Media Outreach Summary	79

I. Executive Summary

Regulations Sec. 15.C.i. *"The purpose of the Executive Summary is to provide a broad understanding of the Plan as a whole and content for the data and information that will follow. This Summary should include a brief description of collection and disposal efforts during the reporting period. The executive summary should also include a description of proposals to improve collection efforts and challenges encountered during the reporting period, and how they will be addressed. (Security issues must be addressed separately as set forth below.)"*

MED-Project LLC ("MED-Project") operates a Product Stewardship Plan for Unwanted Medicine from Households ("Plan") in the County of Alameda ("Jurisdiction") under the Alameda County General Ordinance Code, Chapter 6.53, the Alameda County Safe Drug Disposal Ordinance ("Ordinance") and the Alameda County Safe Drug Disposal Regulations ("Regulations"). This 2020 County of Alameda Annual Report ("Report") describes the activities of MED-Project between January 1, 2020, and December 31, 2020 ("Reporting Period") in compliance with Ordinance Section 6.53.080. All capitalized terminology not defined in this Report is derived from the approved Plan dated February 15, 2019 and amended March 27, 2019.

A notice of temporary closure of a disposal facility was sent on October 4, 2019, informing the Jurisdiction of the alternative disposal facilities to be used during the facility's maintenance closure. On February 29, 2020, MED-Project sent notice of the resumption of operations at the disposal facility and that MED-Project was again disposing of Unwanted Medicine at the disposal facility. MED-Project sent to the Jurisdiction an initial COVID-19 response notification on March 17, 2020, and a second COVID-19 response notification with additional information on March 26, 2020. On April 15, 2020, MED-Project provided a third COVID-19 response notification, including then-current information on restricted access to sites. On July 16, 2020 MED-Project provided a fourth COVID-19 response notification, including then-current information on restricted access to sites. On November 13, 2020, MED-Project submitted a fifth COVID-19 response notification, which indicated that only nine sites in the Jurisdiction remained restricted. See Table 2; Kiosk and Drop-Off Site Locations for all sites that were restricted during the Reporting Period.

During 2020, priority was given to performing outreach to eligible pharmacies and Law Enforcement Agencies ("LEAs") throughout the Jurisdiction and establishing Kiosk Drop-Off Sites throughout the Jurisdiction. Partially as a result of these efforts, MED-Project's Program collected and disposed of "Unwanted Medicine" (as defined in Plan Section IV) from 78 Kiosk Drop-Off Sites (84 kiosks), one Take-Back Event, and through Mail-Back Services.

Kiosks were installed in pharmacies and hospitals/clinics with an onsite pharmacy that met all local, state, and federal requirements and that executed agreements with MED-Project. In addition, outreach and educational materials, including signage and/or brochures, were distributed to all newly activated Kiosk Drop-Off Sites.

MED-Project provided disposal instructions for Kiosk Drop-Off Sites, Take-Back Events, and Mail-Back Services to Residents and continues to communicate with Kiosk Drop-Off Site Hosts to distribute outreach materials upon request, review procedures as needed, and improve overall Program design.

As outlined in the approved Plan, the ultimate goal of the Program is to provide Residents of the Jurisdiction with convenient, safe, and accessible methods to dispose of Unwanted Medicine. MED-Project anticipates an increase in Kiosk Drop-Off Sites throughout 2021 as a result of ongoing

outreach and Program activities, especially if there is increased retail chain pharmacy participation in the Program.

The following Sections of the Report respond to specific reporting requirements in Ordinance Section 6.53.080 and Regulations Section 15. Each Section of the Report restates the corresponding Ordinance and Regulations requirement and provides the required information.

II. Participating Producers

Ordinance Sec. 6.53.080.A.1: *"A list of Producers participating in the Product Stewardship Program."*

Regulations Sec. 15.D.i: *"All Producers participating in the Plan."*

See Appendix A; List of Participating Producers.

III. Collection Method and Weight

Ordinance Sec. 6.53.080.A.2: *"The amount, by weight, of Unwanted Products collected from Residential Generators collected at each drop-off site and in the entire County of Alameda and, if applicable, the total amount by weight collected by a Mail-Back Program."*

Regulations Sec. 15.C.iv: *"The Report Narrative shall include a brief description of the collection efforts over the past year."*

A. Kiosks

- MED-Project collected a total of 45,390.7 pounds of Unwanted Medicine through Kiosk Drop-Off Sites.

B. Mail-Back Packages

- MED-Project collected 6.08 pounds of Unwanted Medicine through the return of Inhaler Mail-Back Packages.
- MED-Project collected 32.95 pounds of Unwanted Medicine through the return of Standard Mail-Back Packages.
- MED-Project collected a total of 39.03 pounds of Unwanted Medicine through the return of Mail-Back Packages during the Reporting Period.

C. Take-Back Events

- MED-Project collected a total of 323.7 pounds of Unwanted Medicine through collection at the one Take-Back Event held during the Reporting Period.

D. Total Weight of Collected Unwanted Medicine

- MED-Project collected a total of 45,753.8 pounds of Unwanted Medicine through all methods.

IV. Kiosk Drop-Off Locations, Mail-Back Distribution, and Take-Back Events

Ordinance Sec. 6.53.080.A.3: "A description of the collection system, including the location of each collection site and, if applicable, locations where envelopes for a Mail-Back Program are provided."

Regulations Sec. 15.D.ii: "For each Collection Point: (a) Location, host site name, and address; (b) Collected Unwanted Products by weight over the past year; and (c) Number of times Unwanted Products was [sic] picked up for transportation per location."

Regulations Sec. 15.D.iii: "For any mail-back program: (a) The number of mail-back containers distributed; (b) The number of mail-back containers returned; and (c) Collected Unwanted Products by weight."

A. Kiosk Drop-Off Locations

See Appendix B; Table 2, Kiosk Drop-Off Site Locations.

See Appendix B; Table 3, Collection Point Collected Unwanted Products by Weight and Pick-Ups.

B. Mail-Back Package Distribution Locations

There are currently no mail-back distribution locations in the Jurisdiction.

C. Number of Mail-Back Packages Provided to Home-Bound and Under Served Residents

MED-Project distributed 256 Standard Mail-Back Packages and 34 Inhaler Mail-Back Packages directly to Residents. MED-Project identifies a total number of mail-back packages provided directly to Residents because it is unable to verify whether the recipient is home-bound or underserved.

See Appendix C; Mail-Back Packages Distributed Directly to Residents.

D. Take-Back Events

MED-Project performed one Take-Back Event during the Reporting Period.

See Appendix D; Take-Back Events.

V. Disposal Information

Ordinance Sec. 6.53.080.A.4: "The name and location of disposal facilities at which Unwanted Products were disposed of and the weight of Unwanted Products collected from Residential Generators disposed of at each facility."

Regulations Sec. 15.D.iv: "For each Disposal Facility: (a) The facility name, address and telephone number; and (b) The total weight of collected products disposed of at each Facility."

A. Disposal Facility Information

See Appendix E; Disposal Facilities.

VI. Compliance with Plan Policies

Ordinance Sec. 6.53.080.A.5: *"Whether policies and procedures for collecting, transporting, and disposing of Unwanted Products, as established in the Plan, were followed during the reporting period and a description of any noncompliance."*

MED-Project complied with Plan policies and procedures for collecting, transporting, and disposing of Unwanted Products during the Reporting Period, with deviations as described in Appendix F.

VII. Safety and Security Report

Ordinance Sec. 6.53.080.A.6: *"Whether any safety and security problems occurred during collection, transportation, or disposal of Unwanted Products during the reporting period and, if so, what changes have or will be made to policies, procedures, or tracking mechanisms to alleviate the problem and to improve safety and security."*

Regulations Sec. 15.C.vi: *"This section shall be provided on a separate page and clearly marked 'Safety and Security Report'. This section shall: (a) Identify any known security or safety incidents at Collection Points, events and during transportation or disposal. For each such incident, the report must include the following: (1) What, if any, corrective or other action was taken in response to the incident; (2) Any law enforcement or regulatory agencies involved in the incident; and (3) Any litigation, arbitrations or other legal proceedings arising out of, or involving, the incident."*

See Appendix G; Safety and Security Report.

VIII. Educational Efforts and Public Outreach

Ordinance Sec. 6.53.080.A.7: *"A description of public education and outreach activities implemented during the reporting period, including the methodology used to evaluate the outreach and Program activities."*

Regulations Sec. 15.C.v: *"The Report Narrative shall include a brief description of education and public outreach efforts over the past year."*

A. Public Education Activities

MED-Project provided disposal instructions for Kiosk Drop-Off Sites, Take-Back Events, and Mail-Back Services to Residents during the Reporting Period. In addition, MED-Project maintained the MED-Project Website and toll-free Call Center to provide information pertaining to MED-Project disposal options and outreach materials. The website, toll-free number, and outreach materials, such as posters and brochures, were available in English, Spanish, Chinese, Tagalog, and Vietnamese. See Appendix H for examples of brochures and posters. See Appendix I for examples of MED-Project Website pages and Appendix J for MED-Project Website page statistics.

B. Outreach Activities

MED-Project conducted the following outreach activities during the Reporting Period: provided print, broadcast television, radio, and digital advertising campaigns; distributed signage and brochures; posted information on social media sites and to the MED-Project Website, and sent email blasts. See Appendix K for brochure and poster distribution information. A list of the social media and email

outreach promotion activity is provided in Appendix L. The reach percentage for each campaign is provided in the Media Outreach Summary. See Appendix M.

C. Evaluation Activities

Per the current approved Plan, MED-Project conducted a biennial survey of Residents, pharmacists, and health professionals in the Jurisdiction who interact with patients to measure Program awareness and to evaluate the effectiveness of its education and outreach activities. The biennial survey was conducted from July to September 2020. MED-Project posted the results of the 2020 survey to the Website on December 3, 2020. 32% of Alameda County Residents surveyed remember being exposed to messaging in the past year about safely storing/disposing of unwanted and/or expired medicines. Additionally, of those Alameda County Residents surveyed, 27% reported using Kiosk Drop-Off Site locations, Mail-Back Services, or in-home disposal methods to dispose of medicines. Of this group, 88% used Kiosk Drop-Off Site locations. 75% of Alameda County Residents who have used medicine disposal programs believe the medicine disposal Program is easy to use, and 67% of the same group of Residents believe locations are easy to locate.

IX. Program Goals

Ordinance Sec. 6.53.080.A.8: *"How the Product Stewardship Program complied with all other elements in the product stewardship Plan approved by the Department, including its degree of success in meeting any performance goals set by the Department as part of its approval of the Program;*

Regulations Sec. 15.C.ii: *"The Report Narrative should include a summary of the Plan goals and the degree of success in meeting those goals in the past year. The discussion should include a summary of the efforts to meet the goals, any difficulty in meeting the goals, and if any goals have not been met, what effort will be made to achieve such goals in the next year."*

Regulations Sec. 15.C.iii: *"The Report Narrative should include proposed goals to be accomplished in the upcoming year. If the proposed goals differ from the original Plan goals, the Annual Report should include a discussion of the reasons for the suggested change(s)."*

A. Collection Goals

Short-term collection goals, as outlined in the approved Plan, were met with the implementation of Mail-Back Services for disabled and home-bound Residents, persons providing services to such Residents, and Residents in underserved areas of the County.

MED-Project continues to strive to meet the long-term goals to include the expansion of kiosk placement to additional eligible LEAs and retail and chain pharmacies with a long-term goal of establishing up to 100 Kiosk Drop-Off Sites while reducing collection through Take-Back Events. In coordination with household hazardous waste (HHW) events, MED-Project held one Take-Back Event during the Reporting Period.

Law enforcement oversight of MED-Project's one Take-Back Event during the Reporting Period was performed by the Alameda County Sheriff's Office. See Appendix D for more details.

Refer to Sections III and VI of this Report for specific collection information. Figure 1 shows a graphical representation of how MED-Project strives to meet service convenience and collection goals during the Reporting Period.

B. Education and Public Outreach Goals

MED-Project met the Plan's short-term goals, including adding Mail-Back Services to the Call Center and MED-Project Website for disabled and home-bound Residents, persons providing services to such Residents, and Residents in underserved areas of the County. MED-Project previously implemented a multilingual MED-Project Call Center and MED-Project Website in the Specified Languages: English, Spanish, Chinese, Vietnamese, and Tagalog.

MED-Project previously released a Public Service Announcement ("PSA") animation directed at Residents on social media websites, digital media, and broadcast television platforms. This PSA is available on the MED-Project Website.

On an ongoing basis, MED-Project may revise and add communications materials based on changes to the Plan.

C. Collector Outreach

MED-Project performed periodic outreach to potential eligible Kiosk Drop-Off Sites such as making phone calls, sending emails and letters, and conducting in-person site visits. Interested non-participating sites were contacted monthly until either the site began participating in the Program or the site indicated it no longer wanted to be considered for participation.

MED-Project's long-term goals include ongoing communication with pharmacies and LEAs and periodic evaluation and monitoring of participating Kiosk Drop-Off Sites.

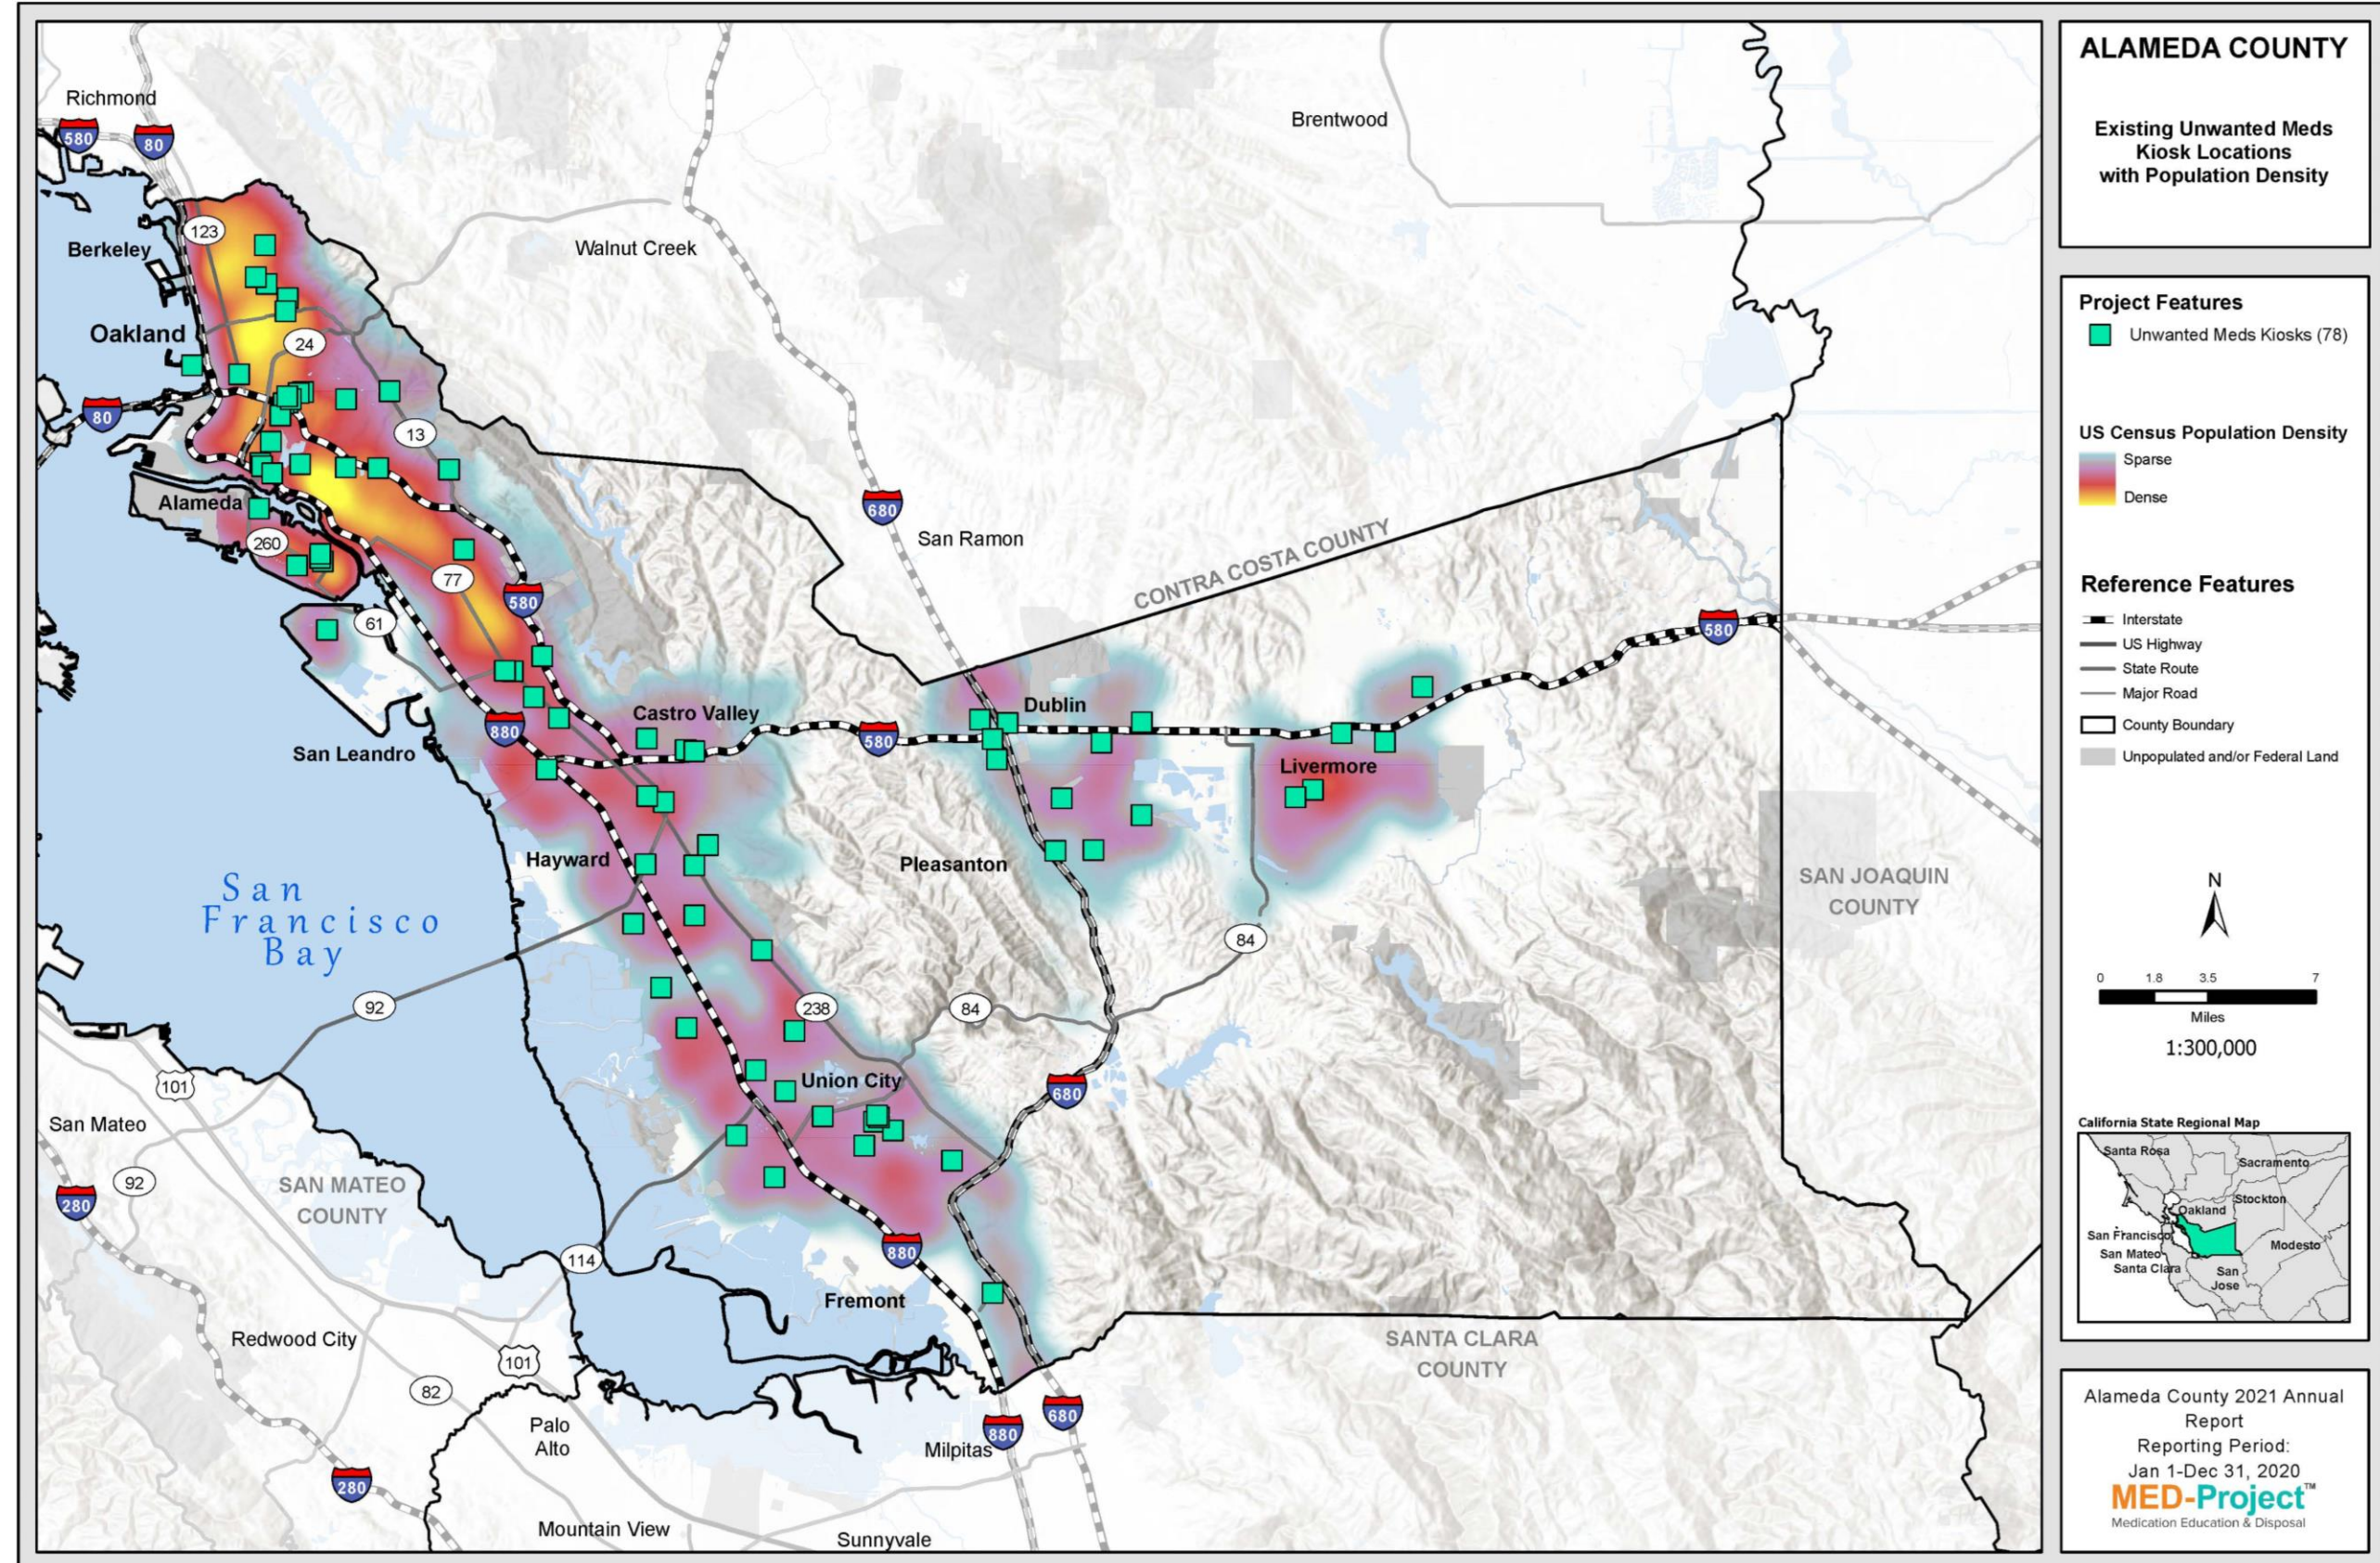

Figure 1: Map of Kiosk Drop-Off Sites

This page is intentionally left blank.

Plan Deviation Report

Event 1: MED-Project Website - Convenient Locations Page Downtime

Date: June 12-15, 2020

Description: MED-Project staff discovered on Monday June 15, 2020 that certain changes made to a database on Friday June 12, 2020 resulted in certain MED-Project website convenience page erroneously displaying as "coming soon".

Corrective Action Taken: The MED-Project website convenience pages was restored on June 15, 2020. MED-Project initiated enhancements to the change control process for uploading data to the database to prevent recurrence of this error.

Event 2: Mail-Back Package Order Processing

Date: October 22, 2020, and October 26, 2020

Description: Mail-back package orders submitted to the Vendor were not processed within 30 days of the order for up to 41 days. The orders were shipped the next business day when the error was discovered.

Corrective Action Taken: A new order management system was implemented November 5, 2020 which includes an email alert system. A weekly order review was also initiated.

Event 3: Notice of Change in Disposal Facility for Unwanted Medicine Boxes and Liners

Date: November 10, 2020, November 16, 2020, November 23, 2020, and November 24, 2020

Description: MED-Project was notified by its Vendor(s) of separate incidents where unwanted medicine boxes and liners collected from Alameda County host sites were shipped to a destruction facility that is not approved under the current MED-Project Product Stewardship Plan. The Vendor(s) indicated that the unwanted medicine boxes and liners were destroyed in compliance with applicable federal and state law.

In the first case, MED-Project was informed on January 15, 2021 that three unwanted medicine boxes and liners shipped from Alameda County host sites between November 10, 2020 and November 16, 2020 were destroyed at the Covanta Indianapolis facility located at 2320 South Harding Street, Indianapolis, Indiana 46221. The first Vendor reported that two main factors caused the boxes to be destroyed at an incorrect facility: In November, the Vendor transitioned service technicians. Due to the transition and the new technicians being new to the process, the employees were manually reconciling boxes, which created a backlog of boxes to receive and sort. Also, in November, the facility's automated conveyance line, which is used to sort and systematically palletize incoming material to ship to the correct end-destruction facility, experienced an outage lasting several days. Combined this resulted in a backlog of boxes that required manual sorting, which led to errors.

In the second case, MED-Project was informed on December 9, 2020 that three unwanted medicine boxes shipped from Alameda County host sites on November 23 and 24, 2020 were destroyed at the Covanta Lancaster facility located at 1911 River Road, Bainbridge, Pennsylvania 17502. The Vendor determined that a failure to properly visually inspect unwanted medicine packages received at the reverse distributor led to the event.

Corrective Action Taken: The first Vendor reported that the service technician transition was completed, and the automated conveyance line was repaired.

The second Vendor reported that it has amended its standard operating procedure to include confirmation with a scanning tool. The scanning tool will prompt the user to confirm waste type for all received unwanted medicine packages. This additional scan will be done in conjunction with a visual inspection.

Event 4: Host Site Shipment Schedule Plan Discrepancy

Date: 2020

Description: 95% of Unwanted Medicine boxes and liners were picked up within two business days of Unwanted Medicine box and liner preparation for shipment. The Unwanted Medicine box and liner preparation initiates scheduled pick-up by the Carrier. 90% of the Unwanted Medicine boxes and liners were picked up within four business days of scheduled pick-up.

Corrective Action Taken: MED-Project is continuing to monitor the Carrier's scheduled Unwanted Medicine box and liner pick-up performance and is working with the Vendor to improve Carrier pick-up coordination and scheduling. MED-Project identified that holiday periods caused pick-up delays due to seasonal shipping volume fluctuations and worked with the Vendor to adjust service dates to avoid the need for holiday pick-up days where possible. MED-Project is also in the process of instituting measures to provide additional information to the Carrier, via the Vendor, to better accommodate host site schedules and allow for more convenient pick-up times. MED-Project continues to monitor feedback from host sites to determine if they are experiencing inconvenience as a result of the pick-up delays and continues to work with sites to identify solutions, such as providing a second storage kiosk, where needed, to provide safe and secure storage of Unwanted Medicine boxes and liners.

Appendix G

Safety and Security Report

Event 1: Kiosk Keys Stolen During Civil Unrest

Date: June 24, 2020

Description: A host site in Alameda County reported that its location was broken into during an episode of civil unrest and that the cash register containing the kiosk keys was stolen during the break in. The site did not report any damage or tampering with the kiosk.

Corrective Action Taken: The kiosk locks were replaced, rendering the stolen keys unable to open the kiosk.

Event 2: Host Site Shipping Discrepancy

Date: November 17, 2020

Description: On January 26, 2021, MED-Project's Vendor reported to MED-Project that an Unwanted Medicine box and liner shipped from an Alameda County host site on November 17, 2020 was no longer tracking in the Carrier's system. The Carrier initially reported the box and liner as delivered to the reverse distributor facility before the box and liner were later confirmed as no longer tracking in the Carrier's system and were declared lost. The Carrier reported to the Vendor that the shipments were no longer tracking in its system. The Vendor has previously reported that the Carrier has policies and procedures for managing packages containing pharmaceuticals that it cannot deliver or return, including destruction at a permitted medical waste incinerator. For example, these procedures may apply if the shipping container's label was damaged and could no longer be tracked to its destination.

Corrective Action Taken: MED-Project requested that the host site preserve and share with MED-Project records and information related to the Unwanted Medicine box and liner at issue. MED-Project also notified the host site to review any independent reporting obligations it may have.

MED-Project requested that the Vendor provide a detailed report of its investigation and findings related to both the box and liner that are no longer tracking in the Carrier's system. MED-Project requested that the Vendor keep MED-Project apprised of: (1) any other outcomes from investigations into the apparent discrepancies; (2) any reports that Vendor makes regarding these apparent discrepancies to law enforcement or government agencies; (3) any law enforcement or government agency involvement with these apparent discrepancies; (4) any legal proceedings involving these apparent discrepancies; and (5) any changes in policy or procedure that Vendor has or is planning to make as a result of these apparent discrepancies.

MED-Project Brochure and Posters

WHAT SHOULD YOU DO WITH YOUR EXPIRED OR UNWANTED MEDICINE?

MED-Project™
Medication Education & Disposal

SAFELY DISPOSE OF EXPIRED OR UNWANTED MEDICINE

There are a number of ways to dispose of expired or unwanted medicine.

For more information about the MED-Project program, visit www.med-project.org or call 1 (844) MED-PROJECT or 1-844-633-7765 (TTY: 711).

What should you do with your expired or unwanted medicine?

Medicine helps treat diseases, manages chronic conditions, and improves health and well-being for millions of Americans. It is important that patients take their medicine as prescribed by their health care provider, and as indicated on the label or packaging. It is also important to be sure to store medicine securely to prevent accidental ingestion or misuse by others, especially children.

If you have expired or unwanted medicine, proper disposal is easy. To protect your privacy, patients are reminded to remove all personally identifiable information on medication labels or packaging before disposing of unwanted medicine.

This material has been provided for the purpose of compliance with legislation and does not necessarily reflect the views of MED-Project or the companies participating in the MED-Project Product Stewardship Plan.

¿QUÉ SE DEBE HACER CON LOS MEDICAMENTOS CADUCADOS O NO DESEADOS?

MED-Project™
Medication Education & Disposal

ELIMINACIÓN SEGURA DE MEDICAMENTOS CADUCADOS O NO DESEADOS

Existen varias maneras de deshacerse de los medicamentos caducados o no deseados.

Si desea obtener más información acerca del programa MED-Project, visite www.med-project.org o llame al 1 (844) MED-PROJECT 1-(844)-633-7765 (TTY: 711).

¿Qué se debe hacer con los medicamentos caducados o no deseados?

Los medicamentos ayudan a tratar enfermedades, controlar afecciones crónicas y mejorar la salud y el bienestar de millones de estadounidenses. Es importante que los pacientes tomen sus medicamentos según lo prescrito por su proveedor de atención médica y según lo indicado en la etiqueta o el envase. También es importante asegurarse de almacenar los medicamentos de manera segura para evitar la ingestión accidental o el uso indebido por parte de otras personas, especialmente por parte de los niños.

Si tiene medicamentos caducados o no deseados, es fácil desecharlos correctamente. Para proteger su privacidad, se les recuerda a los pacientes que eliminen toda la información de identificación personal de las etiquetas o los envases de los medicamentos antes de desechar los medicamentos no deseados.

Este es un material que se ha proporcionado con el fin de cumplir con la legislación y no refleja necesariamente el punto de vista de MED-Project o las compañías que participan en el Plan de gestión de productos de MED-Project.

Deseche cualquier artículo de la lista NO ACEPTADOS en la instalación local de desechos peligrosos. Llame al 1 (800) 606-6606 o visite Household-HazWaste.org para obtener más información.

CONVENIENT LOCATIONS

Community kiosk drop-off sites allow residents to bring expired or unwanted medicines and sharps to convenient locations for proper disposal.

MEDICINE

ACCEPTED: Medications in any dosage form, except for those listed below, in their original container or sealed bag.

NOT ACCEPTED: Herbal remedies, vitamins, supplements, cosmetics, other personal care products, medical devices, batteries, mercury-containing thermometers, sharps, and illicit drugs.

If transferring medications to a sealed bag, please be sure to recycle remaining packaging.

Please dispose of any items on the NOT ACCEPTED list at your local Hazardous Waste Facility. Call 1 (800) 606-6606 or visit [Household-HazWaste.org](https://household-hazwaste.org) for details.

SHARPS

ACCEPTED: Sharps (such as hypodermic needles, pen needles, pre-loaded sharps, auto-injectors, intravenous needles, lancets, and other devices used to penetrate the skin for drawing blood, or for the delivery of medicines) contained in U.S. Food and Drug Administration-cleared sharps containers.

NOT ACCEPTED: Controlled substances, unwanted medicines not contained in sharps, and loose sharps that are not contained in U.S. Food and Drug Administration-cleared sharps containers.

All sharps disposal containers should be made of heavy-duty plastic; able to close with a tight-fitting, puncture resistant lid without sharps being able to come out; upright and stable during use; leak-resistant; and properly labeled as "sharps waste" or with the biohazard symbol and the word "BIOHAZARD" to warn of hazardous materials inside the container.

MAIL BACK

MEDICINE MAIL-BACK SERVICES

Mail-Back Services for expired or unwanted medicines are available, free of charge, to home bound and under-served residents upon request. Medications in any dosage form, except for those identified as Not Accepted below, in their original container or sealed bag are accepted.

NOTE: The following items are not accepted in Medicine Mail-Back Envelopes: Herbal remedies, vitamins, supplements, cosmetics, other personal care products, medical devices, batteries, mercury-containing thermometers, sharps, illicit drugs, and inhalers.

If transferring medications to a sealed bag, please be sure to recycle remaining packaging.

Please dispose of any items on the NOT ACCEPTED list at your local Hazardous Waste Facility. Call 1 (800) 606-6606 or visit [Household-HazWaste.org](https://household-hazwaste.org) for details.

INHALER MAIL-BACK SERVICES

Mail-Back Services for inhalers are available, free of charge, to home-bound and under-served residents upon request.

NOTE: Only place undamaged inhalers in their original containers in the Inhaler Mail-Back Package. Inhaler Mail-Back Packages can only be used for inhalers and cannot accept other types of items.

SHARPS MAIL-BACK SERVICES

Sharps Mail-Back Services are available to residents who are home-bound or have a disability, and to persons providing services to such residents upon request. Sharps (such as hypodermic needles, pen needles, pre-loaded sharps, auto-injectors, intravenous needles, lancets and other devices used to penetrate the skin for drawing blood, or for the delivery of medications) contained in U.S. Food and Drug Administration-cleared sharps containers are accepted.

NOTE: The following are not accepted in Sharps Mail-Back Package: Controlled substances, unwanted medicines not contained in sharps, and loose sharps that are not contained in U.S. Food and Drug Administration-cleared sharps containers.

All sharps disposal containers should be made of heavy-duty plastic; able to close with a tight-fitting, puncture resistant lid without sharps being able to come out; upright and stable during use; leak-resistant; and properly labeled as "sharps waste" or with the biohazard symbol and the word "BIOHAZARD" to warn of hazardous materials inside the container.

Please complete the below form to request a pre-paid, pre-addressed mail-back package. Instructions for disposal will be provided with all mail-back services. Please submit separate forms for each type of mail-back package.

IN-HOME DISPOSAL

If no disposal instructions are given on the drug labeling and no take-back program is available in your area, throw the drugs in the household trash following these steps:

1. Remove them from their original containers and mix them with an undesirable substance, such as used coffee grounds, dirt, or kitty litter (this makes the drug less appealing to children and pets, and unrecognizable to people who may intentionally go through the trash seeking drugs).
2. Place the mixture in a sealable bag, empty can, or other container to prevent the drug from leaking or breaking out of a garbage bag.

Do not flush any medication down the sink or toilet unless the information on the packaging specifically instructs you to do so. Never place sharps in the trash or recycling, and never flush them down the toilet. Disposing of sharps in the trash or recycling may put trash and sewage workers, janitors, housekeepers, household members, and children at risk of being harmed.

MEDinfo

Medicines help treat diseases, manage chronic conditions, and improve health and well-being for millions of Americans. It is important that patients take their medicines as prescribed by their health care provider and as indicated on the label or packaging. It is also important to be sure to store medicines and sharps securely to prevent accidental ingestion or misuse by others, especially children.

There are a number of ways to dispose of expired or unwanted medicines or sharps. To protect your privacy, patients are reminded to remove all personally identifiable information on medication labels or packaging before disposing of unwanted medicines.

For additional information on the program, MED-Project has developed an educational toolkit which includes the materials below.
