## I. Introduction

MED-Project LLC (“MED-Project”), on behalf of the participating companies identified in Appendix A, submits this Product Stewardship Plan (“Plan”) to the Alameda County Department of Environmental Health (“Department”) in compliance with the Alameda County Safe Consumer-Generated Sharps Disposal Ordinance, Alameda County Code Chapter 6.54 (“Ordinance”). The Ordinance requires Producers<sup>1</sup> to develop a Product Stewardship Program to finance and manage the collection, transportation, treatment, and disposal of Consumer-Generated Sharps Waste within Alameda County (“Alameda County” or the “County”) including unincorporated areas.

The Program will accept Sharps regardless of who produced them or their compatibility with Producers’ Drugs, unless excused from this requirement by the Alameda County Department of Environmental Health. In the event another program operator is approved by the Department, MED-Project will evaluate short term and long-term Kiosk Drop-Off Site goals and outreach and educational programming to determine whether they need to be adjusted to be allocated with any other approved product stewardship program in a fair and reasonable manner.

---

<sup>1</sup> All capitalized terms used but not otherwise defined herein shall have their respective meanings set forth in the Ordinance.

## II. Contact Information

The primary contact person for MED-Project is:

Dr. Victoria Travis, PharmD, MS, MBA  
National Program Director  
MED-Project LLC  
4096 Piedmont Ave, Unit 174  
Oakland, CA 94611  
Phone: (833) 633-7765  
Fax: (866) 633-1812  
[alamedasharps@med-project.org](mailto:alamedasharps@med-project.org)

### III. Plan Definitions

**Board of Pharmacy** is the California State Board of Pharmacy

**Call Center** is the MED-Project call center for Residents, which can be reached by callers at the toll-free number of 1-844-MED-PROJECT or 1-844-633-7765.

**Carrier** is a carrier used to transport Sharps.

**Consumer** means any Person who uses Sharps outside a healthcare setting, or any Person who assists another person in using Sharps outside a healthcare setting. Consumer specifically includes any Person who uses Sharps to treat a pet or other animal.

**County** means Alameda County, California.

**DEA** is the U.S. Drug Enforcement Administration.

**DOT** is the U.S. Department of Transportation.

**FDA** is the U.S. Food and Drug Administration.

**HHW** is Household Hazardous Waste facilities.

**Kiosk Drop-Off Site** is a location that is accessible to the public, hosting a MED-Project kiosk for the collection of Consumer-Generated Sharps Waste.

**Kiosk Drop-Off Site Host** is the designated contact person or persons at the Kiosk Drop-Off Site.

**Law Enforcement Agency** or **LEA** is a federal, state, tribal, or local law enforcement office or agency.

**Mail-Back Services** is the provision of pre-paid, pre-addressed containers, envelopes, or packages ("**Mail-Back Packages**") to Residents for the collection and disposal of Sharps by Vendor.

**MED-Project Website** is the internet website located at [www.med-project.org/](http://www.med-project.org/) or [www.medproject.org](http://www.medproject.org).

**Plan** or **Product Stewardship Plan** is the product stewardship plan presented in this submittal by MED-Project.

**Program** or **Product Stewardship Program** is the product stewardship program set forth in this Plan.

**Residents** means human beings residing in the County of Alameda, California. "Residents" does not include business generators of sharps waste, such as hospitals, clinics, doctor's offices, veterinary clinics, pharmacies, or airport security and law enforcement drug seizures.

**Sharps Service Technicians** are personnel trained to service Program Kiosks and/or Take-Back Events and HHW facilities.

**Sharps** are defined in Section IV of this Plan.

**Sharps Container** is a rigid, puncture-resistant container meeting the standards of, and receiving clearance from, the United States Food and Drug Administration as a medical device used for the collection of discarded Sharps.

**Specified Languages** are English, Spanish, Chinese, Vietnamese, and Tagalog (Filipino).

**Take-Back Event** is a one-day event at a location accessible to the public, conducted by MED-Project, for the collection of Sharps from Residents.

**Unwanted Medicine** is defined in the approved MED-Project Product Stewardship Plan for Unwanted Medicine from Households.

**USPS** is the “United States Postal Service”.

**Vendor** is any vendor retained by MED-Project to carry out its obligations under the Program.

## IV. Sharps

Section 6.54.030 of the Ordinance defines Sharps as “devices with sharp points or edges that can cut or puncture the skin and includes needles, pen needles, syringes, lancets, auto-injectors, infusion sets, intravenous catheters, connection needles/sets, and other devices.” The Ordinance requires the collection of “Consumer-Generated Sharps Waste” which includes “Sharps that have been used by a Consumer outside a healthcare setting, such as in a home, at work, or while travelling.” § 6.54.030.

“Consumer” is defined as “any Person who uses Sharps outside a healthcare setting, or any Person who assists another person in using Sharps outside a healthcare setting.

“Consumer” specifically includes any Person who uses Sharps to treat a pet or other animal.” § 6.54.030.

## V. Collection of Consumer Generated Sharps Waste

The Plan provides services to collect Consumer-Generated Sharps Waste. The collection methods and applicable legal requirements are described below.

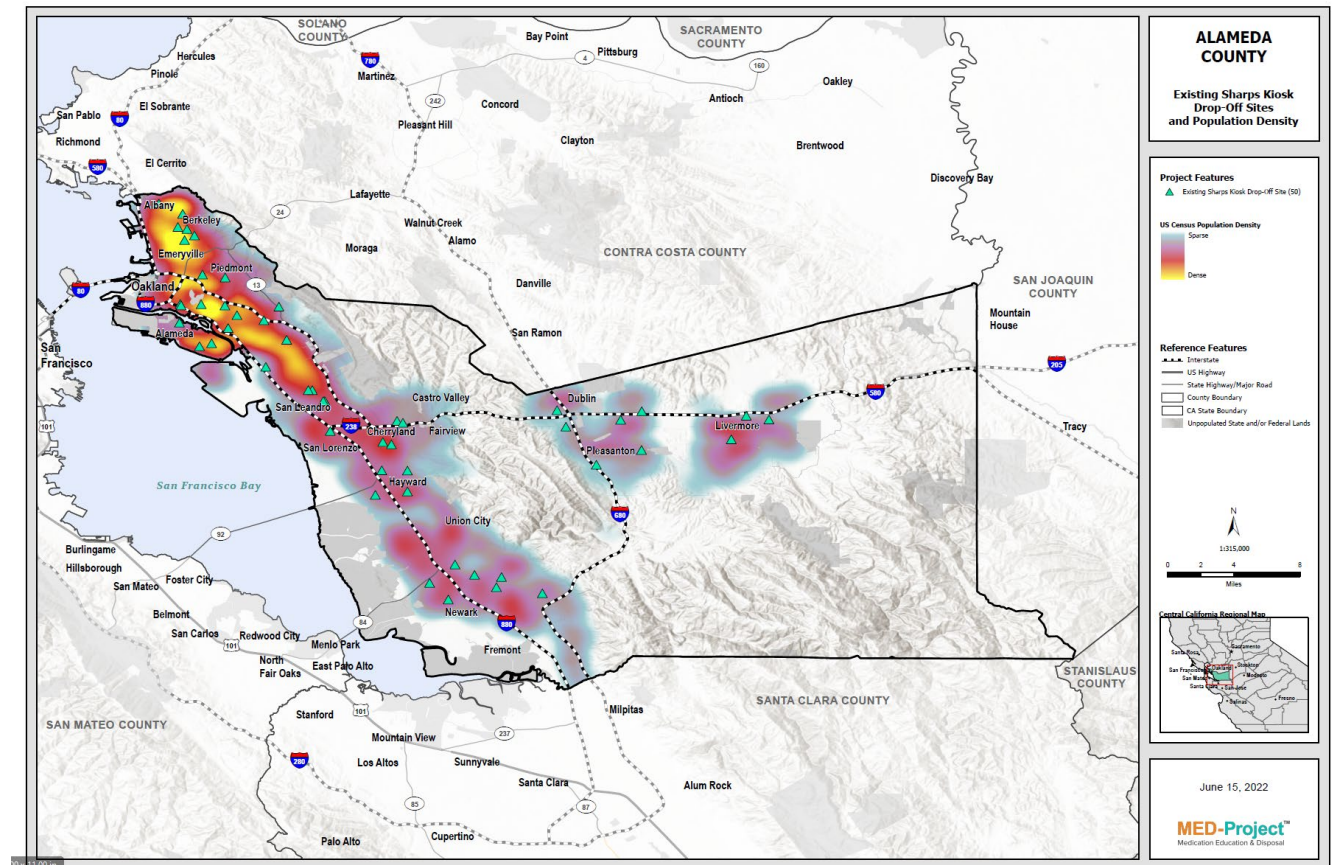

### A. Sharps Kiosk Collection Program

#### 1. Outreach

Per the Ordinance, pharmacies, LEAs, airports, Household Hazardous Waste facilities (“HHWs”), transfer stations, clinics, schools, and hospitals may serve as Kiosk Drop-Off Site Hosts to collect Sharps from Consumers. § 6.54.030.

MED-Project will continue to perform outreach to potential Kiosk Drop-Off Sites that have not yet expressed interest in participating in the Program until MED-Project has established multiple Kiosk Drop-Off Sites in each supervisorial district that are geographically distributed throughout the County to provide reasonably convenient and equitable access. MED-Project will notify all non-participating potential Kiosk Drop-Off Sites thereafter, on an annual basis. These sites are listed in [Appendix B](#).

A map of existing Kiosk Drop-Off Sites is below, as listed in [Appendix C](#).

MED-Project will work with interested Kiosk Drop-Off Site Hosts in the County when requested, to determine whether their participation would have a negative impact on the efficiency, safety, or scope of collection, see Ordinance § 6.54.080.A, and whether they comply with MED-Project's requirements. MED-Project's requirements for Kiosk Drop-Off Sites include, for example, that Kiosk Drop-Off Site Hosts:

- Use Vendor;
- Have a current and fully executed agreement in place with MED-Project.
- Post MED-Project kiosk signage with instructions regarding what items may and may not be dropped off in the kiosk;
- Use MED-Project kiosk(s); and
- Place kiosks in a safe and secure location inside of a building at the Kiosk Drop-Off Site in an area that is accessible to the public and regularly monitored by employees and/or where an employee is present.

These requirements are critical to ensuring that Sharps are collected, handled, transported, treated, and disposed of in a manner that protects the health and safety of workers and the public in accordance with the underlying objectives of the Ordinance. Participation in the Program is contingent on complying with all applicable local, state, and federal laws, regulations, and other legal requirements, in addition to MED-Project's requirements.

Once MED-Project has determined that a Kiosk Drop-Off Site Host is able to participate in the Program and the Kiosk Drop-Off Site Host agrees to abide by MED-Project's requirements, MED-Project will issue a contract to the Kiosk Drop-Off Site Host for signature. Once an agreement is executed with the Kiosk Drop-Off Site Host, MED-Project will accept the Kiosk Drop-Off Site into the Program.

## **2. Implementation**

MED-Project's initial implementation short-term goal was to establish a network of 39 Kiosk Drop-Off Sites within the first six months to a year of approval that ensured a minimum of 95% of Residents live within 5 miles of a Kiosk Drop-Off Site.

During the Program implementation MED-Project established 50 Kiosk Drop-Off Sites with 95% of Residents within a 5-mile drive, despite the limitations of the COVID pandemic closures.

MED-Project's current short-term goal in this Plan is to maintain the 50 kiosks and continue to send out opportunity to participate letters annually to increase the number to reach the long-term goal of 55 Kiosk Drop-Off sites.

MED-Project will continue to work to establish additional kiosks and will continue to accept any interested and eligible sites beyond the goal of 55 kiosks. MED-Project will continue to target highly populated areas and areas with limited kiosk placement so that the Program offers convenient collection for Residents that reflects the distribution of Residents throughout the County.

Interested Kiosk Drop-Off Site Hosts must sign an agreement with MED-Project to participate in the Program. Collection of Sharps begins at Kiosk Drop-Off Sites once agreements have been signed with each location. MED-Project works with Kiosk Drop-Off Site Hosts that have existing kiosks to transition to the Program, including the use of MED-Project's signage, kiosks, and Vendor for the handling, collection, transport, treatment, and disposal of Sharps.

Once the goal of 55 Kiosk Drop-Off Site locations has been met, MED-Project will evaluate Take-Back Events and HHW facilities to determine any needed changes in these services, and additional Kiosk Drop-Off Sites are to be installed to meet the objective of one per additional 60,000 residents.

If MED-Project should drop to less than two Kiosk Drop-Off sites per district, then Take-Back Events and collection at HHW facilities will be reimplemented. Mail-Back Services would still be available to all Residents.

The Program will include as a Sharps drop-off site any County Household Hazardous Waste (HHW) facilities operated by the County, willing to serve voluntarily, and able to meet all applicable laws, regulations, and other legal requirements. HHW locations may participate in the Program by executing an agreement with MED-Project. MED-Project will work with each HHW to transition to the Program and Vendor. Upon establishment of agreements with HHW facilities, MED-Project will also sign a collection agreement directly with Vendor to perform collection, transportation, treatment, and disposal services for Sharps collected at the HHW facilities.

MED-Project will accommodate the unique requirements of HHWs that wish to participate in the Program and will sign a collection site agreement with such HHWs accordingly. MED-Project will contract directly with the Vendor to collect and transport Sharps from the HHWs that participate in the Program.

## **B. Sharps Kiosk Drop-Off Sites**

### **1. Kiosk Drop-Off Site Locations**

In accordance with Ordinance § 6.54.050.O.i, MED-Project encourages Kiosk Drop-Off Sites to co-locate Sharps kiosks with existing MED-Project Unwanted Medicine kiosks for the convenience of Residents. MED-Project will not locate any Sharps or Unwanted Medicine kiosks behind the counter in a pharmacy.

MED-Project contracts with each eligible Kiosk Drop-Off Site location, as required under Ordinance § 6.54.080.B.4, and within 3 months of their offer to participate (unless the Kiosk Drop-Off Site Host requests a longer timeframe) the Program will include as a Kiosk Drop-Off Site any retail pharmacy or LEA willing to serve voluntarily as a Kiosk Drop-Off Site provided the site has an executed agreement with MED-Project. All Kiosk Drop-Off Sites participating in the Program must comply with MED-Project's requirements in addition to all local, state, and federal laws, regulations, and other legal requirements applicable to the Program and its operations. § 6.54.050.D. MED-Project

also accepts other potential collectors (*i.e.* HHWs, transfer stations, or public health clinics) that are willing to serve as drop-off sites if their addition would not negatively impact the scope, safety, or efficiency of the Program and if the sites are able to meet MED-Project's requirements such as a current and fully executed agreement and maintain compliance with all applicable local, state, and federal laws, regulations, and other legal requirements.

Under the California Medical Waste Management Act, home-generated Sharps may only be managed at certain facilities, including "home-generated sharps consolidation points," "medical waste generators," and facilities through Mail-Back Services. Ca. Health & Safety Code § 118286(b). All Sharps kiosk locations are required to ensure compliance with the California Medical Waste Management Act. See section XI.C.

MED-Project and Vendor works with participating sites to install and service kiosks and transport, treat, and dispose of collected Sharps per the processes described in this section. MED-Project will pay all administrative and operational costs related to the Program unless specifically excluded by the Ordinance. In addition, administrative and operational costs related to the Program include but are not limited to those listed in the Ordinance § 6.54.110.B.

## **2. Kiosk Placement and Maintenance Program**

Kiosk installation is the responsibility of MED-Project at Kiosk Drop-Off Sites once the Kiosk Drop-Off Site Host has an executed agreement with MED-Project and has identified a placement location for a MED-Project kiosk. All kiosks in the Program are securely placed and maintained at a Kiosk Drop-Off Site in a public location to provide a secure collection point for Sharps. At pharmacies, kiosks are placed inside the physical location in an area where an employee is present (*i.e.*, an area that is visible from the counter) but not behind the counter. At a hospital or clinic with an on-site pharmacy, kiosks are placed inside the physical location in an area regularly monitored by employees but not near areas of the facility where urgent or emergency care is provided. MED-Project places Sharps kiosks next to Unwanted Medicine kiosks where possible. For safety and security reasons, MED-Project requires that Sharps kiosks follow many of the same protocols as Unwanted Medicine kiosks.

The maintenance program addresses items such as:

- Periodic inspection of kiosks to monitor general wear and tear;
- Sharps Service Technician access to kiosks during regularly scheduled pick-ups and notification of a sharp's maintenance technician if necessary; and,
- Reporting by Kiosk Drop-Off Site Host of damage to a kiosk or requested maintenance service.

## **3. Kiosk Specifications**

A red kiosk for the disposal of Sharps is offered to all eligible locations.

All kiosks are specifically designed to receive Sharps in an approved and appropriate container. The containers may have size restrictions to ensure that they can be safely disposed of in the kiosk.

Sharps kiosks may include:

- Disposable containers with secure, leak-proof closures;
- ADA compliant handles;
- Lockable chute doors with anti-tamper protection;
- Tamper-resistant container closures;
- Fasteners to affix the kiosk to the wall, floor or another permanent surface;
- Sloped tops to prevent accumulation; and
- Heavy gauge steel.

#### **4. Kiosk Collection**

Pick-ups of Sharps collected at Kiosk Drop-Off Sites are scheduled for all Kiosk Drop-Off Sites year-round based on regular business hours and volume collected. MED-Project communicates with the Kiosk Drop-Off Site if the frequency of pick-up needs to be changed based on the volumes collected over time. Pick-ups are routinely adjusted, if needed, to better serve each Kiosk Drop-Off Site. Vendor monitors the volumes per service to ensure that all sites are receiving the appropriate service frequency. Vendor manages services as frequently as necessary to prevent overflow of the kiosk without providing unnecessary interruption to the participating Kiosk Drop-Off Site. Moreover, Vendor monitors the volume of the Sharps collected at each participating Kiosk Drop-Off Site.

Each kiosk container is assigned a unique identifying number in Vendor's database that is used to track the Sharps Containers as they are collected, transported, treated, and disposed of.

Upon pick up, the Sharps Service Technician will perform the following tasks:

- Inspect the kiosk as part of routine service;
- Unlock the kiosk and remove the container;
- Inspect the container;
- Package the container for transportation;
- Scan the unique identifier on the label of the container;
- Complete and sign the shipping paper documents;
- Weigh the collected Sharps and record the weight; (Upon receipt at transfer facility.)
- Place and secure the packages in a truck for transportation to the transfer facility; and
- Place a new disposable or reusable container into the kiosk and lock the kiosk.

## **5. Treatment and Disposal of Kiosk Contents**

Vendor manages the disposal of Sharps from Kiosk Drop-Off Sites in compliance with all applicable laws, regulations, and other legal requirements. Upon collection from a Kiosk Drop-Off Site, Vendor transports the Sharps to a transfer facility, for subsequent transport to an autoclave facility for treatment<sup>2</sup> before disposal of the treated waste in a solid waste landfill (see section IX.D). The container full of Sharps waste is tracked from collection to disposal through the unique identifier.

## **6. Procedures if a Kiosk is Full Prior to Scheduled Pick-Up**

If the kiosk is full prior to the scheduled pick-up, the Kiosk Drop-Off Site Host notifies MED-Project of the need for service. MED-Project will communicate this request to Vendor. Vendor directs service to a trained Sharps Service Technician who is in closest proximity to the Kiosk Drop-Off Site Host requesting the service. This process provides for a timely response to Kiosk Drop-Off Sites requiring service prior to the scheduled date.

Service timelines are assessed based on the specific characteristics of the Kiosk Drop-Off Site's needs. If necessary, Vendor is able to respond within hours of the request. If the request does not require an urgent response, Vendor will plan the response within 2 to 3 business days of the request. Vendor will not exceed one business week from the initial request before responding.

## **7. Rapid Response**

An unplanned event may necessitate a service at a Kiosk Drop-Off Site. A major event, such as a flood, earthquake, or fire, may jeopardize the security characteristics of the kiosk as well as the structural integrity of the Kiosk Drop-Off Site. Such events may require the involvement of law enforcement, fire, or other emergency service personnel. Kiosk Drop-Off Site employees will be directed to call 911 in situations posing an immediate threat to the environment or health. Once the area is safe for access, if needed, Vendor will dispatch Rapid Responders to secure the kiosk and remove its contents independent of law enforcement availability.

Vendor provides service for Rapid Response that can be contacted in the case of an incident or other event requiring a Rapid Response. Vendor is able to respond within two to three hours in most cases when notified of a need for a Rapid Response. Rapid Responders will bring all necessary equipment to manage the specific needs of the Kiosk Drop-Off Site requiring a Rapid Response.

---

<sup>2</sup> Autoclaving for treatment was approved in the MED-Project: A Product Stewardship Plan for Sharps from Households Alameda County California, dated January 31, 2018, as amended on March 26, 2018; approved by the Department on March 26, 2018.

Along with major event preparedness, Vendor provides timely responses to events that may cause an inconvenience to the Kiosk Drop-Off Site. In situations requiring Rapid Response that do not require the involvement of rapid response personnel, the Kiosk Drop-Off Site Host will place a service request through the Help Desk. If the request does not require a Rapid Response, Vendor will typically respond within two to three business days of the event.

## **C. Sharps Mail-Back Services**

Currently MED-Project offers Mail-Back Services for Sharps, free of charge, to disabled and homebound Residents. Once the long-term goal of 55 Kiosk Drop-Off Site locations have been installed, MED-Project will transition away from the limited time services of Take Back Events and HHW facilities to provide widespread Mail-Back Package services to anyone via the MED Project Website and Call Center access to 365 days, 7 days a week.

Mail-Back Packages are pre-paid and pre-addressed, and Mail-Back Services comply with all applicable local, state, and federal laws, regulations, and other legal requirements. Residents can request Mail-Back Packages through the MED-Project Website and Call Center.

### **1. Sharps Mail-Back Package Specifications**

A red FDA-cleared Sharps Container and a pre-paid, pre-addressed Mail-Back Package for returning the Sharps Container is available for disabled or homebound Residents via MED-Project's Website and Call Center. An instruction sheet describing how to properly dispose of Sharps that explains what materials may and may not be placed in a Sharps Container, how to use the Sharps Container, and how to return the Mail-Back Package, is included with the Mail-Back Package.

See [Appendix D](#) for a sample Mail-Back Package and package specifications.

### **2. Mail-Back Package Availability**

Currently disabled or homebound Residents, or any other Resident may request Mail-Back Packages by calling the Call Center or through a link on the MED-Project Website.

Home healthcare professionals providing services to disabled or homebound Residents may also request Mail-Back Packages on behalf of a Resident through the Call Center or through a link on the MED-Project Website. Upon such a request, Mail-Back Packages complying with all applicable requirements are sent to qualifying Residents.

Each Mail-Back Package contains an insert with instructions for use and information about other options for disposing of Sharps in the Specified Languages. Each Mail-Back package is assigned a unique identifier that is used to track the distribution, return shipment, and treatment of the Mail-Back Package.

### **3. Mail-Back Package Collection, Treatment, and Disposal**

Requests for Mail-Back Packages are received through the Call Center and the MED-Project Website. Residents are directed to follow the instructions provided in the Mail-Back Package and to place their Sharps in the pre-addressed/pre-paid package. The USPS estimates up to three business days for delivery of First-Class Mail.

Mail-back Packages are sent to a treatment facility listed in section IX.D. Upon arriving at a treatment facility, the Mail-Back Packages are scanned for receipt verification. Sharps returned in Mail-Back Packages are sterilized using high-heat sterilization at an autoclave facility. Treated Sharps waste is disposed of at a facility listed in IX.D.

## **D. Take-Back Events**

Once the goal of 55 Kiosk Drop-Off Site locations have been installed, MED-Project will evaluate Take-Back Events and HHW facilities to determine any needed changes in these services.

In general, MED-Project works to conduct the Take-Back Events in coordination with other scheduled events (i.e., Earth Day celebrations, Health and Wellness Fairs) to maximize convenience to Residents.

Due to the continuously changing schedule of Take-Back Events, the list of Take-Back Event dates and locations is maintained on the MED-Project Website as events are confirmed. MED-Project attempts to hold Sharps Take-Back Events in conjunction with HHW Take-Back Events to maximize convenience and participation of Residents.

### **1. Procedures**

Take-Back Events are typically staffed by at least two Vendor employees. Vendor works in coordination with MED-Project to ensure collection of all material at Take-Back Events is compliant with all applicable local, state, and federal laws, regulations, and other legal requirements and meets the expectations of the planned event. Vendor works in conjunction with MED-Project to ensure all Sharps are placed in compliant collection receptacles and are securely transported in accordance with all applicable laws, regulations, and other legal requirements applying to the collection and transportation of Sharps. Sharps that are not appropriately contained in a Sharps Container or do not otherwise meet legal requirements are rejected.

Events are promoted and communicated to the public through local communication channels as outlined in [Appendix H](#).

### **2. Treatment and Disposal**

Vendor manages the treatment and disposal of Sharps from Take-Back Events in compliance with all applicable local, state, and federal laws, regulations, and other legal requirements. Upon collection at a Take-Back Event, Vendor transports the Sharps to a transfer facility, with subsequent transport to an autoclave facility for treatment (see sections IX.B) before disposal in a solid waste landfill (see section IX.D).

### **3. Fees and Costs**

MED-Project pays all administrative and operational costs and fees associated with the Take-Back Events.

## **VI. Patient Privacy**

All MED-Project promotional and educational materials encourage Residents to protect their personal information by ensuring that identifiable information is not present before depositing Sharps Containers into kiosks or Sharps into Mail-Back Packages. Examples of MED-Project brochures, signage, and website materials are available in Appendix E and Appendix F.

Vendor has additional protections available for keeping personally identifiable information safe and secure. Sharp Service Technicians are trained to manage items containing sensitive patient information. Privacy training is part of a Service Technician's prerequisite for field services. Containers in the kiosk will be solid red or another solid color, and therefore, no personally identifiable information will be visible through the container. This prevents anyone, including the Sharps Service Technician, from seeing any information on the Sharps Containers placed in the kiosks.

## VII. Call Center

MED-Project has established a toll-free telephone number for Residents to obtain information about Kiosk Drop-Off Sites, Mail-Back Services, educational materials, and other aspects of the Program. Callers with medical emergencies are directed to call 911. Patients with medication-related questions are directed to contact their health care provider(s).

The Call Center provides information about:

- Items that can be disposed of;
- Disposal options;
- Kiosk Drop-Off Sites and disposal options in the caller's specified zip code;
- The MED-Project Website; and
- How to obtain Mail-Back Packages.

To increase access to the Program for Residents, MED-Project has included dialing options for TTY and 711 services.

A sample Call Center Interactive Voice Recognition (IVR) flow is included in [Appendix J.](#)

## VIII. Training

Operational procedures, including training, are the responsibility of the Kiosk Drop-Off Site Host. Vendor provides an orientation and training for participating Kiosk Drop-Off Sites. During installation, MED-Project provides training materials to the site on kiosk usage, provide support contact information, and provide examples of documentation to hold onsite. Additionally, MED-Project will provide sample procedures as a reference and manage a support hotline to answer questions and monitor comments from participating Kiosk Drop-Off Sites Hosts. The sample procedures include a template to log when keys are used to access the kiosk.

Vendor will comply with all applicable local, state, and federal laws, regulations, and other legal requirements with respect to annual employee training. The Sharp Service Technicians collecting and transporting Sharps are required by Vendor to complete comprehensive training that includes instruction on:

- DOT Hazardous Materials Regulations (“HMR”);
- Health Insurance Portability and Accountability Act (“HIPAA”);
- Occupational Safety and Health Administration’s (“OSHA”) Bloodborne Pathogens Standard;
- OSHA’s Hazard Communication Standard; and
- OSHA’s Hazardous Waste Operations and Emergency Response Standard.

At a Kiosk Drop-Off Site, operational procedures, including annual training, are the responsibility of the Kiosk Drop-Off Site Host. MED-Project provides a Help Desk to answer questions and monitor comments for participating Kiosk Drop-Off Sites.

## IX. Vendor, Transporter, Transfer, Treatment Facility and Disposal Facility Information

### A. Vendor

## **X. Sharps Educational and Outreach Programming**

### **A. Overview**

MED-Project will perform public education and outreach to educate Residents about the collection and disposal of Sharps from households.

### **B. Audiences**

To effectively educate the public about the Program, MED-Project will continue to implement a comprehensive communications campaign featuring both broad communications tactics as well as targeted outreach to audiences directly involved in the distribution and use of Sharps to Residents. These audiences may include:

- General public.
- Pharmacies, including education for dispensers of Sharps.
- Retailers of sharps and medications injected outside a healthcare setting
- Health care providers and their patients.
- Veterinary providers and animal owners.
- Public health facilities; and/or
- LEAs.

The Program will include efforts to reach the varied cultural, linguistic, geographic, and age demographics, including through outreach to ethnic, community, and alternate-language media; outreach to community organizations serving a broad range of audiences; availability of alternate language phone lines and availability of educational information through a broad range of media platforms.

Survey results will be utilized in order to inform improvements to the design of the outreach program and educational materials where necessary.

### **C. Messages**

MED-Project anticipates that messaging will:

- Educate Residents about the appropriate use, storage of Sharps,
- Educate Residents about available Mail-Back Services; and
- Provide Residents with information about available locations and events in their area that offer disposal of their Sharps,

Key points of emphasis might include:

- The importance of taking medicines as prescribed by your health care provider.
- The importance of adhering to and completing your provider-prescribed therapy.
- The importance of properly and securely storing Sharps;
- The importance of promptly and properly disposing of Sharps;
- How to find and use Kiosk Drop-Off Sites.
- How to properly dispose of Sharps; and
- Privacy issues (removing personally identifiable information).

## D. Tools/Communications Channels

The MED-Project Program will include a number of components designed to reach Consumers and provide consistent access to timely and relevant information.

Distribution of materials will likely include audiences such as LEAs, retail pharmacies, health care providers and systems, health associations, local government agencies, and other community organizations.

MED-Project will continue to design and execute a measurable public education and outreach strategy aimed at driving awareness of take-back and in line with the MED-Project Sharps outreach and education Program. MED-Project will evaluate, and plan media tactics based on the needs of the campaign and media usage within the target audience, and these may include a combination of digital media campaigns, print ads, out-of-home ads, digital video, and traditional broadcast media based on budget. The quantity and frequency will be confirmed as activities are completed.

MED-Project expects that the tools and communication channels will include:

### 1. Phone

The Program will provide a toll-free telephone number for Residents to obtain information about Kiosk Drop-Off Sites, Take-Back Events, Mail-Back Services, educational materials, and other aspects of the Program for Sharps. This toll-free number will provide:

- A Call Center in the Specified Languages. The telephone line will also provide an option for callers to be transferred to a staffed Call Center. Live operators will be available in English and Spanish. If a caller requires assistance in Chinese, Vietnamese or Tagalog, an operator will be available to provide additional assistance. Operators providing services in over 200 languages are available 24 hours a day, seven days a week.
- Basic information about the Program, such as where to obtain more information (e.g., the MED-Project Website) and an option to talk with an agent to find or utilize Kiosk Drop-Off Sites, Mail-Back Services, and/or Take-Back Events, if applicable, in the caller's zip code or local area.
- A recorded call script directing callers with medical emergencies to call 911 and directing callers with medication-related questions to contact their health care provider(s).

Please see [Appendix J](#) for the Call Center IVR flow.

### 2. MED-Project Website

MED-Project will update the mobile-friendly MED-Project Website with translations in the Specified Languages. MED-Project expects information available to users will include pages to help Residents find locations of Kiosk Drop-Off Sites, Mail-Back Services, as well as educational materials, frequently asked questions and responses, and Take-Back Event dates and locations.

- The Plan currently includes a mockup of the types of information a MED-Project Website and its supporting pages might contain. [Appendix F](#) provides proof of concept samples for a possible MED-Project Website with subpages.
- The MED-Project Website may also include access to a public relations toolkit in a printable format and contact information for Residents. A toolkit could include items such as a flyer/brochure (See [Appendix F](#)) for an example) and a frequently asked questions (FAQ) document. Translations of the brochure and FAQ will be available in the Specified Languages.
- Community and government organizations and other public interest groups seeking materials to promote the Program will be encouraged to access these resources.

### **3. Materials**

Educational materials about the Program and how to properly dispose of Sharps will be available through the MED-Project Website, through potential third-party partners, community organizations, and at Kiosk Drop-Off Sites. MED-Project will make materials covering the proper disposal of Sharps available through the Help Desk and the MED-Project Website to local governments.

### **4. Social Media**

The Plan includes the information and educational brochure ([Appendix F](#)). Educational materials will use plain language and explanatory images to promote Consumer education and collection options to Residents with limited English proficiency. Educational materials will be made available in Specified Languages.

MED-Project has established social media accounts to communicate outreach information. Outreach is based on the establishment of Kiosk Drop-Off Sites, Mail-Back Services, and the scheduling of Take-Back Events. Posts will be utilized as needed to reflect the most up-to-date information.

### **5. Broadcast Outreach**

Outreach through local print, online, radio, and television outlets, including through outlets specifically targeting the diverse demographic communities within the County, will continue upon Plan approval. Please see [Appendix H](#) for a media list of key outlets. Broadcast outreach will be scheduled to reflect the learnings and needs of the campaign based on the biennial survey outcomes and budget.

## **E. Collaboration with County Officials and Community Organizations**

MED-Project expects that the Program will work in collaboration with the County as appropriate to build on existing community outreach resources, such as local organizations, media lists, available public media outlets, etc. Activities like the following will continue upon Plan approval:

- *Briefing Materials Provided to Support Coordination with County Officials:*

- The Program will provide access to updated educational and outreach materials, including the brochure (see Appendix F), to relevant departments and officials.
- *Outreach through Community Organizations:*
  - The Program will engage relevant stakeholders and community organizations by providing selected community organizations identified in Appendix I with the updated brochure included in Appendix F.

## **F. Effectiveness**

MED-Project will conduct a biennial survey of Residents and pharmacists, veterinarians, and health professionals in the County who interact with patients to measure awareness of the take-back of Sharps from households and to evaluate the effectiveness of its education and outreach activities. The survey will be conducted in conjunction with the biennial survey conducted under MED-Project's stewardship program for the collection of Unwanted Medicine from households.

## **G. Disclaimer**

The written and verbal educational materials and public outreach tools that are required by the Ordinance and disseminated under this Product Stewardship Plan will include a disclaimer similar to the following: "This material has been provided for the purpose of compliance with legislation and does not necessarily reflect the views of MED-Project or the Producers participating in the MED-Project Product Stewardship Plan."

## **XI. Compliance with Applicable Federal, State, and Local Legal Requirements**

The Ordinance requires that a Product Stewardship Plan describe how all entities participating in the Plan will “comply with all local, state, and federal laws and regulations applicable to its operations, including laws and regulations governing the treatment and disposal of Unwanted Products.” § 6.54.090.A. As described in more detail below, the Plan is designed such that all entities participating in the Plan shall comply with the laws and regulations listed below and all other applicable federal, state, and local laws, rules, and other legal requirements.

### **A. United States Department of Transportation (USDOT)**

When transporting Sharps, Vendor will ensure compliance with the DOT HMR. Shipments of Sharps will comply with applicable shipping papers, packaging, placarding, and other DOT HMR requirements associated with shipment by ground.

### **B. California Board of Pharmacy**

In the event that the California Board of Pharmacy promulgates rules regarding the collection of Sharps, MED-Project will submit an update to this Plan.

### **C. California Medical Waste Management Act**

California comprehensively regulates the transportation, storage, treatment, and disposal of Sharps under the Medical Waste Management Act, Ca. Health & Safety Code § 117600 *et seq.* Many of these requirements apply to “home-generated sharps waste,” meaning “[h]ypodermic needles, pen needles, intravenous needles, lancets, and other devices that are used to penetrate the skin for the delivery of medications derived from a household, including a multifamily residence or household.” § 117671. Among other requirements, the Medical Waste Management Act requires that home-generated Sharps shall “be transported only in a sharps container, or other containers approved by the enforcement agency . . .” § 118286(b). These home-generated Sharps may only be managed at certain facilities, including but not limited to a “home-generated sharps consolidation point[s]” or facilities through mail-back services. *See id.* The Medical Waste Management Act also requires specific “treatment” methods for Sharps to render them non-infectious before disposal. *See* CMWMA § 118225(a) (requiring treatment by incineration, steam sterilization, or another approved method).

## **XII. Annual Report**

MED-Project will submit a report annually to the Department describing Program activities during the previous reporting period. Ordinance § 6.54.120.A. The report will include the following:

- A list of producers participating in the Plan;
- The amount by weight of Sharps collected, including the amount by weight from each collection method used, including Kiosk Drop-Off Sites, Take-Back Events, and Mail-Back Services;
- The weight of Sharps collected, number of pickups, and the number of containers (if applicable), for each Kiosk Drop-Off Site;
- A list of Kiosk Drop-Off Sites;
- The number of mail-back packages provided to Residents, and how many were returned during the reporting period;
- The dates and locations of Take-Back Events held, if applicable, and the quantities by weight returned at those events;
- The transporters used and the disposal facility or facilities used for all Sharps;
- A statement of whether any safety or security problems occurred during collection, transportation, or disposal of Sharps and, if so, what changes have or will be made to alleviate these problems and improve safety and security;
- A description of public education, outreach, and evaluation of activities implemented;
- A summary of the Product Stewardship Plan's goals, the degree of success in meeting those goals in the past year, and, if any goals have not been met, what effort will be made to achieve the goals in the next year; and
- The total expenditures of the Product Stewardship Plan during the reporting period.

## **Appendix A**

### **MED-Project Participants**

The list of participating Producers in MED-Project's Program in the County is provided to the County on a periodic basis to satisfy Ordinance requirements.

## Appendix B

## Appendix D

### Sample Sharps Mail-Back Package

**Description:**

Mail-Back Packages include an FDA-cleared Sharps Container with mail-back packaging, return label, instructional flyer, and unique identifier enabling tracking from collection through final disposal.

**Package Sizes:**

1.4-quart mail-back system

Mail-Back Services are an example of complete, turnkey systems to provide for the safe return of Sharps via USPS.

MED-Project may choose to change its Vendor for Mail-Back Services at any time, subject to requirements in the Ordinance.

## Appendix E

## Sample Kiosk Drawer Signage

**ACCEPTED:** Sharps (such as hypodermic needles, pen needles, pre-loaded sharps, auto injectors, intravenous needles, lancets and other devices used to penetrate the skin for drawing blood, or for the delivery of medications) contained in U.S. Food and Drug Administration-cleared sharps containers.\*

**NOT ACCEPTED:** Controlled substances, unwanted medicines not contained in sharps, and loose sharps that are not contained in U.S. Food and Drug Administration-cleared sharps containers.

\*All sharps disposal containers should be made of heavy-duty plastic; able to close with a tight-fitting, puncture-resistant lid without sharps being able to come out; upright and stable during use; leak-resistant; and properly labeled as "sharps waste" or with the biohazard symbol and the word "BIOHAZARD" to warn of hazardous materials inside the containers.

## Alameda County, CA – Medicine/Sharps Disposal Program

[Get Started](#)

#### What should you do with your expired or unwanted medicines or sharps?

Medicines help treat diseases, manage chronic conditions, and improve health and well-being for millions of Americans. It is important that patients take their medicines as prescribed by their health care provider. However, if you have expired or unwanted **medicines** or **sharps**, proper disposal is important and easy.

Check The Package

If there are any specific instructions on the label, package, or package insert, please follow those instructions. Do not flush any medication down the sink or toilet unless the information on the packaging specifically instructs you to do so.

Never place sharps in the trash or recycling, and never flush them down the toilet. Disposing of sharps in the trash or recycling may put trash and sewage workers, janitors, housekeepers, household members, and children at risk of being harmed.

To protect your privacy, patients are reminded to remove all personally identifiable information on medication labels or packaging before disposing of unwanted medicines.

Accepted Medicine

**Accepted:**

Medication in any dosage form, except for those identified as not accepted below, in their original container or sealed bag are accepted.

**Not Accepted:**

- Herbal remedies
- Vitamins
- Supplements
- Cosmetics
- Other personal care products
- Medical devices
- Batteries
- Mercury-containing thermometers
- Sharps
- Illicit drugs
- Inhalers

If transferring medications to a sealed bag, please be sure to recycle remaining packaging.

Do not place medicine in the trash or recycling, and never flush them down the toilet.

Please dispose of any items on the NOT ACCEPTED list at your local Hazardous Waste Facility. Call 1 (800) 606-6606 or visit [Household-HazWaste.org](#) for details.

Accepted Sharps

**Accepted:**

Sharps (such as hypodermic needles, pen needles, pre-loaded sharps, auto-injectors, intravenous needles, lancets and other devices used to penetrate the skin for drawing blood, or for the delivery of medications) contained in U.S. Food and Drug Administration-cleared sharps containers are accepted.

**Not Accepted:**

- Controlled substances
- unwanted medicines not contained in sharps
- loose sharps that are not contained in U.S. Food and Drug Administration-cleared sharps containers

Accepted Inhalers

**Accepted:**

Only place undamaged inhalers in their original containers in the Inhaler Mail-Back Package.

**Not Accepted:**

- Inhaler Mail-Back Packages can only be used for inhalers and cannot accept other types of items.

### Outreach and Education

**Part of MED-Project's mission is to reach out to the local community and educate residents about proper disposal of household unwanted medicine and sharps.**

Medicines help treat diseases, manage chronic conditions, and improve health and well-being for millions of Americans. It is important that patients take their medicines as prescribed by their health care provider and as indicated on the label or packaging. It is also important to be sure to store medicines and sharps securely to prevent accidental ingestion or misuse by others, especially children.

There are a number of ways to dispose of expired or unwanted medicines or sharps. To protect your privacy, patients are reminded to remove all personally identifiable information on medication labels or packaging before disposing of unwanted medicines.

For additional information on the program, MED-Project has developed an educational toolkit which includes the materials below.

## DISPOSAL OF HOUSEHOLD SHARPS

### 1 CHECK THE PACKAGE

If there are specific instructions on the label, package or package insert, please follow those instructions.

Never place sharps in the trash or recycling, and never flush them down the toilet. Disposing of sharps in the trash or recycling may put trash and sewage workers, janitors, housekeepers, household members, and children at risk of being harmed.

### 2 CONVENIENT LOCATIONS

To find kiosk sites in your area, visit the Convenient Locations section of [www.med-project.org](http://www.med-project.org).

### 3 MAIL-BACK

Mail-Back Services are available in your area. To order a Mail-Back package, visit the Mail-Back section of [www.med-project.org](http://www.med-project.org).

### 4 TAKE-BACK EVENTS

Local take-back events offer residents a free and convenient way to dispose of sharps. For information on events in your area, visit the Take-Back Events section of [www.med-project.org](http://www.med-project.org).

## DISPOSAL OF HOUSEHOLD SHARPS

Sharps can be dangerous to people and pets if not disposed of safely. Sharps can cause injuries and/or spread infections that cause serious health conditions. These infections may include: Hepatitis B (HBV), Hepatitis C (HCV), and Human Immunodeficiency Virus (HIV).

Safe sharps disposal is important whether you are at home, at work, at school, traveling, or in other public places such as hotels, parks, and restaurants. Pet owners who use needles to give medicine to their pets should follow the same sharps disposal guidelines used for humans.

### SHARPS DISPOSAL CONTAINERS

All sharps disposal containers should be made of heavy-duty plastic; able to close with a tight-fitting, puncture resistant lid without sharps being able to come out; upright and stable during use; leak-resistant; and properly labeled as "sharps waste" or with the biohazard symbol and the word "BIOHAZARD" to warn of hazardous materials inside the container.

Place all sharps in a sharps disposal container immediately after they have been used. This will reduce the risk of needle sticks, cuts, and punctures from sharps. Sharps disposal containers should be kept out of reach of children and pets.

### DO NOT REUSE SHARPS DISPOSAL CONTAINERS

This material has been provided for the purpose of compliance with legislation and does not necessarily reflect the views of MED-Project or the companies participating in the MED-Project Product Stewardship Plan.

## Clean Harbors Aragonite, LLC Penalty Record

### Facility Summary

CLEAN HARBORS ARAGONITE LLC

11600 NORTH APTUS ROAD, GRANTSVILLE, UT 84029

FRS ID: 110000906985

EPA Region: 08

Latitude: 40.7344

Longitude: -112.9681

Locational Data Source: E-PLAN

Industries: Professional, Scientific, and Technical Services

Indian Country: N
