicine. Visit the Take-Back Events section of www.med-project.org for information on events in your area.

To protect your privacy, patients are reminded to remove all personally identifiable information on medication labels or packaging before disposing of unwanted medicine.
