## I. Executive Summary

**Regulations Sec. 15.C.i.** *“The purpose of the Executive Summary is to provide a broad understanding of the Plan as a whole and content for the data and information that will follow. This Summary should include a brief description of collection and disposal efforts during the reporting period. The executive summary should also include a description of proposals to improve collection efforts and challenges encountered during the reporting period, and how they will be addressed. (Security issues must be addressed separately as set forth below.)”*

MED-Project LLC (“MED-Project”) operates a Product Stewardship Plan for Unwanted Medicine from Households (“Plan”) in the Alameda County (“Jurisdiction”) under the Alameda County General Ordinance Code, Chapter 6.53, the Alameda County Safe Drug Disposal Ordinance (“Ordinance”) and the Alameda Safe Drug Disposal Regulations (“Regulations”). On April 8, 2019, the Jurisdiction approved MED-Project’s Plan, dated February 15, 2019, and amended March 27, 2019 (“Approved Plan”). This 2021 Alameda County Unwanted Medicine Annual Report (“Report”) describes MED-Project’s activities between January 1, 2021, and December 31, 2021 (“Reporting Period”). All capitalized terminology not defined in this summary is derived from the Approved Plan.

The information that follows includes a description of proposals to improve collection efforts (e.g., through the prioritization of kiosks and the submission of notifications to expand collection options) and challenges encountered during the reporting period (e.g., the COVID-19 pandemic), and how they were addressed. It also includes a brief description of collection and disposal operations during the Reporting Period.

### A. Notifications in the Reporting Period

MED-Project submitted a number of change requests and notices during the Reporting Period (notices providing status updates related to the effects of the COVID-19 pandemic are discussed in the COVID-19 Pandemic-Related Notifications section below). The change requests and notices included:

- An update for December 2020, submitted to the Jurisdiction on January 13, 2021. The updates consisted of COVID notices, outreach activities, and upcoming activities. MED-Project also provided updates as follows:

Reporting Period	Submittal Date

- On February 15, 2021, MED-Project submitted a Petition for Exception, to use the Host-Assisted Collection Kiosk Drop-Off Sites listed in the Petition. On February 18, 2021, the Jurisdiction approved the Petition.
- On May 10, 2021, MED-Project submitted a Petition for Exception, to use the Host-Assisted Collection Kiosk Drop-Off Sites listed in the Petition. On May 13, 2021, the Jurisdiction approved the Petition.

- On October 21, 2021, MED-Project submitted a Petition for Exception, to use the Host-Assisted Collection Kiosk Drop-Off Sites listed in the Petition. On October 27, 2021, the Jurisdiction approved the Petition.
- On November 17, 2021, MED-Project submitted a notice of non-material change to the Jurisdiction, in which a Vendor name was changed.
- On December 10, 2021, MED-Project submitted a notice of non-material change to the Jurisdiction, in which a Vendor address was updated

## B. COVID-19 Pandemic-Related Notifications

- On May 19, 2021, MED-Project submitted a sixth COVID-19 pandemic response notification, which indicated that 10 Kiosk Drop-Off Sites remained restricted.
- On September 1, 2021, MED-Project submitted a seventh COVID-19 pandemic response notification, which indicated that seven Kiosk Drop-Off Site remained restricted.

For details on COVID-19 pandemic-restricted site access statuses during the Reporting Period, see Appendix M, Table 12: Reporting Period Access Restrictions.

Among the challenges encountered during the Reporting Period was the COVID-19 Pandemic. An animated and audio Public Service Announcement (“PSA”) encouraging safe disposal of Unwanted Medicine and use of Mail-Back Services in response to the COVID-19 pandemic was used during the Reporting Period. MED-Project conducted media campaigns during the Reporting Period in the Jurisdiction, which included information about and promoted the use of Mail-Back Services in response to the

continuing COVID-19 pandemic. The campaigns included print, television, radio, and digital platform spot ads, and social media posts on Facebook and Twitter.

MED-Project also converted 11 Kiosks Drop-Off Sites from the Scheduled Collection Service (SCS) method to the On-Demand Collection Service (ODCS) Method. The ODCS method allows for host sites to increase efficiency of pickups while limiting contact with Vendor technicians, reducing the risk of COVID transmission during pickups.

## C. Reporting Period Operations Overview

During the Reporting Period, priority was given to establishing Kiosk Drop-Off Sites throughout the Jurisdiction, and performing outreach to eligible pharmacies, hospitals, and clinics with on-site pharmacies, and Law Enforcement Agencies (“LEAs”). During the reporting period, MED-Project’s Program collected and disposed of Unwanted Medicine from 81 Kiosk Drop-Off Sites during the Reporting Period. MED-Project installed eight new Kiosk Drop-Off Sites throughout the Jurisdiction during the Reporting Period.

Kiosks were installed in pharmacies that meet all local, state, and federal requirements and that executed agreements with MED-Project. In addition, outreach and educational materials, including signage and/or brochures, were distributed to existing Kiosk Drop-Off Sites.

MED-Project provided disposal instructions for Kiosk Drop-Off Sites and Mail-Back Services to Residents and continues to communicate with Kiosk Drop-Off Site Hosts to distribute outreach materials upon request, review procedures as needed, and improve overall Program design.

As outlined in the Approved Plan, the ultimate goal of the Program is to provide Residents with convenient, safe, and accessible methods to dispose of Unwanted Medicine. MED-Project anticipates a steady increase in the number of Kiosk Drop-Off Sites in 2022 as a result of ongoing outreach and Program activities, especially if there is increased retail chain pharmacy participation in the Program.

The following Sections of the Report respond to specific reporting requirements in Ordinance Section 6.53.080 and Regulations Section 15. Each section of the Report restates the corresponding Ordinance and Regulations requirements and provides the required information. All figures are rounded to the nearest tenth place.

MED-Project is also providing an Errata List for the 2020 Annual Report submitted on March 1, 2021, revised on March 31, 2021; See Appendix N: Errata List for the 2020 Annual Report.

### A. Collection Goals

Short-term collection goals, as outlined in the approved Plan, were met with the implementation of Mail-Back Services for disabled and home-bound Residents, persons providing services to such Residents, and Residents in underserved areas of the County.

MED-Project continues to strive to meet the long-term goals to include the expansion of kiosk placement to additional eligible LEAs and retail and chain pharmacies with a long-term goal of establishing up to 100 Kiosk Drop-Off Sites while reducing collection through Take-Back Events. MED-Project has established 83 Kiosk Drop-Off Sites and in coordination with household hazardous waste (HHW) events, MED-Project held six Take-Back Event during the Reporting Period.

Law enforcement oversight of MED-Project's six Take-Back Events during the Reporting Period was performed by the Alameda County Sheriff's Office. See Appendix D for more details.

Refer to Sections III and VI of this Report for specific collection information. Figure 1 shows a graphical representation of how MED-Project strived to meet service convenience and collection goals during the Reporting Period.

## **B. Education and Public Outreach Goals**

MED-Project previously met the Plan's short-term goals, including adding Mail-Back Services to the Call Center and MED-Project Website for disabled and home-bound Residents, persons providing services to such Residents, and Residents in underserved areas of the County. MED-Project previously implemented a multilingual MED-Project Call Center and MED-Project Website in the Specified Languages: English, Spanish, Chinese, Vietnamese, and Tagalog.

MED-Project previously released a Public Service Announcement ("PSA") animation directed at Residents on social media websites, digital media, and broadcast television platforms. This PSA is available on the MED-Project Website.

On an ongoing basis, MED-Project may revise and add communications materials based on changes to the Plan.

## **C. Collector Outreach**

MED-Project performed periodic outreach to potential eligible Kiosk Drop-Off Sites such as making phone calls, sending emails and letters, and conducting in-person site visits. Interested non-participating sites were contacted periodically until either the site began participating in the Program or the site indicated it no longer wanted to be considered for participation.

MED-Project's long-term goals include ongoing communication with pharmacies and LEAs and periodic evaluation and monitoring of participating Kiosk Drop-Off Sites.

## Safety and Security Report

### Event 1: Potential Safety Event

**Date:** April 30, 2021

**Description:** A Host Site staff member contacted MED-Project to report that the employee was boxing an unwanted medicine liner and came in contact with a loose lancet. MED-Project was unable to verify if the staff member had a needle stick.

**Corrective Action Taken:** MED-Project's Vendor performed a rapid response and overpacked the box and liner per the Vendor's procedures for shipment. Proper procedures for sealing the inner unwanted medicine liner were reviewed with the Host Site staff. Updated information flyers with Rapid Response instructions are now provided to all Host Sites.

**Whether Any Law Enforcement or Regulatory Agencies Involved:** None. There were no litigation, arbitrations, or other legal proceedings arising out of, or involving, the incident.

### Event 2: Host Site Shipping Discrepancy

**Date:** May 13, 2021

**Description:** On May 13, 2021, MED-Project's Vendor reported to MED-Project that an Unwanted Medicine box and liner shipped from an Alameda County host site on April 15, 2021 was no longer tracking in the Carrier's system and was declared lost. The Vendor has previously reported that the Carrier has policies and procedures for managing packages containing pharmaceuticals that it cannot deliver or return, including destruction at a permitted medical waste incinerator. For example, these procedures may apply if the shipping container's label was damaged and could no longer be tracked to its destination.

**Corrective Action Taken:** This event was reported to Alameda County on April 15, 2021. MED-Project requested that the host site preserve and share with MED-Project records and information related to the Unwanted Medicine box and liner at issue. MED-Project also notified the host site to review any independent reporting obligations it may have.

MED-Project requested that the Vendor provide a detailed report of its investigation and findings related to the box and liner that is no longer tracking in the Carrier's system. MED-Project requested that the Vendor keep MED-Project apprised of: (1) any other outcomes from investigations into the apparent discrepancies; (2) any reports that Vendor makes regarding these apparent discrepancies to law enforcement or government agencies; (3) any law enforcement or government agency involvement with these apparent discrepancies; (4) any legal proceedings involving these apparent discrepancies; and (5) any changes in policy or procedure that Vendor has or is planning to make as a result of these apparent discrepancies.

**Whether Any Law Enforcement or Regulatory Agencies Involved:** None. There were no litigation, arbitrations, or other legal proceedings arising out of, or involving, the incident.

Medicines help treat diseases, manage chronic conditions, and improve health and well-being for millions of Americans. It is important that patients take their medicines as prescribed by their health care provider and as indicated on the label or packaging. It is also important to be sure to store medicines and sharps securely to prevent accidental ingestion or misuse by others, especially children.

There are a number of ways to dispose of expired or unwanted medicines or sharps. To protect your privacy, patients are reminded to remove all personally identifiable information on medication labels or packaging before disposing of unwanted medicines.

For additional information on the program, MED-Project has developed an educational toolkit which includes the materials below.
